

The Maine Center for Disease Control and Prevention, School Oral Health Program is pleased to announce

A Free Dental Screening for Children

The Maine Center for Disease Control and Prevention, School Oral Health Program is welcoming children of all ages living in Kennebec County for a free dental screening and fluoride varnish application. The screening should take less than five minutes.

Services will be provided by a Maine licensed dentist or dental hygienist. **No appointment is necessary.** Please remain in your vehicle and call at the time of arrival. The number to call will be posted at the Dental Center.

Saturday, November 7, 2020
