

**Tips for Using WIC Infant Formula Checks--see check image below:**

**1. It is very important that you buy the correct formula for your baby.** WIC infant formula checks have the formula name that your baby needs. Not all infant formulas are the same. Infant formula checks include the following:

**② The size of the formula can is on the check.** The formula you buy must be the same size as listed on the check.

**③ The formula type is on the check:**

- Powdered
- Concentrate
- Ready to Feed

The formula you buy must be the same type as listed on the check.

**④ The name of the formula is on the check.** The formula you buy must be the same name as listed on the check.

**⑤ The last 5 digits of the "UPC" code on the formula can.** These numbers must match the numbers of the formula you are buying for your baby.

If you have questions about infant formula checks for your baby, please contact your WIC office.
