

Post-Acute Transitional Care Utilizing the Swing Bed Program: How Mayo Clinic Collaborated with CAHs to Improve Financial Stability and Quality Outcomes for Patients

Dates: Thursday, May 16, 2019

Time: 2 - 3 PM CDT

Cost: Free

Target Audience: Chief Executive Officer; Chief Financial Officer; Chief Nursing Officer; Director of Nursing

Rural residents across the country have access to fewer healthcare services, lower economic and insurance status, fewer physicians per capita, and higher chronic disease rates than their urban peers. More rural hospitals have closed recently than in the prior 15 years combined. Maintaining the long-term viability of CAHs will be essential for rural healthcare delivery. Furthermore, 20% of Medicare patients are hospitalized each year and almost half require care after being discharged from the hospital to assist them in their recovery from serious illnesses. Allevant, developed by Mayo Clinic and Select Medical helps Critical Access Hospitals thrive by establishing Transitional Post-Acute Care Programs.

Participants will be able to understand the value of developing high-quality Post-Acute Transitional Care in Critical Access Hospitals in response to a growing patient population and demands and challenges in acute care hospitals.

Participants will be able to begin to quantify the opportunity, understand the key steps to initiate, implement and track progress in developing high-quality Post-Acute Transitional Care

Presenters:

Mark Lindsay, MD, is an Assistant Professor of Medicine at Mayo Clinic College of Medicine. He has practiced at Mayo Clinic Health System Eau Claire since 1997. He served as Quality Officer for Mayo Clinic Health System from 2006-2010 supporting Quality, Patient Safety and Service Excellence for 19 hospitals and 70 clinics in Minnesota, Wisconsin, and Iowa. His Master's project from the USC School of Business was the development of 11 Transitional Care programs in Minnesota, Wisconsin, and Iowa. He presently serves as Medical Director for Allevant supporting rural healthcare post-acute pathways.

Jordan Tenenbaum, MHA, serves as Executive Vice President of Allevant Solutions. Jordan served as CEO for Select Specialty Hospital - St. Louis, part of Select Medical's 109 long-term acute care (LTAC) hospitals and 18 rehabilitation hospitals. As an executive with extensive health care experience in the for-profit, non-profit and academic-based sectors, Jordan received a bachelor's degree in Kinesiology at the University of Wisconsin - Madison, a master's in Hospital Administration from Washington University in St. Louis, and a Fellowship in Hospital Administration from Thomas Jefferson University Hospital.

Monica Bourgeau, MS, serves as Vice President, Business Development of Allevant Solutions. Monica has more than twenty years of experience in healthcare leadership positions, including nearly ten years leading national rural healthcare transformation programs for critical access hospitals. She has a master's degree in Management with an emphasis on Organizational Leadership from Warner Pacific College, and a bachelor's degree in Psychology from Colorado State University.
