Docket For Schools

Top menu allows users to navigate between each portion of the program depending on level of access.

- Dashboard
 - Provides a high-level view of a school's compliance by grade level.
- Students
 - View students by grade and their compliance.
- Roster
 - Update student by grade/individual or whole school upload.
- Staff
 - Add/Remove staff, send invitations to new staff based on role.

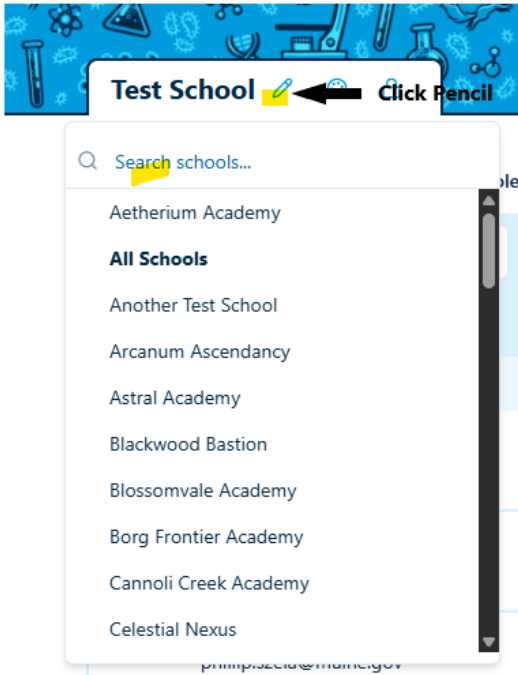

Navigate to a School.

Search between and navigate to each individual school.

Click Pencil Icon.

Type all or part of school name.

Select School.

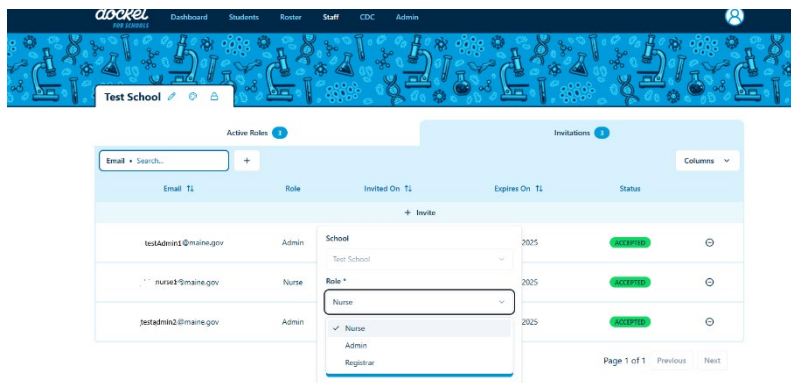

Staff

Access to DFS is role based and by email invitation only.

Via the staff page, Navigate to any school.

Staff can be invited to each school by email domain match.

Click **Staff** top of page.

Navigate to school as described above.

Select **Active Roles** to View current Staff at each school.

Select **Invitations** for new invites or to view/confirm pending invitations.

Within invitations a Nurse or Admin can **invite** all roles to their school.

Click “+ Invite”

Role selection

Admin

Can invite or remove staff and run CDC reports. Ability to view dashboard level aggregate data. 

Nurse

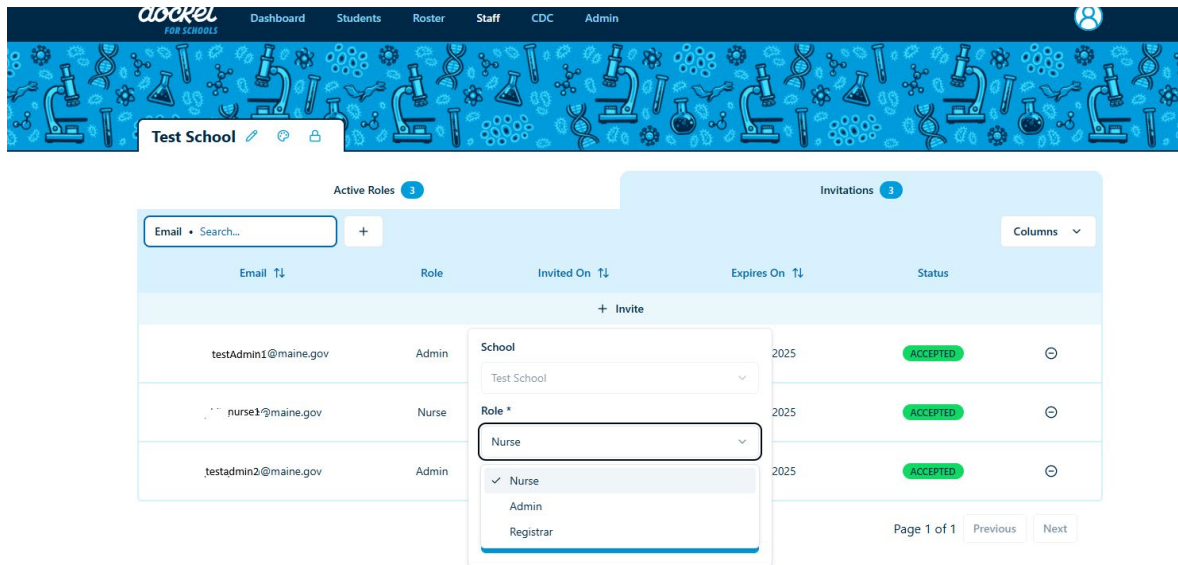

Can add/update student rosters or add individual students. Nurses can view student names and vaccinations in each grade. Nurses can apply overrides/exemptions for vaccine groups of non-compliant students.

Also, nurses can create recall letters for non-compliant students.

Registrar

Can update student rosters. Either through upload or individual edit/add.

Within the Staff page a user can navigate to each school they have access and **invite** based on the role desired.

Invited user’s email must match that school’s domain e.g. frank@windamprivatehighschool.com

School

Test School

Role *

Nurse

Email * ⓘ

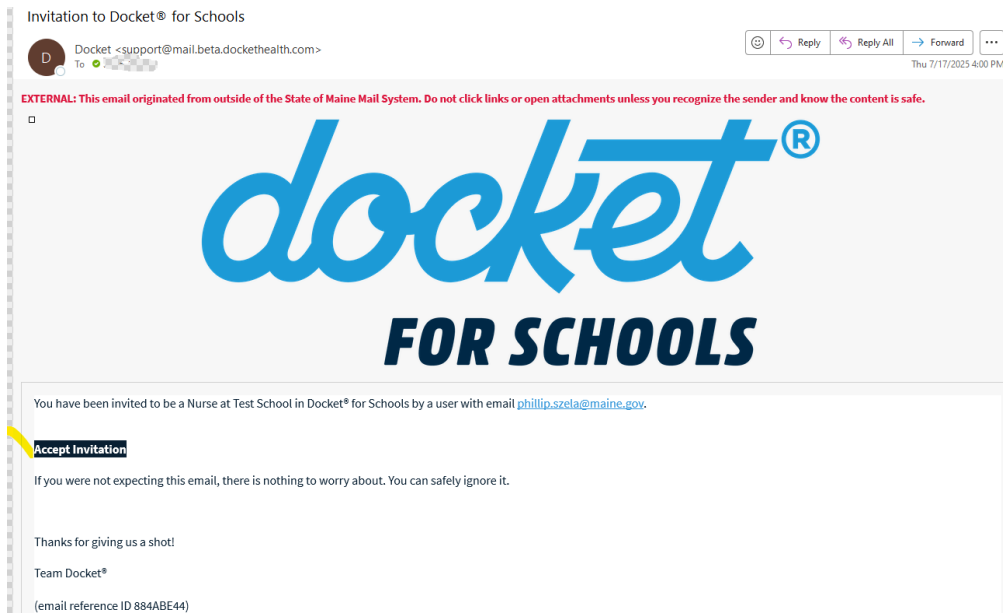

Send Invite

Click Send Invite. An email invite link will be emailed to that individual; docket doesn’t use passwords only these email links.

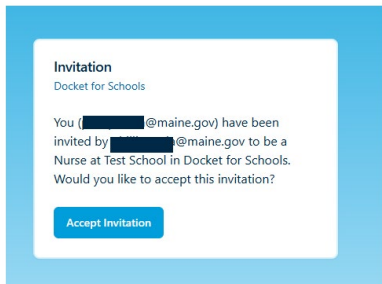

Once an invite is sent, that email’s status in the staff invitations page will change to pending.

The invite will be delivered to that email as a clickable link in the phrase “Accept Invitation” .

Clicking this link will bring the user to a webpage where they will click “Accept Invitation”.

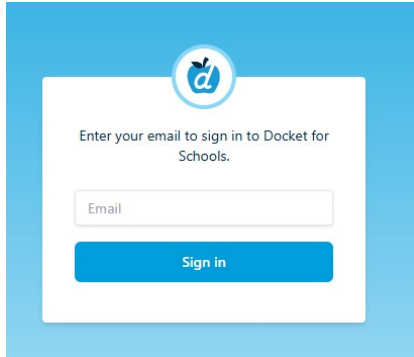

Once a staff member has Accepted this Invitation, their email on the staff invitation page will change to.

ACCEPTED

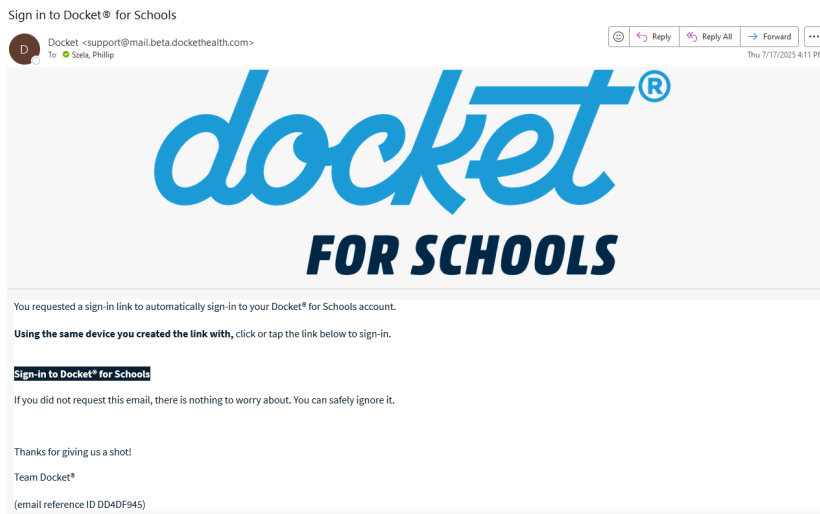

Sign-In to Docket For Schools is the same as the initial accepting of invitation.

Navigate to me.schools.dockethealth.com

Enter users personal email

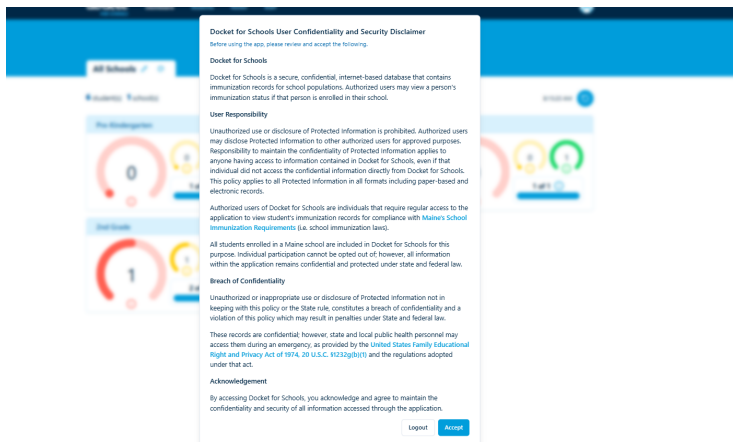

Go to user personal email inbox and click “Sign-in To Docket For Schools”

The users default browser will then open Docket For Schools to the Dashboard

Docket for Schools User Confidentiality and Security Disclaimer

Users will have to accept an acknowledgement of confidentiality and security.

Roster

Clicking **Roster** at the top of the page will open the roster for the users current school.

Navigate between schools as described above.

Registrars and Nurses have access to be able to update individual or bulk student names, grades, start dates and contacts.

If updating in bulk it is imperative that the current roster is downloaded first this will preserve internal ids and any changes that are made.

Bulk Update

Nurses and Registrars can add to/update their Roster for each school in bulk by first downloading their Roster. If no students are rostered, a blank roster will download.

Step One

Export the existing roster as a CSV file. Edit the file to add, remove, or modify existing students. If your school has no students in the roster yet, you can use this to download a template.

 Download

 View Examples

File Format

View a template of the desired format above. By clicking “View Examples”

The format for the file by column heading is described below. .csv, .xls, xlsx acceptable file formats (default is .csv), or simply download the first blank roster adding student rows as needed.

Required Header	Example	Can be left Blank	Description
studentId	123456789	yes	The unique student identifier (ID) for the student used by the Department of Education. (optional)

firstName	Alice	no	Provide the first name of the student.
lastName	Docket	no	Provide the last name of the student.
contactFirstName	Johnny	yes	Provide the first name of the student's parent or guardian.
contactLastName	Docket	yes	Provide the last name of the student's parent or guardian.
contactPhone	372-555-5555	yes	Provide a valid US phone number for the student's parent or guardian.
gradeStartDate	2025-09-12	no	Provide the date the student started their current grade in any of the following formats: yyyy-MM-dd,M/d/yy,MM/dd/yyyy,MM-dd-yyyy,M/d/yyyy,M-d-yyyy,MM/dd/yy,MM-dd-yy. Example: 2021-01-01.
dateOfBirth	1/20/2018	no	Provide the student's date of birth in any of the following formats: yyyy-MM-dd,M/d/yy,MM/dd/yyyy,MM-dd-yyyy,M/d/yyyy,M-d-yyyy,MM/dd/yy,MM-dd-yy. Example: 2021-01-01
legalSex	female	no	Provide the student's legal sex as one of the following; male,female,other,unknown, m , f , o , u
grade	3	no	Provide the student's grade as one of the following: Pre-K,K,1,2,3,4,5,6,7,8,9,10,11,12.
INTERNAL_USE_ONLY_ID		yes	This is reserved for internal use only. Do not edit.

After additions or edits are applied to the downloaded roster file.

Proceed to Step two.

Step Two

Upload the CSV/Excel file you made your changes in. If there are validation errors, please fix them and try to upload the file again.

Clicking upload will open a dialog allowing for upload of the edited/updated Roster file.

Select the file. Click open.

Step Three is confirm changes.

Individual Student Add\Update

Docket For Schools also allows editing or adding students individually.

Click Roster.

Click Student Editor.

Students can be added to individual grades, within any school a Registrar or Nurse has access to.

Navigate to desired school.

Click the desired grade and select the “Add Student” icon to add a student individually.

The screenshot shows the 'Student Editor' interface. At the top, there are tabs for 'File Sync' and 'Student Editor'. Below these are grade selection buttons: 'Pre-K', 'K', '1st', '2nd', and '7th'. A search bar is labeled 'Name • Search...'. A blue button with a plus sign and the text '+ Add Student' is circled in yellow. Below the search bar is a table with columns: Name, Student ID, Contact Name, Phone, Legal Sex, DOB, Grade Start, and Actions. The table contains two rows of student data. At the bottom right, there is a pagination control showing 'Page 1 of 1' and 'Previous' and 'Next' buttons.

<input type="checkbox"/>	Name abc ↑↓	Student ID	Contact Name	Phone	Legal Sex	DOB	Grade Start	Actions
<input type="checkbox"/>	RICHIE RICH		POUND NOTE	207-776-1256	male	03/24/2018	07/21/2027	Edit Delete
<input type="checkbox"/>	JAZZLYN NORRIS		PHILLIP NORRIS	(207)342-6522	female	11/29/2017	07/20/2027	Edit Delete

This will open a dialog box to add a student to that school in that grade. Make sure all fields meet the requirements described above.

The 'Add Student' dialog box contains the following fields:

- First Name *** and **Last Name *** (text input fields)
- Grade *** (dropdown menu, currently showing 'Pre-Kindergarten')
- Legal Sex** (dropdown menu, currently showing 'unknown')
- Date of birth *** (text input field with placeholder 'mm/dd/yyyy')
- Grade Start *** (text input field with placeholder 'mm/dd/yyyy')
- Student ID** (text input field)
- Contact** section with **First Name**, **Last Name**, and **Phone** (text input fields)
- Submit** button

An alternative grade can be selected if needed

*Note after any change the students vaccine history will have to be requested again. New students records will be automatically requested.

Students

Clicking .

Navigate to a school as described above.

Select an individual grade to review/override student compliance to vaccine requirements for that grade.

Request Immunization Records From IIS

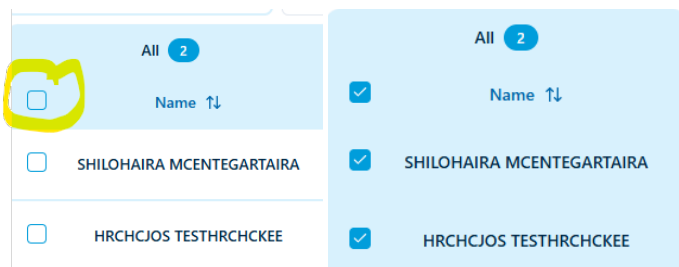

Records are requested initially.

Records must be requested for review.

An “X” in the record column of student states no request for records has been made.

<input type="checkbox"/>	Name ↑↓	Trajectory ↑↓	Record ⓘ
<input type="checkbox"/>	DUSTIN DOWLER	-	X

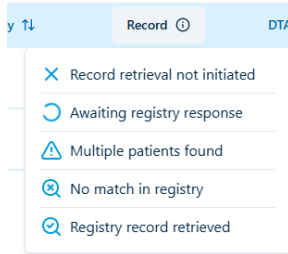

To request student vaccination records from the state database. Select one or all students in a grade via the checkbox to left of each individuals name. Select all is defined below.

Select one, all, or many students then Request Student Records.

The icon in the students record column will cycle until a result is found or there is no registry match etc.

Ideally a student returns a record and is compliant for all vaccinations for that grade level.

If so no further action is needed for that student.

Enhanced Student Search

The ImmPact Help Desk (ImmImpact.Support@maine.gov) can now assist you by adding a student's current last name under "AKA" in the system, enabling record retrieval without modifying provider-data.

Hover over a students name and click.

Their Student Sheet will slide in on the right side of the screen.

Within each student record, you can now edit search query criteria—such as the mother’s first and last name or an AKA to improve record matching.

Query Adjustments ⓘ Edit

First Name	<input type="checkbox"/>	None	Mother's Maiden First	<input type="checkbox"/>	None
Middle Name	<input type="checkbox"/>	None	Mother's Maiden Last	<input type="checkbox"/>	None
Last Name	<input type="checkbox"/>	None			

Compliance

Students can/will also return a record that is Non-Compliant even if that record has

a Registry record retrieved , symbol.

<input checked="" type="checkbox"/>	Name ↑↓	Trajectory ↑↓	Record ⓘ	DTAP ⓘ	MMR ⓘ	POLIO ⓘ	VARICELLA ⓘ
<input checked="" type="checkbox"/>	RICHIE RICH	-		Non-Compliant	Non-Compliant	Non-Compliant	Non-Compliant

In that case those students will appear in both the All tab and the Action Needed tab. Clicking the action needed tab will bring all Non-compliant students into a short list for that grade.

All 2
Action Needed 2
At Risk 0
No Action Needed 0

<input type="checkbox"/>	Name ↑↓	Trajectory ↑↓	Record ⓘ	DTAP ⓘ	MMR ⓘ	POLIO ⓘ	VARICELLA ⓘ

<input type="checkbox"/>	JAZZLYN NORRIS	-		Non-Compliant	Non-Compliant	Non-Compliant	Non-Compliant

Clicking the information icon next to each vaccine group will state the requirement for that grade.

Record ⓘ DTAP ⓘ MMR ⓘ

For students ages six years old and younger, a total of five doses of are required, except that, if the fourth dose was administered on or after the child's fourth birthday, then only four doses are required. For students seven years of age and older, a minimum of three doses with the last dose administered on or after the child's fourth birthday is required. A student who did not complete their primary series requires a single dose of Tdap followed by either Tdap or Td until three doses have been achieved.

To Make Non-Compliant Students compliant access their **Student Sheet**.

VARICELLA	Override
MMR	Non-Compliant
DTAP	Non-Compliant

Hover over a students name and click.

Name ↑↓

RONNY WHEELER

Their Student Sheet will slide in on the right side of the screen.

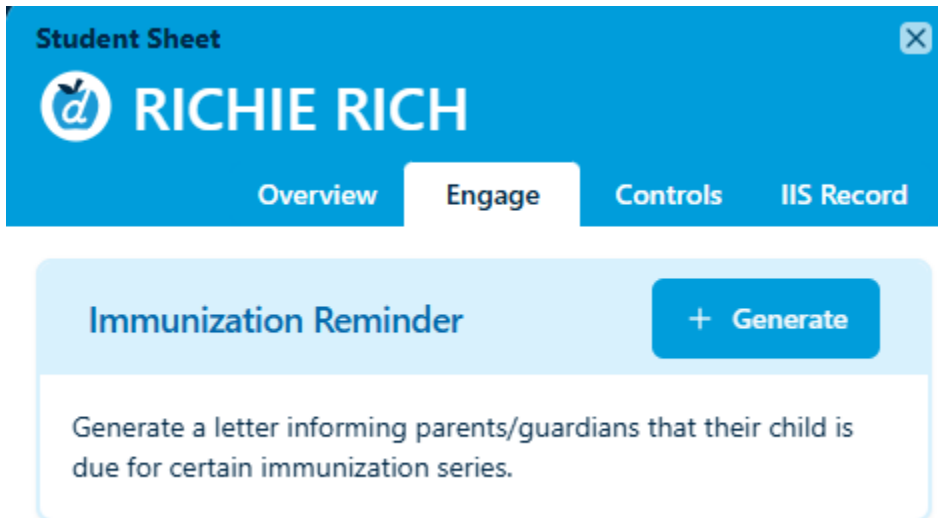

This represents all the information entered on the student (Overview) and the information returned from the the records request (IIS Data).

Here exemptions and overrides that can also be applied and their supporting documentation stored (Controls).

Overview

Students roster information appears with an overview of compliance.

Quickly create a letter for their Parent/Guardian stating they need whichever vaccine groups are due by clicking the Engage tab and + Generate button.

Controls

To override, exempt, or add an enrollment condition documentation is needed. Prepare documentation of Physical Proof of Immunity, Physical Immunization Record, Medical Exemption, enrollment waiver etc. Save it to a location accessible on your local machine.

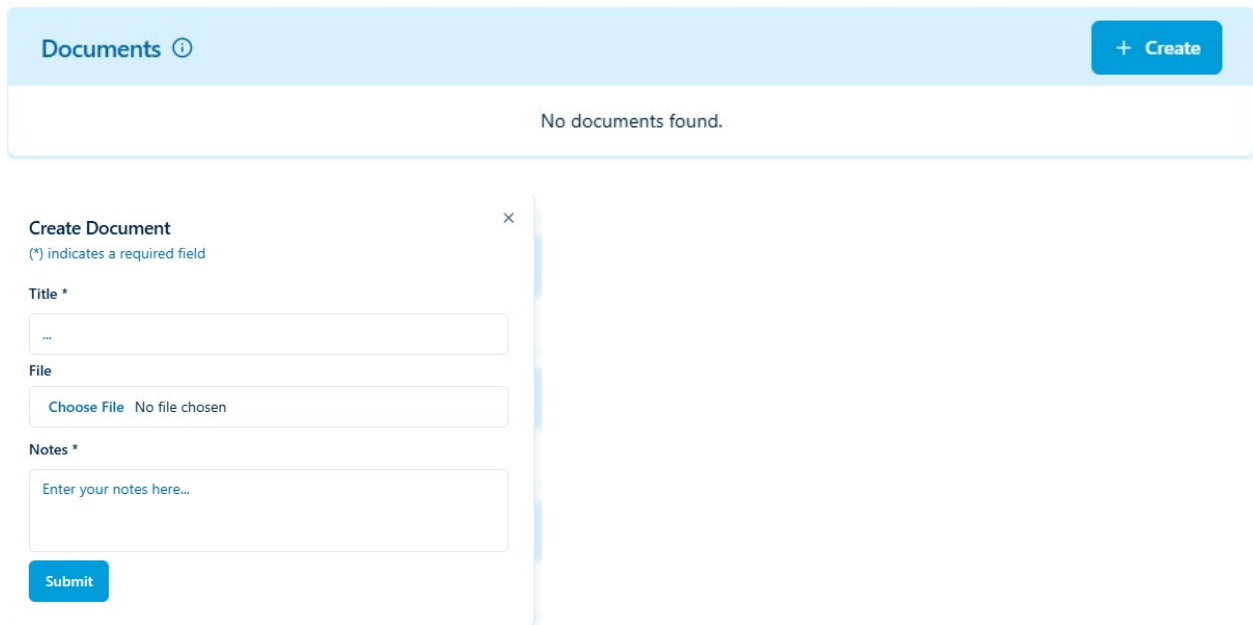

Within the Student Sheet

Click Controls

Create Document

Within the Documents row select +Create

The screenshot shows a 'Documents' header with a '+ Create' button. Below it, a message states 'No documents found.' A 'Create Document' dialog box is open, featuring a title field, a file selection button labeled 'Choose File' (with 'No file chosen' text), a notes text area, and a 'Submit' button. A small 'x' icon is in the top right of the dialog box. A note below the title field says '(*) indicates a required field'.

This will open the dialog for adding documents individually to a student's record. Title it and add notes optionally.

Then click choose file, navigate to previously saved file and click open.

The screenshot shows a file selection dialog box with a 'File name:' field, a file type dropdown menu set to 'All Files (*.*)', and 'Open' and 'Cancel' buttons.

Then click submit.

A document can now be used as **Evidence**.

In the absence of a certificate of immunization, a child must present the school with laboratory evidence demonstrating immunity or a reliable documented history of immunity provided by a physician or other primary care provider.

Proof of Immunity means laboratory evidence of immunity or reliable documented evidence from a physician, nurse practitioner or physician assistant that the individual is immune to a specific disease.

www.maine.gov/dhhs/mecdc/sites/maine.gov.dhhs.mecdc/files/Maine%20School%20Immunization%20Law.pdf

Exemptions and Overrides can be applied to one or all of the vaccine groups required for that grade.

Click  to create an override, exemption, enrollment condition.

This will open a dialog box on the right side.

Exemptions

Click Create+  on the exemption row.

<input type="checkbox"/>	JAZZLYN NORRIS	-		Conditional	Conditional	Conditional	Conditional

Status Explanation **Conditional**

A student in this status is missing immunizations, but is permitted to attend school conditionally for some reason.

How was this calculated?

The following pieces of evidence were used to determine this status:

- In the absence of any other evidence, the default status is Non-Compliant.
- The student will be eligible for McKinney-Vento when beginning their grade.

Bulk Exempt/Override

Within each grade of a school bulk exemptions and bulk overrides can be utilized to update multiple students with exemption or override at the same time.
