In July 2019, Maine’s Office of Child and Family Services partnered with Casey Family Programs to map the major initiatives and strategies currently underway in Maine. This mapping was designed to help executive leadership and regional staff evaluate which strategies were working to produce outcomes and areas where duplication of effort or inefficiencies might exist. As a result of this work, the Office of Child and Family Services streamlined their approach and prioritized strategies as shown below in the strategic framework.

**Mission**

Child and Family Services joins with families and the community to promote long-term safety, well-being and permanent families for children.

**Strategic Framework**

In order to achieve their mission, Child and Family Services uses guiding principles as a foundation to employ strategies that lead to improved outcomes for children and families. The strategies listed below were prioritized by executive leadership and regional staff.
