I. SUBJECT

Public Communications Policy

II. POLICY STATEMENT

This policy applies to employees of the Maine Department of Health and Human Services (DHHS) and is intended to guide their contact with the public and media in their roles as state employees and representatives of the department.

III. RATIONALE

As part of its commitment to transparency and to creating and maintaining public understanding and support for its objectives and programs, the DHHS will provide the public and media with accurate and consistent information in an accessible and timely manner. It also ensures the appropriate, coordinated use of Department-related materials, including its logo.

IV. OVERVIEW OF PUBLIC COMMUNICATIONS POLICY

The Department has a fundamental responsibility to communicate consistently, clearly, and effectively with all constituents. Working effectively with the public and media is critical to achieving this goal. The designated communications contact (designee) within the Office of the Commissioner manages all Department communications and education efforts, including the development and dissemination of all official agency announcements. These include media releases, weekly highlights, educational columns and other materials of interest to the public and regulated community. The designee coordinates, prepares public presentations and hosts media conferences. The designee serves as the liaison to the media, prepares subject-matter experts to respond to media requests and when appropriate, serves as agency spokesperson.
V. PROCEDURE STATEMENT

A. Providing Public Access to Departmental Information and Proceedings

1. The Maine DHHS conforms to the letter and spirit of the Freedom of Access Act (FOAA). All files, except enforcement, personnel, and others required by law to be kept confidential, are available for inspection during business hours. Staff must follow the Department’s Freedom of Access Act Guidelines in determining the appropriate response to requests for confidential information or consult the Department’s FOAA Coordinator (DHHS General Counsel) for guidance.

2. Media representatives and members of the public have rights to observe the conduct of state business. The FOAA governs those rights, both regarding “public records” and “public proceedings.”

B. Providing Information to the Public and Media in a Timely Manner

1. The Maine DHHS is committed to providing the highest level of transparency and customer service. A critical element of that commitment is to the extent practical, respond to all requests from members of the public or media in a timely manner. Responding to media inquiries is a high priority and must be respectful of reporter’s deadlines. To the extent possible, requests from the media will be responded to immediately and the reporter’s deadlines will be met. If additional time is needed to gather the information or obtain data, staff should notify the designee to manage media expectations.

C. Representing the Department on Departmental Policy or Position

1. The Commissioner or the approved designee, is responsible for articulating Department policy, positions and any public personnel information, including but not limited to budgetary matters, legislative and regulatory positions and staffing/structural decisions. Any media inquiries on these matters should be referred directly to the designee.

D. Responding to Press Inquiries Regarding Specific Projects, Technical Issues (non-policy) or Agency Processes

1. All media inquiries should be forwarded to the designee. If the office director was not included on the original request, ensure they are copied when the request is forwarded to the designee.

2. The designee will work with relevant subject matter experts to coordinate appropriate communications with the media. The subject matter experts, with approval from the communications designee, may respond to reporter’s inquiries regarding specific projects or technical issues within their professional purview.

3. Many aspects of pending enforcement cases are not appropriate for discussion with the public or the media. Any inquiries related to an active enforcement case should be reviewed with DHHS General Counsel.
4. Interactions with the media must be summarized and forwarded to the designee on the same day the media interaction occurs. The attached Media Interaction Form may be used and forwarded electronically. An email summary is also sufficient.

E. Initiating Media Contacts

1. Media relations are the responsibility of the Office of the Commissioner. Suggestions for media releases, events and other public and media activities representing the Department to the public or media are welcomed and should be brought directly to the designee before any action is pursued, with as much advanced notice as possible. If the suggestion is approved, the designee will delegate roles and responsibilities to move forward, in consultation with the appropriate Office management.

2. All media releases and media-related activities (events/activities orchestrated for the press and public with the intent of heightening awareness) must be approved by the Commissioner's Office. Media releases will conform to Associated Press Style, be distributed by the designee and be displayed on the Department's web site.

F. Corrections/Letters to the Editor/Opinion Pieces

1. When the media seems to have err'd or unfairly represented Department staff, their actions or Department policy positions, it is important to correct the misinformation and/or mischaracterization via a request for a correction, letter to the editor or other appropriate action. Please contact the designee who will determine the course of action and coordinate the appropriate response in partnership with staff.

G. Public Speaking/Presentation Engagements

1. When a staff member is requested to represent the Department in a public speaking engagement, exhibition or policy-related forum (not including mandated public meetings or hearings), he/she must inform the relevant office director, who will then bring the request to the designee. The designee, in partnership with the Office Director and the Commissioner, will review the request and advise on the response. Staff is not permitted to present on behalf of the Department unless approved.

2. Requests from external entities for Department speakers may be submitted directly to the designee, who will decide whether it is appropriate for the Department to be represented and will coordinate and help to prepare the appropriate representatives. Department staff is not to solicit speaking/presentation engagements but can bring suggestions for potential opportunities to the Office of Communications for consideration.
3. All Department presentations must utilize the Department’s PowerPoint template and be approved by the designee prior to being given. Presentations must be provided to the designee no less than five full working days in advance of the staff person’s departure for the presentation for review.

H. Department Education and Outreach Materials

1. Any outreach materials – including but not limited to letters, brochures, postcards, technical bulletins, issue profiles, reports, print/broadcast/web advertisements or promotions not specific to an individual facility, policy or project must be approved by the designee and as necessary, by the Policy Director. If staff require an outreach piece to be developed or wish to partner on an advertising/promotional campaign, they are to contact the designee who will coordinate staff to develop the appropriate materials in partnership with the relevant program staff.

I. Sponsorships/Use of Department Seal

1. A sponsorship by the Department – whether monetary, in-kind or via logo – suggests endorsement of the sponsored initiative. Therefore, all requests for sponsorship or Department endorsement must be approved by the Office of the Commissioner and by the appropriate Office Director. Requests should be reviewed by the appropriate staff and a recommendation made concurrently to the designee and the Office Director. If the sponsorship and use of the Department seal is approved, designee will provide the correct seal file to the requestor.

VI. DISTRIBUTION

All Staff via e-mail and posting on the DHHS Intranet.
