III. SERVICE SPECIFICATIONS AND PERFORMANCE GUIDELINES

A.1. Description of Services

Community Services Block Grant funds are used in support of moving people out of poverty to self-sufficiency. In your narrative:

1.) Provide a detailed CSBG work plan that is a summary of each of the agency's program(s)/service(s) that will be supported/impacted by CSBG funds. Include those program/service positions that are supported by CSBG funds showing the % of their time allocated to that program/service.

Project Title and Description

Cost

Senior Safe Project

\$28,375

WHCA has a small program that does minor repairs to homes of low-income senior citizens in order that they may continue to live in their homes. Existing programs are insufficient to address these projects. WHCA raises some of the funds for this project through local fund-raising. These funds will allow us to do about 15-25 more homes.

Goal 2: The conditions in which low income people live are improved

Measure 2.1.D – Community Improvement and Revitalization – Increase in, and safeguarding of, threatened opportunities and community resources or services for low-income people in the community as a result of Community Action projects/initiatives or advocacy with other public and private agencies as measured by (D) safe and affordable housing units within the community preserved or improved through construction, weatherization, rehabilitation achieved by Community Action activity or advocacy.

Goal 6: Low income people, especially vulnerable populations, achieve their potential by strengthening family and other supportive environments.

Measure 6.1.A: The number of vulnerable individuals receiving services from Community Action who maintain an independent living situation as a result of those services - Senior Citizens.

Home Repair Partnership (NHNeighbors/Seacoast Mission)

\$85,125

WHCA will hire a person to be a Rehab Tech Specialist to assist local volunteer groups that do modest repairs to lower-income homes in the two-county area.

Local faith-based groups work with summer group work camps to undertake lesser repairs to the homes of lower-income families, doing everything from painting, to roof replacements, to wheel-chair ramps. The program has pretty good results each year but is hampered by a couple of challenges. There is no single person with building construction experience to provide the significant time needed to coordinate the project. Even though the group work camps raise some money to pay for building materials, additional money is needed to pay for a variety of costs (volunteer mileage, skilled labor, materials, tools, waste disposal).

Goal 2: The conditions in which low-income people live are improved

Measure 2.1 D – Community Improvement and Revitalization – Increase in, and safeguarding of, threatened opportunities and community resources or services for low-income people in the community as a result of Community Action projects/initiatives or advocacy with other public and private agencies as measured by safe and affordable housing units within the community preserved or improved through construction, weatherization, rehabilitation achieved by Community Action activity or advocacy.

Washington County Dental Collaborative

\$25,000

WHCA will support a growing collaboration between the Washington County Children's Program (WCCP) in Machias and Downeast Health Services (DEHS) in Ellsworth to enhance

the delivery of dental services to uninsured children and MaineCare members in Washington and Hancock Counties. CSBG funding will enhance the ability of both agencies to build on their existing relationship, and support the delivery and coordination of existing oral health activities in both counties, particularly for low-income and MaineCare eligible children. The capacity for referrals for children identified with unmet dental needs is seen as a key benefit of this collaboration. DEHS expects to increase portable hygiene services by at least three days per month, providing preventive oral health services to an estimated additional 30 children. WCCP will be able to preserve the two full-time dental hygienist positions (as well as their support staff) who provide the services of the WCCP's Oral Health Program, and alleviate the need to reallocate funds and job responsibilities.

Goal 2: The conditions in which low-income people live are improved

Measure 2.2 C – Community Improvement and Revitalization - The quality of life and assets in low-income neighborhoods are improved by Community Action initiative or advocacy, as measured by (C) increase in the availability or preservation of community services to improve public health and safety.

Family Assistance Advocate

\$56,750

Many lower-income families are confronted with a variety of problems and do not know where to go for help. They often have difficulty working through the “system.” The Family Assistance Advocate would be the initial contact person to help families connect with services. This position would function much like a “case worker.”

Goal 2: The conditions in which low-income people live are improved

Measure 2.C.: Increase in the availability or preservation in community services to improve public health and safety.

Family Crisis Support Funds

\$28,375

Many low-income families are confronted with a variety of financial crises that a small amount of money (\$100-\$1000) could address. This could be such things as a mortgage payment to forestall foreclosure, payment of a month's rent, a food voucher, furnace repair, 100 gallons of fuel, etc. Setting up a pool of funds to be used for emergencies during this economic crisis would be valuable.

Goal 6: Low income people, especially vulnerable populations, achieve their potential by strengthening family and other supportive environments.

Measure 6.2: Emergency Services A-I – The number of low-income individuals and families served by Community Action who sought emergency services.

Low Income Advocacy Project

\$10,138

Utilize a new or existing staff person to recruit and train lower-income clients to advocate for themselves. Costs would be 1) some staff time, 2) mileage for staff and clients, 3) meal costs, 4) training.

Goal 3: Low-income people own a stake in their community

Measure 3.2.D: Community empowerment through maximum feasible community participation – The number of low-income people mobilized as a direct result of Community Action initiative to engage in activities to support and promote their own well-being and that of their community as measured by (D) the number of low-income people engaged in non-governance community activities or groups created by Community Action.

Customer Service Representative

\$20,000

Provide initial intake services and appropriate referrals for general calls to the agency and for walk in customers.

Goal 5: Agencies increase their capacity to achieve results.

Financial Literacy**\$20,000**

The WHCA Needs Assessment and other research have demonstrated the lack of financial literacy among low-income families. This project will provide financial literacy training to youth and adults in conjunction with other agency programs.

Goal 1: Low-income people become more self-sufficient – 3. Economic Asset Enhancement and Utilization

Senior Services**\$56,750**

The number of older adults continues to increase in Down East Maine because of aging baby-boomers, retirees, and individuals living longer. Like other areas of the country most of these individuals desire to "age in place." Therefore the demand for home-based services for the elderly is becoming an increasing area of demand and need. Rural areas of the state confront many service deficits. The Senior Services Specialist will identify sub-county regional service needs and work with community-based groups to develop local assets to address the need.

Goal 2: The conditions in which low-income people live are improved.

Measure 2.1: Increase in, or safeguarding of, threatened opportunities and community resources or services for low-income people in the community as a result of Community Actions projects/initiatives or advocacy with other public and private agencies.

Goal 6: Low-income people, especially vulnerable populations, achieve their potential by strengthening family and other supportive environments.

Measure 6.1.A: The number of vulnerable individuals receiving services from Community Action who maintain an independent living situation as a result of those services - Senior Citizens.

Technical and Development Assistance to create an Adult Day Service in Washington County**\$28,375**

Conduct research and provide resource development and technical assistance to identify a location in Washington County and plan for implementation for an Adult Care Services program based on the Hancock County Friendship Cottage model.

Goal 2: The conditions in which low-income people live are improved.

Measure 2.1: Increase in, or safeguarding of, threatened opportunities and community resources or services for low-income people in the community as a result of Community Actions projects/initiatives or advocacy with other public and private agencies.

Community Outreach and Information and Referral**\$10,000**

Expand community outreach and increase information and referral of existing Community Action programs and additional services as a result of ARRA resources.

Goal 5: Agencies increase their capacity to achieve results.

Business Loan Officer**\$56,750**

The Downeast Business Alliance (DBA) of WHCA has a number of small loan pools for micro-enterprises and smaller businesses.

DBA needs a full time business loan officer to focus energy on properly disbursing Agency JobStart and EDM loan pools which currently stand at about \$225,000.

Goal 1: Low-income people become more self-sufficient

Measure 1.1: The number and percentage of low-income participants in Community Action employment initiatives who get a job or become self-employed as measured by (A) unemployed and obtained a job.

Goal 2: The conditions in which low-income people live are improved

Measure 2.2 D – Community Quality of Life and Assets – The quality of life and assets in low-

income neighborhoods are improved by Community Action initiative or advocacy, as measured by (D) an increase in the availability or preservation of commercial services in low-income neighborhoods.

Measure 2.4: Employment Growth from ARRA Funds – The total number of jobs created or saved at least in part by ARRA funds, in the community. A. Jobs created at least in part by ARRA funds; B. Jobs saved at least in part by ARRA funds.

Goal 3: Low-income people own a stake in their community

Measure 3.2 B – The number of low-income people mobilized as a direct result of Community Action initiative to engage in activities that support and promote their own well-being and that of their community as measured by (B) the number of low income people acquiring businesses in their community as a result of Community Action assistance.

Technical and Development Assistance to Food/Farm Businesses

\$28,375

In recent years value-added food production businesses and small farms have sought assistance from WHCA to improve the business aspects of their operations so they can grow their micro-enterprises and create and sustain jobs for themselves and others. WHCA will help them identify ways they can expand their businesses to retain and create jobs.

Goal 2: The conditions in which low-income people live are improved.

Measure 2.1.A. Increase in, or safe guarding of, threatened opportunities and community resources or services for low-income people in the community as a result of Community Actions projects/initiatives or advocacy with other public and private agencies, as measured by (A) Accessible “living wage” jobs created or saved from reduction or elimination in the community.

Measure 2.2.D. The quality of life and assets in low-income neighborhoods are improved by Community Action initiative or advocacy, as measured by an increase in the availability or preservation of commercial services within low-income neighborhoods.

Measure 2.4: Employment Growth from ARRA Funds – The total number of jobs created or saved at least in part by ARRA funds, in the community. A. Jobs created at least in part by ARRA funds; B. Jobs saved at least in part by ARRA funds.

Transportations Services Training

\$36,500

Training will include Passenger Assistance for new drivers; safety and security training for drivers; child care safety seat installation and inspection; blood borne pathogen for drivers; certified dispatchers training; financial updates for management (A122, MAAP); Maine State Vehicle Inspection training; defensive driver training for new drivers; customer service; and training to dealing with people with mental illness.

Goal 5: Agencies increase their capacity to achieve results

- 2.) *Show the projected agency's general and administrative indirect amount that is defined as administrative costs. “**Administrative costs for CSBG reporting** are defined by the Office of Community Services as “equivalent to typical indirect costs or overhead. As distinguished from program administration or management expenditures that qualify as direct costs, administrative costs refer to central executive functions that do not directly support a specific project or service. Incurred for common objectives that benefit multiple programs administered by the grantee organization, or the organization as a whole, administrative costs are not readily assignable to a particular program funding stream. Rather, administrative costs relate to the general management of the grantee organization, such as strategic direction, board development, Executive Director functions, accounting, budgeting, personnel, procurement, and legal services” (<http://www.acf.hhs.gov/programs/ocs/csbg/guidance/im37.html>).” Administrative expenses, not used for direct services, should be less than 20% of the total grant.*

WHCA's indirect cost rate approved by the U.S. Department of Health and Human Services is 13.5% of direct costs. Approval letter is attached.

- 3.) *Identify the dollar amount of the CSBG funds that you plan to allocate to the following Federal CSBG service categories: Employment; Education; Income Management; Housing; Emergency Services; Nutrition; Linkages; Self Sufficiency; Health; Other [describe program]; Youth & Administrative Costs.*

28. REPORTING REQUIREMENT. Not later than ten calendar days after the end of each calendar quarter, the State must submit a report that, at a minimum, contains the information specified in Section 1512 of Division A, Title XV of the ARRA. It is imperative all contracts involving the use of ARRA funds include requirements that the Provider supply the State with the necessary information to submit these reports to the federal government in a timely manner. More detail will follow regarding the timing and submission of reports. The Provider's failure to provide complete, accurate and timely reports shall constitute an "Event of Default". Upon the occurrence of an Event of Default, the state department or agency may terminate this contract upon 30 days prior written notice if the default remains uncured within five calendar days following the last day of the calendar quarter, in addition to any other remedy available to the state department or agency in law or equity.

3. Title IX of the Educational Amendments of 1972 (Pub. L. 92-318), as amended, and all requirements imposed by or pursuant to the Regulation of the Department of Health and Human Services (45 C.F.R. Part 86), to the end that, in accordance with Title IX and the Regulation, no person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any education program or activity for which the Provider/Contractor receives Federal/State financial assistance from the Department.
4. The Age Discrimination Act of 1975 (Pub. L. 94-135), as amended, and all requirements imposed by or pursuant to the Regulation of the Department of Health and Human Services (45 C.F.R. Part 91), to the end that, in accordance with the Act and the Regulation, no person in the United States shall, on the basis of age, be denied the benefits of, be excluded from participation in or be subjected to discrimination under any program or activity for which the Provider/Contractor receives Federal/State financial assistance from the Department.
5. The Code of Fair Practices and Affirmative Action, 5 M.R.S.A. § 781 *et. seq.*, to the end that, in accordance with the Code of Fair Practices and Affirmative Action, no state or state related agency contractor, subcontractor, or labor union or representative of the workers with which the contractor has an agreement will discriminate because of race, color, religious creed, sex, national origin, ancestry, age, physical or mental disability while providing any function or service to the public, in enforcing any regulation, or in any education, counseling, vocational guidance, apprenticeship and on the job training programs, unless based upon a bona fide occupational qualification. During the performance of this contract, the Provider/Contractor agrees as follows:
 - A. That it will not discriminate against any employee or applicant for employment because of race, color, religious creed, sex, national origin, ancestry, age physical or mental disability. Such action shall include, but not be limited to the following: Employment, upgrading, demotions, transfers, recruitment or recruitment advertising; layoffs or terminations; rates of pay or other forms of compensation; and selection for training, including apprenticeship.
 - B. The Provider/Contractor will, in all solicitations or advertisements for employees place by or on behalf of the Provider/Contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religious creed, sex, national origin, ancestry, age, physical or mental disability.
 - C. The Provider/Contractor will send to each labor union or representative of the workers with which it has a collective or bargaining agreement, or other contract or understanding, whereby he is furnished with labor for the performances of his contract, a notice, to be provided by the contracting department or agency, advising the said labor union or workers' representative of the contractor's commitment under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

6. State of Maine Executive Order 17 FY 04/05 which provides that all contractors entering into contracts for services to be provided to or on behalf of the State of Maine not discriminate against any employee or applicant for employment because of that employee's or applicant's sexual orientation. Solicitations or advertisements for employment by the contractor or subcontractor shall state that all qualified applicants will receive consideration for employment without regard to sexual orientation. Contractor will notify each labor union or workers' representative of the contractor's obligations under State of Maine Executive Order 17 FY 04/05 and post such notice in conspicuous places available to employees and applicants for employment. The contractor will cause the requirement of State of Maine Executive Order 17 FY 04/05 to be inserted in all contracts for work covered by a State contract for services such that the requirements will be binding on any and all subcontractors. The Provider further stipulates that services will be provided in a culturally sensitive and age appropriate manner.

The Provider/Contractor agrees that compliance with this assurance constitutes a condition of continued receipt of Federal/State financial assistance, and that it is binding upon the Provider/Contractor, its successors, transferees and assignees for the period during which such assistance is provided. If any real property or structure thereon is provided or improved with the aid of Federal/State financial assistance extended to the Provider/Contractor by the Department, this assurance shall obligate the Provider/Contractor, or in the case of any transfer of such property, any transferee, for the period during which the real property or structure is used for a purpose for which the Federal/State financial assistance is extended or for another purpose involving the provision of similar service or benefits. If any personal property is so provided, this assurance shall obligate the Provider/Contractor for the period during which it retains ownership or possession of the property.
