- The reasons for this decision.
  - The Case Manager has educated the individual/guardian regarding the risks/benefits of closing adult DS CCM (Section 13 TCM) while maintaining Section 21/29 waiver funding or remaining on the Section 21/29 waitlist, including the responsibilities of a Case Manager as outlined under MaineCare Benefits Manual (10-144 CMR 101), Chapter II [Section 21](#) and [Section 29](#).
  - The individual/guardian has been informed that if a Section 21/29 waiver offer is received, or an annual waitlist verification is required, the new Case Manager/Care Coordinator will be responsible to respond, or they will risk losing the offer or be removed from the waitlist for Section 21/29.
- e. If unable to have the above conversations, see: [Closing of Case Management Services: No Contact](#).
- f. Summarize the course of service/treatment and address efficacy of service/ treatment provided as outlined in the plan of care goals, and make recommendations for further services if needed or desired by the person receiving services ([14-197 CMR Chapter 10](#) IV.E.2.i). Include:
- Dates of all upcoming meetings/appointments.
  - Any pending referrals e.g. funding requests, referrals, guardianship applications, rep payee applications, etc.
3. Use the [NASW Code of Ethics](#) as a guide in the Case Manager’s work to support each individual during their closing of CCM Services:
- 1.17 Termination of Services
- (b) Social workers should take reasonable steps to avoid abandoning clients who are still in need of services. Social workers should withdraw

services precipitously only under unusual circumstances, considering all factors in the situation and taking care to minimize possible adverse effects. Social workers should assist in making appropriate arrangements for continuation of services when necessary.

(e) Social workers who anticipate the termination or interruption of services to clients should notify clients promptly and seek the transfer, referral, or continuation of services in relation to the clients' needs and preferences.

4. Ensure all work in EIS is complete:
  - a. Psycho-social summary updated (within the past year).
  - b. Services and Support Assessment V7 (revised and updated with current information e.g. medical/dental dates).
5. Notify the CCM liaison by email that CCM services are closing and the name of the new duplicative service agency (if known). Include the closing date.
