STATE OF MAINE
DEPARTMENT OF MARINE RESOURCES
Aquaculture Lease Renewal Application
Suspended and bottom culture of shellfish,
Damariscotta River, Damariscotta, Lincoln County

Muscongus Bay Aquaculture, Inc.
DAM H13
Docket Number 2013-16-R
October 26, 2014

FINDINGS OF FACT, CONCLUSIONS OF LAW, & DECISION

Muscongus Bay Aquaculture applied to the Department on October 25, 2013 to renew the
aquaculture lease, DAM H13 for a period of ten years to April 28, 2024. The 7 acre lease is issued
for suspended and bottom culture of American/eastern oysters (Crassostrea virginica), European
oysters (Ostrea edulis), northern quahogs (Mercenaria mercenaria), soft clams (Mya arenaria),
surf/hen clams (Spisula solidissima), and bay scallops (Argopecten irradians) located in the
Damariscotta River, Damariscotta, Lincoln County, Maine. The lease was granted on April 29, 2004
for 7 acres.

1. PROCEDURE

Notice of the application for lease renewal and the 30-day public comment period and
opportunity to request a public hearing was published in the Lincoln County News on November 14,
2013 and again on December 5, 2013. Notice was also published in the December 2013
Commercial Fisheries News. Personal notice was given to the municipality and to riparian
landowners within 1,000 feet of the lease site. No comments and no requests for a hearing on this
application were received by the Department during the comment period.

2. STATUTORY CRITERIA

Applications for aquaculture lease renewals are governed by 12 M.R.S.A. §6072(12) and by
Chapter 2.45 of the Department’s rules, which provide that an aquaculture lease shall be renewed
if: the lessee has complied with the lease agreement during its term; the Commissioner determines
that renewal of the lease is in the best interest of the state; the renewal will not cause the lessee to
A. **Compliance with lease**

The review of the records of this lease discloses that all annual reports have been filed, the rent is paid to date, the bond is current, and the site has passed inspection by DMR Marine Patrol. There are no outstanding complaints regarding this lease.

**Therefore, I find** that the applicant has complied with the lease agreement during its term.

B. **Best interest of the State of Maine**

In determining whether it is in the best interest of state to renew the lease, the Department takes into consideration, among other things, the potential for conflict with other new or existing uses of the area which the Commissioner determines to be a higher use of the area from the perspective of the public interest. There is no evidence of conflicts with other new or existing uses of the area.

**Therefore, I find** that it is in the best interests of the State of Maine to renew this lease.

C. **Aggregate lease holdings**

According to DMR records, the total lease acreage held by lessee, including DAM H13, consisting of 7 acres, will not exceed 1,000 acres.

**Therefore, I find** that the renewal of this lease will not cause the applicant to lease more than 1,000 acres.

D. **Speculative purposes**

Rule 2.45 provides that in considering whether a lease is being held for speculative purposes, the Department must consider "whether the current lessee has conducted substantially no research or aquaculture in the lease areas during the previous lease term." It is clear from annual reports filed with DMR by the lessee and by the statement of the lessee on the renewal application that aquaculture has been conducted on this lease site.

**THEREFORE, I FIND** that the lease is not for speculative purposes.
3. LEASE CONDITIONS

The following conditions are carried over from the original lease and will apply to the renewed lease:

- The lease area must be marked in accordance with the U.S. Coast Guard requirements and Department of Marine Resources Chapter 2.80; and
- Navigational and recreational boating and fishing shall be allowed in the open areas of the lease.

4. DECISION

The Commissioner of Marine Resources grants the application of Muscongus Bay Aquaculture, Inc. to renew its aquaculture lease, DAM H13, for a period of ten years to April 28, 2024. The renewed lease is subject to the same terms, conditions, and obligations as set forth in the original lease, except as modified by this decision.

5. REVOCATION OF LEASE

The Commissioner may commence revocation procedures upon determining pursuant to 12 MRSA §6072 (11) and DMR Rule Chapter 2.42 that no substantial aquaculture has been conducted within the preceding year, that the lease activities are substantially injurious to marine organisms, or that any of the conditions of the lease or any applicable laws or regulations have been violated.

Dated: 10/28/14

Patrick C. Keliher, Commissioner
Department of Marine Resources
