

Notice of Agency Rule-making Proposal

AGENCY: 13-188-Department of Marine Resources

CHAPTER NUMBER AND TITLE: Chapter 43: Bluefish

TYPE OF RULE (*check one*): Routine Technical Major Substantive

PROPOSED RULE NUMBER (*leave blank; to be assigned by Secretary of State*):

BRIEF SUMMARY:

Bluefish and striped bass are two species whose recreational fisheries often overlap. Like the striped bass fishery, there is a circle hook requirement in the recreational bluefish fishery. The Department is currently undergoing rulemaking to amend the striped bass regulations to provide greater clarity on the use of circle hooks in the striped bass recreational fishery. This includes providing a definition of bait. To ensure continued consistency between the circle hook requirements for the two fisheries, the Department proposes amending the bluefish regulations to adopt the same definition of bait which is being proposed in the striped bass regulations. The rule also cleans up regulatory language in Section 43.01(C), removing language prohibiting the use of treble hooks with bait given subsequent language supersedes this prohibition by only allowing for the use of circle hooks with bait. Continued consistency in the circle hook requirements for striped bass and bluefish will provide clarity to anglers and Marine Patrol.
