COMMISSIONER

Shellfish Harvesting Area Classification-Notification of Changes

August 26, 2020

This notice is in effect until repealed or replaced

Ladies and Gentlemen:

Under the authority of 12 M.R.S.A. § 6172; the Commissioner has made the following classification change to Area No. 20, Kennebec River and Tributaries: This notice reclassifies Mill Pond and surrounding waters to Conditionally Approved based on river flow and season due to water quality no longer meeting approved standards when in the open status. An interactive map that allows the user to zoom in to specific areas can be found on the ME DMR website: <https://www.maine.gov/dmr/shellfish-sanitation-management/maps/index.html>. All existing pollution and biotoxin closures remain in effect.

The boundary descriptions of the area are as follows (struck text is being removed and underlined text is being added):

- A. Effective immediately, because of pollution, it shall be unlawful to dig, take or possess any clams, quahogs, oysters, ~~or~~ mussels or whole or roe-on scallops from the shores, flats and waters of the following Prohibited area(s):
1. The Kennebec River and Tributaries: north of a line beginning at the south tip of Hockomock Point (Woolwich) running southeast to the north tip of Flying Point (Georgetown)
 2. Drummore Bay: north of a line beginning at the eastern end of Stony Brook Road (Phippsburg), running east to a red painted post on the western shore of Lee Island
 3. The Kennebec River: north of a line beginning at the south tip of Lee Island running southeast to the northern tip of Squirrel Point (Arrowsic)
 4. Back River: east of a line beginning at a red painted post on the northeastern tip of Bald Head (Arrowsic) running south to a red painted post on shore at Rotunda Hill (West Georgetown); AND south of a line formed by the Five Islands Road bridge from Arrowsic to Georgetown.
 5. The lower Kennebec River: south of a line beginning at the ice breaker pilings in Georgetown running due west to a red painted post on Long Island AND west of a line beginning at the southeast tip of Bay Point (Georgetown) running south to the "5A" spindle at Jack Rock AND north of a line from the "5A" spindle running northwest to the east tip of Hunniwell Point (Phippsburg) AND east of a line beginning at Hunniwell Point (Phippsburg) running northeast to the south tip of Long Island.
 6. Wood Island: within 500 feet of the eastern shore, from the north tip of the island to the south tip of the island.
- B. Effective immediately, because of pollution, it shall be unlawful to dig, take or possess any clams, quahogs, oysters, ~~or~~ mussels or whole or roe-on scallops from the shores, flats and waters of the following Restricted area(s) without a special MDMR permit:

1. Todd Cove (Georgetown): south of a line beginning at the mainland shore at a red painted post approximately 150 yards east from the southern tip of Lamb Island running west to a red painted post on the shore of Marr Island approximately 127 yards west of the southern tip of Lamb Island; AND north of a line beginning at the southern tip of Marr Island running southeast to the shore at the point of land at the end of Quarry Rd.

C. Effective immediately, due to intermittent seasonal pollution the shore, flats and waters of the following areas are classified as Conditionally Approved and shall be closed to the harvest of clams, quahogs, oysters, or mussels or whole or roe-on scallops when river discharge meets or exceeds 30,000 cfs between October 1st and December 31st; when river discharge meets or exceeds 60,000 cfs between January 1st and April 30th and when river discharge meets or exceeds 40,000 cfs between May 1st and September 30th. **Please refer to the Statewide Conditional Area Closure Notice on the DMR website: <http://www.maine.gov/dmr/shellfish-sanitation-management/closures/documents/CA.pdf> for open/closed status:**

1. Upper Kennebec River (Phippsburg and Georgetown): east of a line beginning at the eastern tip of Parker Head (Phippsburg) running southwest to the end of Mariah Rd. (Phippsburg); AND south of a line beginning at the eastern end of Stony Brook Road (Phippsburg), running east to a red painted post on the western shore of Lee Island; AND west of a line beginning at the south tip of Lee Island running southeast to the northern tip of Squirrel Point (Arrowsic); AND west of a line beginning at a red painted post on the northeastern tip of Bald Head (Arrowsic) running south to a red painted post on the shore at Rotunda Hill (West Georgetown); AND north of a line beginning at the southern tip of land on Cox Head (Phippsburg) running east to the opposite shore of Long Island (Georgetown); AND north of a line beginning at the ice breaker pilings in Georgetown, then running west to a red painted post on the opposite shore of Long Island (Georgetown); AND north of a line beginning at the mainland shore at a red painted post approximately 150 yards east from the southern tip of Lamb Island running west to a red painted post on the shore of Marr Island approximately 127 yards west of the southern tip of Lamb Island; AND south of a line beginning at the southern tip of Marr Island running southeast to the shore at the point of land at the end of Quarry Rd; AND north and west of a line beginning at the southern tip of Long Island (Georgetown) then running southwest to the east tip of Hunniwell Point (Phippsburg).

2. Mill Pond (Phippsburg): west of a line beginning at the eastern tip of Parker Head (Phippsburg) running southwest to the end of Mariah Rd. (Phippsburg). (Also closes January 1st to April 30th)

~~Lower Kennebec River (Phippsburg and Georgetown): south of a line beginning at the southern tip of land on Cox Head (Phippsburg) running east to the opposite shore of Long Island (Georgetown); AND north and west of a line beginning at the southern tip of Long Island (Georgetown) then running southwest to the east tip of Hunniwell Point (Phippsburg).~~

3. Heal Eddy (Georgetown), north of a line beginning at the southeastern tip of Bay Point (Georgetown) then running southeast to the northern tip of Stage Island (Georgetown).

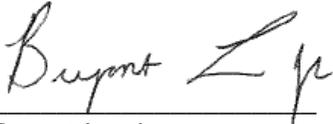

D. Effective immediately, because of intermittent pollution, the following area is classified as Conditionally Approved and shall be closed when river discharge meets or exceeds 60,000 cubic feet per second the shores, flats and waters of Sagadahoc Bay (Georgetown), north of a line beginning at the northern most tip of Stage Island (Georgetown), then running east to the south tip of Indian Point (Georgetown). **Please refer to the Statewide Conditional Area Closure Notice on the DMR website: <http://www.maine.gov/dmr/shellfish-sanitation-management/closures/documents/CA.pdf> for open/closed status:**

D. Effective immediately, because of intermittent pollution, it shall be unlawful to dig, take or possess any clams, quahogs, oysters, mussels or whole or roe-on scallops from the shores, flats and waters of the following Conditionally Approved area(s) when river discharge meets or exceeds 60,000 cubic feet per second.
