Shellfish Harvesting Area Classification-Notification of Changes
October 31, 2017

Ladies and Gentlemen:

Under the authority of 12 M.R.S.A. § 6172; the Commissioner has made the following classification change to Area No. 27-A, Eastern Wheeler Bay, St George: This notice reclassifies the western portion of Harrington Cove from Restricted to Approved due to water quality meeting approved standards. All existing pollution and biotoxin closures remain in effect.

The boundary descriptions of the area are as follows (struck text is being removed and underlined text is being added):

- A. Effective immediately, because of pollution, it shall be unlawful to dig, take or possess any clams, quahogs, oysters or mussels from the shores, flats and waters of the following Prohibited area(s):
1. Calf Island, St George: inside of a line within 500 feet of Calf Island, beginning on the northern most point of Calf Island and continuing in a southwest direction around the island to the island's most southwestern prominence.
 2. Wheeler Bay, St George: inside and north of a line drawn southeast from the south tip of Elwell Point to the north tip of Calf Island and continuing northeast to a red painted post located on the south tip of an un-named point approximately 467 yards northeast of Calf Island.
- B. Effective immediately, because of pollution, it shall be unlawful to dig, take or possess any clams, quahogs, oysters or mussels from the shores, flats and waters of the following Restricted area(s) without a special MDMR permit:
1. Wheeler Bay, St George: north of a line beginning at a red painted post along Harrington Cove approximately 125 yards south of the end of Weir Point Road then running northwest to a red painted post along the shore approximately 160 yards north of the end of Baum Road. ~~inside and north of a line drawn east approximately 267 yards from the unnamed point at the southern mouth of Harrington Cove to the tip of "Miller's Wharf" located at the end of Eagle Quarry Rd.~~
