Harpwell, ME 04079

Re: Transplant Permit

Dear Ms. Knight:

This letter is in response to your request to transplant seed clams as follows:

Start	Stop	Source	Species	Destination	Supervisor	Approved
9/21/2019 7:00 AM	9/21/2019 11:00 AM	Muscongus Bay Aquaculture	Quahogs	Long Reach Cove	Paul Plummer Warden	√

**Note: Areas seeded with clams taken from Restricted areas must be closed for a period of 60 days, clams taken from Prohibited areas must be closed for a period of at least 6 months. This applies to any transplant listed above where 'Approved' is NOT checked.**

This letter will serve as permission for the above activity provided that the listed Supervisor contacts, 24 hours before the start of the activity, the Municipal Shellfish Warden, the Marine Patrol Officer responsible for this area and the Marine Patrol Division I Office at 633-9595. You may call the Division I Office in advance to determine who will be the local officer on duty and obtain direct contact information.

If DMR can be of further assistance, please don't hesitate to contact me or your area biologist, Pete Thayer at (207) 633-9539

Sincerely,

Denis-Marc Nault  
Shellfish Management Program Supervisor

cc: Ari Leach, Area Biologist  
Lt. Daniel White, Marine Patrol Division I
