

Maine Department of Marine Resources

Instructions for Installing and Completing the Electronic Volunteer Angler Logbook

The Volunteer Angler Logbook (VAL) program is primarily geared towards striped bass fishermen as a means of collecting additional length, catch, and effort data, but is open to anglers who fish for any saltwater species. Although we conduct the MRIP Access Point Angler Intercept Survey (APAIS), our interviewers don't come across many striped bass because of the size and bag limits of the fishery and many anglers opting for catch and release. The VAL program is quite simple. An angler records information about fish harvested or released during each trip for themselves and any fishing companions, **even if no fish were caught!** Additional information about each trip is also recorded, including: time spent fishing, area fished, number of anglers, and target species. The data is extremely valuable to Maine and federal managers to assess the health of the striped bass population.

Downloading Survey123 for ArcGIS

App Store (iOS)/Google Play (Android)

You will need to download the app ArcGIS Survey123 to complete the survey on a smart device.

- ◆ Open your app store and search for *ArcGIS Survey123* to download the app.
- ◆ Open the app and select *Continue without signing in*.
- ◆ Click on the QR code scanner in the search bar (right, top) and scan the 2024 QR code (right, bottom) to download the survey.
- ◆ Once downloaded, the survey will remain on the app. If the survey is updated on DMR's end, you will receive a notification to update.

QR scanner in the app

2025 eVAL QR Code.
Scan it to access the survey

Using the Electronic Logbook

Participant Information

- ◆ Enter your *First Name*, *Last Name*, and *Email address*.

Trip Details

- ◆ Enter the fishing trip *Date* and *Fishing Start Time* using the calendar and drop down box that appear when you select the line. *The date and time will automatically populate to the present day and time.*
- ◆ Enter the fishing *Trip Number* for the season (*only record Maine marine fishing trips*).
- ◆ Use the drop down menu to select the correct *Trip Type* and *Area Fished* for the current fishing trip. *The map is there to help you determine the Area Fished.*
- ◆ Select the *Fishing Platform* and *Distance Fished from Shore* for the current fishing trip. *Select all that apply.*

Trip Details (cont.)

- ◆ Enter the **Primary** and **Secondary Species Targeted** for the current fishing trip.
If the species you targeted is not listed, select “other” and indicate the species.
- ◆ Select the **Hook Used** and **Terminal Gear Used** for the current fishing trip. *Select all that apply.*
If “bait” was selected a Tube Rig section will appear below Trip Comments to complete.
- ◆ **Trip Comments:** an area for your personal record (optional).

Tube Rig Section

This section will only appear/need to be completed if you selected “bait” in the Terminal Gear Used.

- ◆ **Did you use a baited latex or rubber Tube Rig when fishing for striped bass?** Select Yes or No for the current fishing trip. *If you select “yes” the following questions will appear.*
- ◆ Select the **Bait used on the Tube Rig** for the current fishing trip. *Select all that apply.*
- ◆ Enter the **Number of Striped Bass Caught with Tube Rig.**
- ◆ **Enter the number of striped bass caught for each place the hook was set on the fish (Lip, Interior Mouth, Gill, or Other).** *If “other”, indicate location.*

Catch Details

- ◆ Enter the **Number of Anglers Reporting** in your party whose information is being recorded, whether they caught fish or not.
- ◆ Enter the number of **Hours** that you had **Lines in the Water**, to the nearest half hour (0.5).
- ◆ **Did you catch any fish?** select the correct circle for the current fishing trip. *If “yes” was selected, the following questions will appear.*
- ◆ **Did you measure or estimate the length of any fish?** select the correct circle for the current fishing trip. *If “yes” was selected, a 4th survey page will appear.*

For the **Species** and **Catch Measurement** section use the “+” to add entries and the “trash can” to delete entries. Entered species will show up in green next to **Species Caught** or **Species Measured**.

Repeat questions in the blue box below for each species caught and questions in the orange box for each fish measurement. Summary tables underneath each of the sections show the entries made.

Gray Area = Tube Rig Section (Only if "bait" was selected)

- *Did you use a baited latex or rubber Tube Rig when fishing for striped bass?* Select the correct circle for the current fishing trip. *If you select "yes" the following questions will appear.*
- Select the correct boxes to indicate the *Type of bait used on the Tube Rig* for the current fishing trip.
- Enter the *Number of striped bass caught with Tube Rig*.

Enter the number of striped bass caught for each place the hook was set on the fish:

Lip:	Interior mouth:	Gill:	Other:
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>

If other please specify the "other" location:

Image from tube rig (optional)

▼ Tube Rig Section

The following section collects data on the striped bass baited tube rig fishery.

Did you use a baited latex or rubber Tube Rig when fishing for striped bass?
Select whether any angler in your party whose information is being recorded used a Tube Rig setup.

Yes No

Type of bait used on the Tube Rig:

Seaworm Artificial (e.g. Synthetic) Other

Number of striped bass caught with Tube Rig:

- *Enter the number of striped bass caught for each place the hook was set on the fish.*

If "other", indicate location.

9. Enter the *Number of Anglers Reporting* in your party whose information is being recorded.
10. Enter the number of *Hours* that you had *Lines in the Water*.
11. *Fish Caught?* Select the correct circle.

If "yes" was selected, the following questions will appear below.

Did you measure or estimate the length of any fish?

Yes No

Catch Details
