

DRAFT STANDARD LEASE APPLICATION: NON-DISCHARGE

This application contains preliminary details about a proposed standard lease for purposes of the scoping session. Members of the public are encouraged to review this application prior to the scoping session, so they can provide feedback to the applicant about existing uses of the area or other considerations specific to applicable lease decision criteria. The applicant will eventually be required to submit a final application to DMR, which will be the subject of a public hearing.

For more detailed information about public participation in the leasing process, please visit:

<https://www.maine.gov/dmr/aquaculture/public-participation-in-aquaculture-leasing>

1. APPLICANT INFORMATION**A. CONTACT PERSON**

Legal Name of Applicant(s):	Beth Putnam Jeffrey Putnam
Contact Person:	Beth Putnam
Email:	blputnam22@gmail.com
Telephone:	207/650/8888

B. MAILING ADDRESS

Street Address:	107 Littlefield Rd
City:	Chebeague Island
State:	Maine
Zip Code:	04017

C. PHYSICAL ADDRESS

☒ Same as mailing address

Street Address:	
City:	
State:	
Zip Code:	

D. PAYMENT METHOD☒ Check ☐ Credit Card**E. PRE-APPLICATION MEETING**

Date the meeting was held:	08/04/2025
-----------------------------------	------------

2. PROPOSAL INFORMATION**A. LOCATION OF PROPOSED LEASE SITE**

Town:	Chebeague Island
County:	Cumberland
Waterbody:	Casco Bay
General Description:	East of Great Chebeague Island

B. PROPOSED LEASE INFORMATION

Total Acreage Requested:	13.3 acres
Lease Term Requested:	20 years
Type of Culture: (Check all that apply)	<input checked="" type="checkbox"/> Suspended (gear in the water and/or on the bottom) <input type="checkbox"/> Bottom (no gear)

C. INTERTIDAL SITE

Is any portion of the proposed lease site above mean low water?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
--	---

3. INTERAGENCY REVIEW INFORMATION

Lease applications are reviewed by other state and federal agencies. The questions below are intended to assist them with the review of your application.

A. Is the proposed lease site located within any of the following habitat designations/areas? Check all that apply.

- ☐ Essential Habitat (includes Roseate Tern habitat and Piping Plover/Least Tern habitat)
☐ Shorebird Area
☐ Tidal Waterfowl and Wading Bird Habitat

B. Provide the water depth at mean high water.

The proposed site ranges from 45 ft to 51 ft at mean high water.

C. Provide the water depth at mean low water.

The proposed site ranges from 36 ft to 42 ft at mean low water.

D. Are you proposing to use any suspended gear?

☒ Yes ☐ No

If yes, will the gear be submerged (below the surface of the water) at all tidal stages?

☐ Yes ☒ No

E. Are you proposing predator netting?

☐ Yes ☒ No

If yes, what is the mesh size?

n/a

If yes, what is the twine size?

n/a

F. Is the proposal within 1,000 feet of any of the following? Check all that apply. If you select one or more boxes you also need to provide the requested information that follows.

- ☐ Conserved lands owned by federal, state, or municipal governments
☐ Docking facility owned by federal, state, or municipal governments
☐ Beach owned by federal, state, or municipal governments

Provide the name of the docking facility, beach, and/or conserved land:

n/a

Proximity of the respective property to the proposed lease site in feet:

n/a

Select which level of government owns the respective property:

- ☐ Federal
☐ State
☐ Municipal

Provide the name of the government entity that owns the respective property:

n/a

G. Is any portion of the proposal within a marked navigational channel?

☒ Yes ☐ No

If “no”, how far is the proposal from the nearest marked navigational channel?
Provide the distance in feet.

H. Is the proposed site within 1,000 feet of any federal navigation project or anchorage?

☐ Yes ☒ No

If yes, identify the project or anchorage:

4. SOURCE OF STOCK AND WATER QUALITY

A. SPECIES AND SOURCE OF STOCK

Please use the applicable tables below to list all species you intend to cultivate on the proposed site.

1. Source of Stock: Approved Shellfish Hatchery or Non-Shellfish Stock List

If you are sourcing from an approved hatchery or entity included on the non-shellfish stock list (maintained by DMR), please use the table below.

	Common Name	Latin Name	Name of Source	Stocking Density
1.	Sugar Kelp	<i>Saccharina latissima</i>	Atlantic Sea Farms	120,000 lbs
2.	Skinny Kelp	<i>Saccharina angustissima</i>	Atlantic Sea Farms	120,000 lbs
3.	Winged Kelp	<i>Alaria esculenta</i>	Atlantic Sea Farms	40,000 lbs
4.	Horsetail / Fingered Kelp	<i>Laminaria digitata</i>	Atlantic Sea Farms	40,000 lbs
5.	Sea Colander	<i>Agarum clathratum</i>	Atlantic Sea Farms	40,000 lbs
6.	Dulse	<i>Palmaria palmata</i>	Atlantic Sea Farms	10,000 lbs
7.	Irish Moss	<i>Chondrus crispus</i>	Atlantic Sea Farms	10,000 lbs
8.	Sea Lettuce	<i>Ulva lactuca</i>	Atlantic Sea Farms	10,000 lbs

2. Source of Stock: Other Aquaculture Site(s)

If you are sourcing from another aquaculture site in coastal waters please complete the table below.

	Common Name	Latin Name	Aquaculture Site ID	Water Body	Original Point of Origin	Stocking Density
1.						
2.						
3.						
4.						
5.						
6.						

3. Source of Stock: Wild Stock

If you are collecting marine organisms from Maine's coastal waters for deployment on the proposed site complete the table below.

	Common Name	Latin Name	Waterbody Collected From	Name of Licensed Harvester	Stocking Density
1.					
2.					
3.					
4.					
5.					
6.					

4. Scallops

Do you intend to possess whole or roe-on scallops?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
<p>If you answered "yes" please be aware that biotoxin testing will have to be conducted on a regular basis at your expense. Please contact the Bureau of Public Health to discuss your plans at the following email: DMRPublicHealthDiv@maine.gov</p>	

B. GROWING AREA CLASSIFICATION

Growing Area Designation	WI
Growing Area Classification	<input checked="" type="checkbox"/> Approved <input type="checkbox"/> Conditionally Approved <input type="checkbox"/> Restricted <input type="checkbox"/> Conditionally Restricted <input type="checkbox"/> Prohibited
<p>If you are proposing to grow molluscan shellfish in waters classified as anything other than open/approved, you must contact: DMRPublicHealthDiv@maine.gov</p>	

C. BIRD DETERRENTS

To comply with the National Shellfish Sanitation Program (NSSP) Model Ordinance (MO), DMR is requiring that applications for the suspended culture of shellfish include a description of mitigation or deterrent measures to minimize the potential pollution impacts of birds at the proposed site. Use the space below to list your mitigation or deterrent measures:

N/A

5. PROPOSED OPERATIONS**A. CULTIVATION METHODS AND GEAR**

1. How will you culture marine organisms?	<input checked="" type="checkbox"/> Gear <input type="checkbox"/> Bottom planting only (no gear proposed) <input type="checkbox"/> Combination: Both gear and bottom planting.
2. If you are proposing gear, where will it be located in the water?	<input type="checkbox"/> Floating on the surface of the of water <input type="checkbox"/> Suspended below the surface of the water <input checked="" type="checkbox"/> Combination: Floating on the surface and suspended below the surface of the water.
3. Describe the gear types used to culture the species proposed.	66-90 moorings (with chain and line) 60 mooring buoys - polyballs or go-deeps 18 state-required lease markers - polyballs or go-deeps 30 - 2 line, 1,000' arrays <u>or</u> 60 - 2 line, 500' arrays <u>or</u> 30 single longlines in (1) 1,000' or (2) 500' sections 324-594 depth control buoys, weights 330 spreader bars (no spreader bars if using single longlines)

On Site Activity

4. At maximum capacity, which days of the week do you anticipate being on the site?	We anticipate working on the site Sundays - Thursdays during harvest for approximately 3-4 days a week. We anticipate working on the site any day for the week during seeding and/or maintenance for approximately 2-4 days a week.
5. At maximum capacity, what is the earliest time of day you would start work on the site?	5:30am
6. At maximum capacity, what is the latest time you would end work on the site?	4:00pm
7. Describe tending and maintenance activities:	Once the farm is seeded, minor activity occurs until late February or early March. During the winter months, I typically visit the farm weekly and check the lines are straight and marine algae is growing. I also check the farm after any storm or major weather event to make sure everything is in place. As some species of kelp grow during the early Spring (Feb/March/April) I may add extra depth control buoys (lobster or mooring style buoys) to maintain the depth from the surface, or add weights to keep the kelp lines submerged five to ten feet below the surface not to exceed 20 buoys per 1,000' of long lines (Note: the maximum amount of gear to be deployed is outlined in Section 5(A)(3)). All tending & maintenance activities will be conducted during daylight hours.
8. What months will harvesting occur?	The kelp is harvested primarily during April and May but can be harvested as early as late March depending on seasonal variation and crop growth and quality.
9. How will you harvest each species? If using a drag, provide dimensions.	We will harvest by bringing the long line on the lobster boat and cutting/removing it from the line into storage containers/bags.

Seasonality

10. Are there any seasonal changes to gear deployment?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
If yes, please describe:	Yes, from June 1 - October 14, all longlines and surface flotation, except for 18 state-required site markers, will be removed from the site and stored on my personal property. Moorings and associated tackle will remain on site year-round, but lines and chains will be sunk to the seafloor.

B. MOTORIZED EQUIPMENT AND LIGHTING

1. Are you proposing to use motorized equipment on the proposed lease?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
2. Are any of the noise sources fixed?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
3. If yes, describe your plan to direct the noise from residences or areas of routine use on adjacent land.	n/a

4. Does any of the equipment contain exterior lighting?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
5. Describe the measures taken to mitigate light impacts from equipment:	We plan to only work from sunrise to sunset. No lighting is needed. In a rare emergency, we would use the LED deck lights on the lobster boat that are pointing down onto the deck.

6. Are you proposing to use a generator?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
7. What is the generator used for?	We could test using power tools and/or pressure washer for cutting the kelp off the line.
8. Which months would you use the generator?	March-May
9. What is the maximum number of days the generator would be used each year?	This could be used daily during the 10-30 day harvest.
10. Which days of the week will the generator be used?	Sunday-Thursday, but it would be weather dependent.
11. What are the maximum hours a day the generator would be used?	10 hours max per day.

12. Do you intend to use a generator designed to mitigate noise?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
13. What measures will you take to mitigate noise from the generator?	The generator is built into the lobster boat keeping the noise level down because it will not be on deck.

14. Motorized Equipment Table

Use the table below to list each piece of motorized equipment (excluding vessels) that is proposed and answer the associated questions. Attach additional answers as necessary.

1. Equipment Name:	Pressure washer
What is the piece of equipment used for?	Harvest

Select the color(s) of this piece of equipment.	<input checked="" type="checkbox"/> Grays <input checked="" type="checkbox"/> Blacks <input type="checkbox"/> Browns <input type="checkbox"/> Blues <input type="checkbox"/> Greens
Does the piece of equipment have any exterior lights?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
How is this piece of equipment powered?	Generator
Which months would this piece of motorized equipment be used? If year round, specify accordingly.	Harvest, March-May
What is the maximum number of days that this piece of motorized equipment would be used?	30 days to harvest max
Which days of the week would this of motorized equipment be used?	Sunday-Thursday, but it would be weather dependant.
What are the maximum hours a day that this piece of motorized equipment would be used?	10 hrs a day
What measures would be taken to mitigate noise from this piece of equipment?	The equipment would be powered by the generator that is built into the lobster boat keeping the noise level down because it will not be on deck.

C. FLOATING STRUCTURES (work floats, barges, etc.)

1. Are you proposing any of the following? Check all that apply.	<input type="checkbox"/> Work Float <input type="checkbox"/> Barge <input type="checkbox"/> Other structure. Please specify: <input checked="" type="checkbox"/> Not proposing floating structure
2. Which months will the structure be within the boundaries of the proposed site?	N/A
3. Describe the purpose of the structure:	N/A
4. Provide the length and width in feet:	N/A
5. Select the color:	<input type="checkbox"/> Grays <input type="checkbox"/> Blacks <input type="checkbox"/> Browns <input type="checkbox"/> Blues <input type="checkbox"/> Greens
6. Does the structure contain exterior lighting?	<input type="checkbox"/> Yes <input type="checkbox"/> No
7. What measures would you take to mitigate light impacts from the structure?	N/A

D. BUILDINGS (includes sheds or other similar structure)

1. Are you proposing a shed, building or other similar structure?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2. What is the building, shed, or similar structure used for?	N/A
3. What are the maximum number of days it would be within the boundaries of the site each year? If year-round specify accordingly.	N/A

4. Provide the length and width in feet.	N/A
5. What is the height (in feet) as measured from the waterline?	N/A
6. Select the color of the building.	<input type="checkbox"/> Grays <input type="checkbox"/> Blacks <input type="checkbox"/> Browns <input type="checkbox"/> Blues <input type="checkbox"/> Greens
7. What measures would you take to minimize visual impacts as viewed from the water?	N/A

E. VESSELS

1. Vessels Table

Use the table below to provide required information about the vessel(s) that may service the proposed site.

	Type of Vessel	Engine type and HP:	Vessel Length in feet:	Height in feet as measured from the waterline:	How many days of the year would the vessel service the site?	How many hours each day would the vessel be on the site?
1	Novi style lobster boat	Detroit 400	45'	8'	40 days max	10 hours max
2.	Open with center console	Honda 100	21'	4'	40 days max	10 hours max

2. Are you storing petroleum products on the proposed site?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
If yes, you need to attach a spill prevention and control plan to this application.	

F. OTHER AQUACULTURE SITES**1. Limited Purpose Aquaculture (LPA) License(s)**

Are there any LPA licenses within the boundaries of the proposed site?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
If yes, provide the LPA site ID(s)	N/A
Are there any LPA sites within 1,000 feet of the boundaries of the proposed site?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
If yes, provide the LPA site ID(s)	N/A

2. Experimental Aquaculture Lease(s)

Is any portion of an experimental lease within the boundaries of the proposed site?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
If yes, provide the experimental lease site ID	CAS NECx Beth Putnam CAS ECx Jeff Putnam Beth and Jeff's experimental leases will be relinquished if this lease is granted
Is there an experimental lease within 1,000 feet of the boundaries of the proposed site?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
If yes, provide the experimental lease site ID	No, but Gordon Robinson has an experimental lease application currently under review. If granted this lease would be 230' south of our proposed standard lease.

3. Standard Aquaculture Lease(s)

Is any portion of a standard lease within the boundaries of the proposed site?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
If yes, provide the standard lease site ID	N/A
Is there a standard lease within 1,000 feet of the boundaries of the proposed site?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
If yes, provide the standard lease site ID	N/A

6. OPERATIONAL CAPABILITY

This section asks questions about technical capability, compliance history, and estimated costs.

A. TECHNICAL CAPABILITY

Do you or any other applicant hold existing aquaculture sites?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No		
If yes, please complete the table below for each aquaculture site held. Please attach additional entries as necessary.			
Name of Holder	Type of Site	Site ID	Acreage (if a lease) <i>Do not provide a size for LPA sites.</i>
Beth Putnam	<input checked="" type="checkbox"/> Experimental <input type="checkbox"/> Standard <input type="checkbox"/> LPA	CAS NECx	3.86
Jeff Putnam	<input checked="" type="checkbox"/> Experimental <input type="checkbox"/> Standard <input type="checkbox"/> LPA	CAS ECx	4

List your skills and experiences working on the water:

My husband and I have been successfully farming kelp on leases CAS NECx and CAS ECx since fall of 2022. Jeff has had a commercial fishing license since the late 80's and goes lobstering year round. I got my 100 ton Captain's license in 2006 and operate ferry boats and barges for Chebeague Transportation Co. We are raising a family where we live year round on Chebeague Island.

B. COMPLIANCE HISTORY

Have you been convicted of violating any state or federal marine resource laws?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
Have you been adjudicated to be responsible for violating any state or federal marine resource laws?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

C. FINANCIAL ESTIMATES

Use the space below to provide requested cost estimates of the planned aquaculture activities, if approved, as they relate to this proposal.	
Annual Lease Rent	\$100/acre at 13.3 acres = \$1,330
Annual DMR Licensing Fees	\$133/year for commercial aquaculture harvest license
Annual cost to maintain the bond or commitment amount for the escrow account	\$1,200
Annual Equipment Costs	\$2,000
Annual Maintenance Costs	\$3,000

7. RIPARIAN LANDOWNER NOTIFICATION

Is the proposal within 1,000 feet of shorefront land (which extends to mean low water or 1,650 feet from shore, whichever is less, according to NOAA charts).	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
--	---

If yes, please submit the following:

- ☒ Include a completed riparian landowner list. If the site is in more than one municipality, you need to submit separate lists for each town/city.
- ☒ Make sure the list is certified by the municipality. The person certifying the list on behalf of the municipality should review the tax records and is typically the town clerk, tax assessor, or other individual familiar with these records.
- ☒ Include a labeled tax map that displays the: town name, parcels numbered clearly, legible scale, and boundaries of the proposed lease site.

RIPARIAN LANDOWNER LIST

Using municipal tax records, complete the table below for all riparian shorefront parcels within 1,000 feet of the proposed lease site. **It is the applicant's responsibility to assemble the information for the municipality to certify.** The municipality only certifies that the information is correct according to the town's tax records. Once you have completed the form, ask the municipality to complete the certification section below. Attach additional pages as necessary.

Name of Municipality:	Town of Chebeague Island
------------------------------	--------------------------

Tax Map Number	Lot Number	Name of Landowner(s)	Mailing Address (Based on municipal tax records)
I03	34	Hales, Mary Ann	2012 Revocable Trust 32 Huckleberry Hill Lincoln, MA 01773
I03	37A	Kern, Jason Kern, Lisen	7 Landing Woods Ln Falmouth, ME 04105

Town Certification

By signing below, I am certifying on behalf of the municipality listed above that the names and addresses of the property owners, including the map and lot numbers, are those listed in the records of this municipality and are current as of this date.

Printed Name:	Krista Hayward
Signature:	
Position:	<input type="checkbox"/> Town Clerk <input type="checkbox"/> Town Assessor <input type="checkbox"/> Other town official. Please specify:
Date:	9/30/25

8. SITE COORDINATES

In this section provide your coordinates in decimal degrees, starting with the NW corner and proceeding clockwise. WGS-84 is the required datum.

Corner Label	Latitude (N)	Longitude (W)
1 (NW corner)	43.74984	-70.09496
2	43.74971	-70.09434
3	43.74697	-70.09566
4	43.7467	-70.09589
5	43.74408	-70.09762
6	43.74382	-70.09776
7	43.74108	-70.09908
8	43.74123	-70.09969
9	43.74397	-70.09838

10	43.74426	-70.09822
11	43.74688	-70.09649
12	43.7471	-70.09628

9. RENDERINGS & ATTACHMENTS

SITE LOCATION

A. BOUNDARY DRAWING

Depict the boundaries of the proposed site with corners labeled as referenced in the site coordinate table. Start with corner 1 (NW corner) and proceed clockwise with the labeling.

- ☒ Label the rendering 'Boundary Drawing'
- ☒ All corners are labeled in accordance with the instructions and match the coordinate table.

GEAR SCHEMATICS

If you are proposing any gear or structure, you must provide the following renderings:

B. OVERHEAD VIEW

- ☒ Label the rendering 'Overhead View'
- ☒ Include the maximum layout of all gear, including moorings.
- ☒ Label each gear type
- ☒ Depict the location of floats or other associated structure.
- ☒ Approximate spacing between gear in feet.
- ☒ Length and width of the proposed site.
- ☒ Lease boundaries and the location of proposed corner markers and any additional gear markers that would be present.
- ☒ Gear orientation

C. SEASONAL OVERHEAD VIEW

- ☒ Label the rendering 'Seasonal Overhead View'
- ☒ Include the maximum layout of all gear, including moorings.
- ☒ Label each gear type
- ☒ Depict the location of floats or other associated structure.

- ☒ Approximate spacing between gear in feet.
- ☒ Length and width of the proposed site.
- ☒ Lease boundaries and the location of proposed corner markers and any additional gear markers that would be present.
- ☒ Gear orientation

D. CROSS SECTION VIEW

- ☒ Label the rendering 'Cross Section View'
- ☒ Profile of gear in cross-section as it will be deployed.
- ☒ Label each gear type.
- ☒ Depict mooring type
- ☒ Depict mooring scope
- ☒ Depict mooring hardware
- ☒ Depict mooring line type and size.
- ☒ Depict the depth of the gear in relationship to the water's surface at both mean low water and mean high water

E. SEASONAL CROSS SECTION VIEW

If there are seasonal changes to the gear layout (i.e. overwintering), submit a cross section view depicting the following:

- ☒ Label the rendering 'Seasonal Cross Section View'
- ☒ Profile of gear in cross-section as it will be deployed.
- ☒ Label each gear type.
- ☒ Depict mooring type
- ☒ Depict mooring scope
- ☒ Depict mooring hardware
- ☒ Depict mooring line type and size.
- ☒ Depict the depth of the gear in relationship to the water's surface at both mean low water and mean high water

F. STRUCTURE/FLOAT SCHEMATICS

Provide a schematic or photos of any structures or floats that are proposed. The schematic(s) need to include the following:

- ☐ Approximate location of any mechanized equipment that may be used or stored on the structure. The equipment must be labeled.

OTHER ATTACHMENTS

G. OIL SPILL PREVENTION AND CONTROL PLAN

If petroleum products are stored on the proposed site, you need to attach a spill prevention and control plan. It must include the following:

- ☐ Procedures and control measures to prevent spills.
- ☐ Measures to contain, cleanup, and mitigate the effects of an oil spill that has impacted navigable waters or adjoining shorelines.

H. FINANCIAL INSTITUTION LETTERS

☒ In accordance with regulation, you must include a letter from a financial institution indicating you have an account in good standing. If there are multiple applicants, they each submit letters.

I. INTERTIDAL SITES

If any portion of the proposed site is above mean low water, you need to provide the following under 1 and 2:

1. Landowner Written Permission

All riparian owners whose intertidal lands will be used for aquaculture need to give the applicant written permission to use intertidal lands. You need to submit this written permission with your application. DMR will not accept the application without the required permission.

The written permission must include the following:

- ☐ The map and lot number of the parcel to which the permission applies, which needs to match what is listed on the riparian landowner list.
- ☐ The letter must include the names(s) of the landowner(s). If the parcel is held by multiple people, each individual needs to provide permission. It can be included in the same letter, but it needs to be clear that all owners of the parcel consent.
- ☐ The letter must clearly state that the parcel owner is giving the applicant(s) **permission to use their intertidal lands** for the proposed aquaculture activities. General letters of support from the parcel owner do not satisfy this requirement.

☐ If the intertidal land is owned by the applicant(s) then an ‘Applicant Statement’ must be included with the submission. The submission needs to include the map and lot number of the parcel owned.

2. Municipal Permission

Does the municipality have a shellfish conservation program in accordance with 12 M.R.S.A. section 6671?	<input type="checkbox"/> Yes <input type="checkbox"/> No
--	--

If you selected “no” then part B is not required.

If you selected “yes” then you also need to submit the following with your application:

The **municipal officers** need to consent to using the intertidal area. Consent means that a majority of the municipal officers voted to grant permission to use the intertidal area. The vote needs to occur during a public meeting.

After the meeting, you will need to submit one of the following:

A copy of the final meeting minutes that includes the text of the motion and the results of the vote, which demonstrates that a majority of municipal officers gave consent to the applicant(s) to use the intertidal area. Draft copies of meeting minutes will not be accepted.

OR

A letter from the municipality that summarizes the meeting when the vote was taken. The letter needs to include:

- ☐ The date of the meeting.
- ☐ Text of the motion.
- ☐ The vote of each municipal officer (they need to be individually named).
- ☐ Name and title of the individual submitting the letter on behalf of the town.

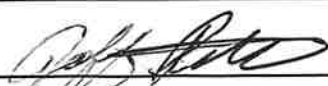

10. ACKNOWLEDGMENT AND SIGNATURE PAGE

Every listed applicant needs to complete and include a copy of this form with the submission. If the applicant is a company, this needs to be completed and signed by a person authorized to make such certifications and submissions on behalf of the company.

Please read and check each box confirming understanding

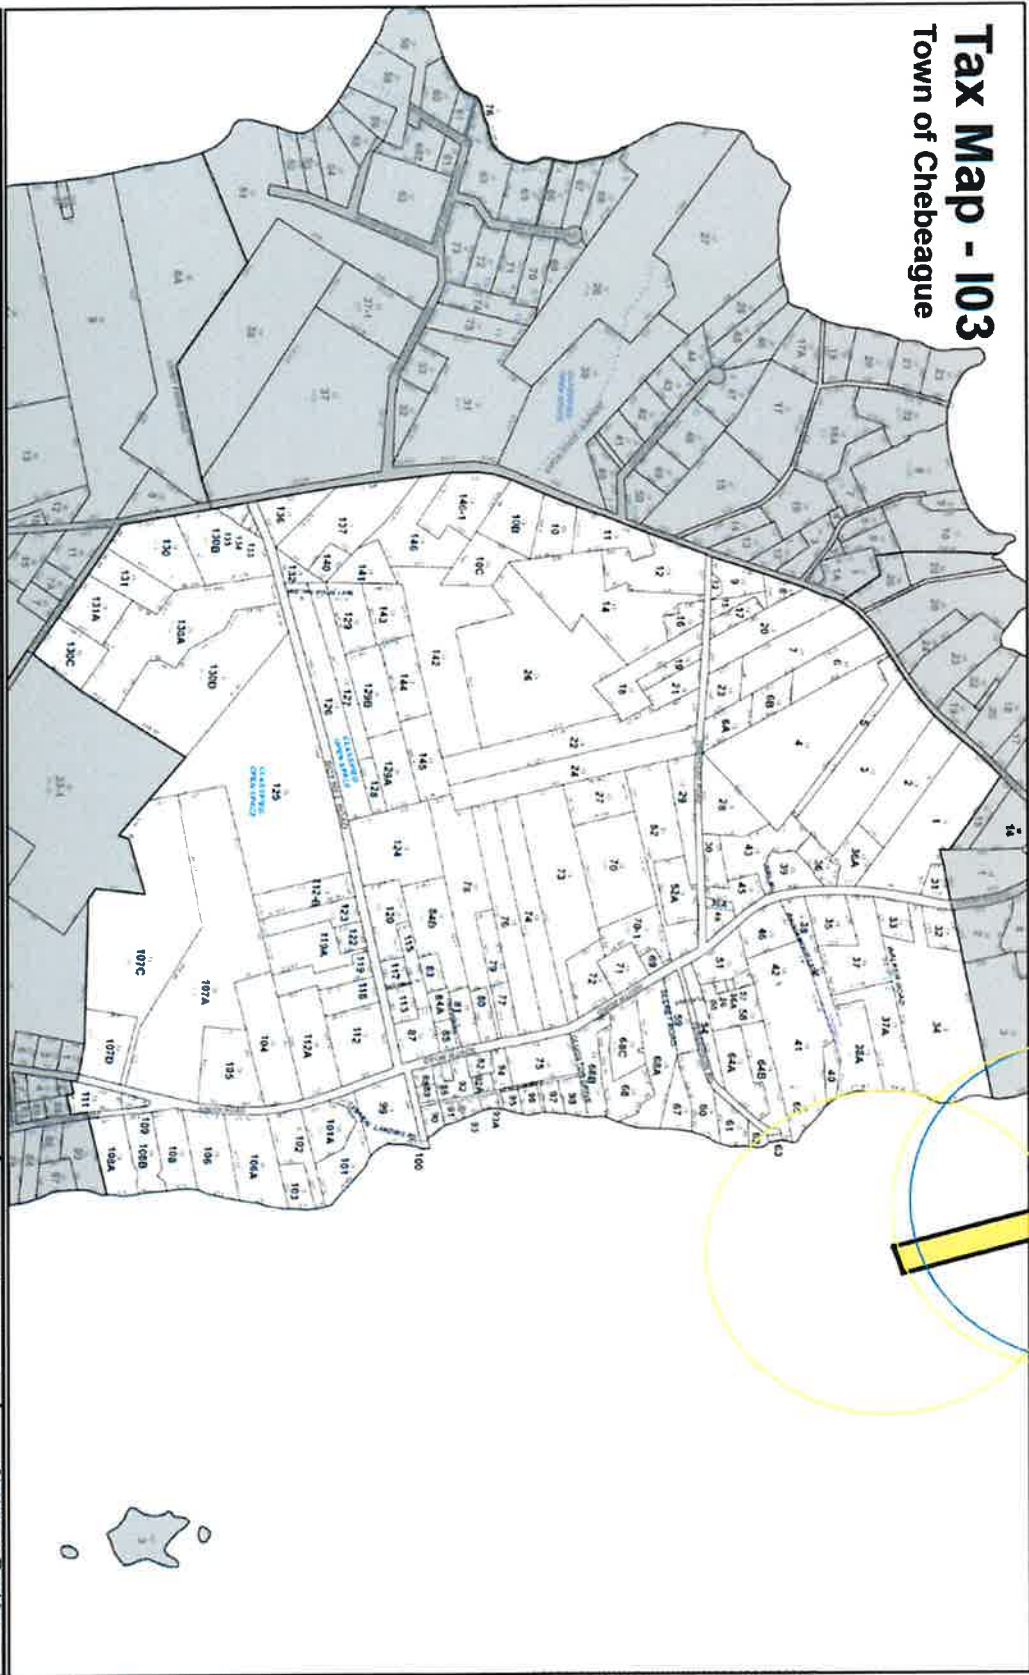

- ☒ I have read DMR's aquaculture laws and regulations and will comply with those provisions.
- ☒ I understand that lease proposals are evaluated in consideration of applicable decision criteria and processed in accordance with relevant law and rules. Applying for a lease is not a guarantee that this site will be granted or otherwise granted as originally applied for.
- ☒ I understand that lease application fees are non-refundable.
- ☒ I understand that falsifying any information in this application will result in termination of the application or other enforcement action.
- ☒ I understand that it is my responsibility to submit a copy of this application to the U.S. Army Corps of Engineers (USACE) and that their review process is separate from DMR's. If I have questions about the USACE process or review, I will contact that agency.
- ☒ I read the lease application instructions. I will follow the instructions and provide any requested information in a timely manner.
- ☒ I understand that this is a draft application and that I will eventually be required to submit a final application, which will require me to provide additional information about my proposed operations.
- ☒ I understand that after the scoping session, I should consider public feedback about my initial plans (outlined in the draft application) prior to completing and submitting a final lease proposal.
