

CHANGING THE DATE RANGE FILTER IN FIND REPORTS VESL HARVESTER REPORTING APPLICATION

Editing the date range filter will allow you to specify which previously created reports are visible under “Find Reports”. Once you have adjusted your date range filter, it will save your selection unless you log-out of the VESL application.

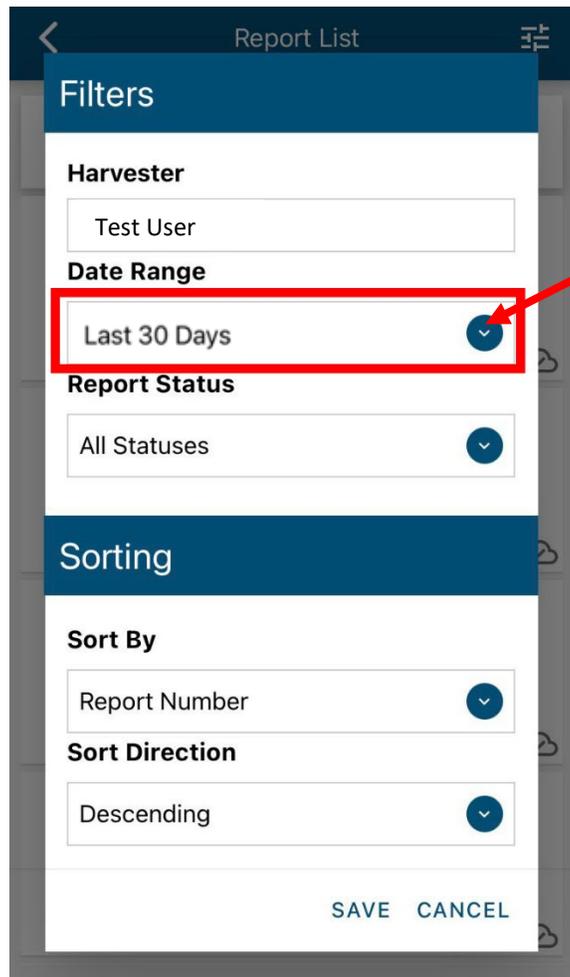

1. Open the VESL application.
2. Click “Find Report” to view previously created reports.

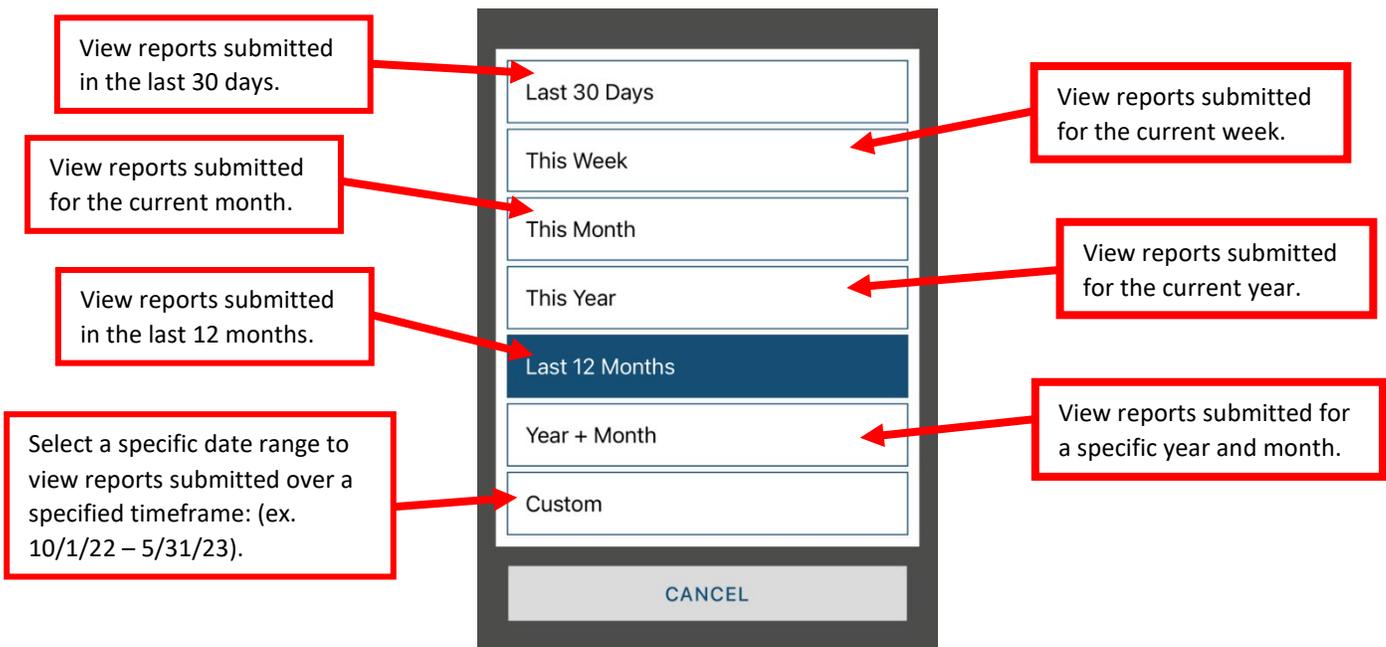

3. Click the filter icon in the top right or tap the box with your name.

4. Click the drop-down arrow for 'Date Range'. The field will already be populated with "Last 30 Days".

5. You will see a list of date range options.

- Once you have chosen the date range, click "SAVE" at the bottom of the screen. Your date range selection will be saved until you change it or log out of the VESL application.

The screenshot shows a mobile application interface for a 'Report List'. At the top, there is a navigation bar with a back arrow, the text 'Report List', and a menu icon. Below this is a 'Filters' section with a dark blue header. Under 'Filters', there are three sections: 'Harvester' with a text input field containing 'Test User'; 'Date Range' with a dropdown menu showing 'This Year'; and 'Report Status' with a dropdown menu showing 'All Statuses'. Below the filters is a 'Sorting' section with a dark blue header. Under 'Sorting', there are two sections: 'Sort By' with a dropdown menu showing 'Report Number'; and 'Sort Direction' with a dropdown menu showing 'Descending'. At the bottom of the screen, there are two buttons: 'SAVE' and 'CANCEL'. A red arrow points to the 'SAVE' button, which is also highlighted with a red square.
