Chapter 26: SEA URCHINS

TITLE INDEX

- 26.01** Nighttime Harvesting Prohibition
- 26.02** Sea Urchin Minimum Size and Tolerance
- 26.03** Sea Urchin Maximum Size and Tolerance
- 26.05** Sea Urchin Drag Regulation
- 26.07** Sea Urchin Harvesting Season
- 26.10** Log Book
- 26.12** Tagging
- 26.15** Sea Urchin Harvester License Limited Entry System
- 26.19** Limited Access Areas
- 26.30** Sea Urchin Zone Council Elections
- 26.40** Tote Limits
- 26.50** Urchin Electronic Reporting

26.01 Nighttime Harvesting Prohibition

It shall be unlawful to fish for or take sea urchins during the nighttime hours between sunset (as defined in 12 M.R.S. §6001(46)) and sunrise (as defined in 12 M.R.S. §6001(45)) within Maine's coastal waters.

26.02 Sea Urchin Minimum Size and Tolerance

1. Prohibition

It is unlawful for any person to take, possess, ship, transfer, transport, buy, or sell a sea urchin having a shell measuring less than $2\frac{1}{16}$ inches in the longest diameter, measuring from the top or bottom of the urchin, exclusive of spines.

2. Exceptions to 26.02(1) Prohibition

A. Possession Tolerance for All Persons

Any person may possess sea urchins measuring less than $2\frac{1}{16}$ inches if they comprise less than 5% of any bulk pile.

B. Take Tolerance for Harvesters

(1) Zone 1 & 2 Divers

Zone 1 & 2 divers may take sea urchins that are less than $2\frac{1}{16}$ inches if they comprise less than 20% of any bulk pile prior to culling on board.

(2) Take Tolerance for All Other Harvesters

All licensed sea urchin harvesters except Zone 1 & 2 divers may take sea urchins that are less than $2\frac{1}{16}$ inches prior to culling on board.

C. Sea Urchins Obtained Outside the State of Maine

Any person exceeding the possession tolerance of this regulation for sea urchins measuring less than $2\frac{1}{16}$ inches shall not be in violation of Chapter 26.02 if that person is in possession of a bill of lading for the amount of the sea urchins exceeding the tolerance amount showing those sea urchins were lawfully obtained from an origin outside the State of Maine. The absence of a bill of lading shall be prima facie evidence that the sea urchins were taken from waters within the jurisdiction of the State of Maine.

3. Tolerance

Tolerance shall be determined by numerical count of not less than $\frac{1}{2}$ bushel taken at random from various parts of the bulk pile or by count of the entire bulk pile if it contains less than $\frac{1}{2}$ bushel.

If any person is found in possession of sea urchins measuring less than $2\frac{1}{16}$ inches that comprise more than 5% of the bulk pile pursuant to 26.02(2)(A) or 20% pursuant to 26.02(2)(B)(1), that bulk pile shall be considered contraband and subject to seizure.

4. Culling Requirement

Sea urchins measuring less than $2\frac{1}{16}$ inches must be culled on board immediately after take, and liberated alive into the marine waters.

26.03 Sea Urchin Maximum Size and Tolerance

1. Prohibition

It is unlawful for any person to take, possess, ship, transfer, transport, buy, or sell a sea urchin having a shell measuring more than 3 inches in the longest diameter, measuring from the top or bottom of the urchin, exclusive of spines.

2. Exceptions to 26.03(1) Prohibition

A. Possession Tolerance for All Persons

Any person may possess sea urchins measuring more than 3 inches if they comprise less than 5% of any bulk pile.

B. Take Tolerance for Harvesters

(1) Zone 1 & 2 Divers

Zone 1 & 2 divers may take sea urchins that are more than 3 inches if they comprise less than 20% of any bulk pile prior to culling on board.

(2) Take Tolerance for All Other Harvesters

All licensed sea urchin harvesters except Zone 1 & 2 divers may take sea urchins that are more than 3 inches prior to culling on board.

C. Sea Urchins Obtained Outside the State of Maine

Any person exceeding the possession tolerance of this regulation for sea urchins measuring more than 3 inches shall not be in violation of Chapter 26.03 if that person is in possession of a bill of lading for the amount of the sea urchins exceeding the tolerance amount showing those sea urchins were lawfully obtained from an origin outside the State of Maine. The absence of a bill of lading shall be prima facie evidence that the sea urchins were taken from waters within the jurisdiction of the State of Maine.

3. Tolerance

Tolerance shall be determined by numerical count of not less than ½ bushel taken at random from various parts of the bulk pile or by count of the entire bulk pile if it contains less than ½ bushel.

If any person is found in possession of sea urchins measuring more than 3 inches that comprise more than 5% of the bulk pile pursuant to 26.03(2)(A) or 20% pursuant to 26.03(2)(B)(1), that bulk pile shall be considered contraband and subject to seizure.

4. Culling Requirement

Sea urchins measuring more than 3 inches must be culled on board immediately after take, and liberated alive into the marine waters.

26.05 Sea Urchin Drag Regulation

1.

A. It shall be unlawful to fish for, possess or take sea urchins with a drag, or combination of drags, in excess of 5 feet six inches effective fishing width (by measuring from the extreme outside of the mouth of the drag or drags), within Maine's coastal waters.

B. Escape Panel - Zone 2

It shall be unlawful to fish for, possess, or take sea urchins in Zone 2 with a drag that does not have an escape panel.

(1) Configuration of Escape Panel

- (a) The panel shall consist of a single layer of netting in the top of the drag above the chains.
- (b) There can be no liner or other material or device obstructing any part of the panel.
- (c) The panel must be at least 2 feet deep (from front to back of the drag) and extend across the full width of the drag.
- (d) The mesh of the netting must be hung "square", not "diamond", that is, the twines of the mesh going one way must run parallel to the front (mouth) of the drag and the twines of the mesh going the other way must run perpendicular to the front (mouth) of the drag, not diagonally.
- (e) The meshes must measure at least 2 inches from the middle of one knot to the middle of the next adjacent knot.

2. Method of mesh measurement

Mesh size shall be measured by lining up 5 consecutive knots perpendicular to the front of the drag or parallel to the front of the drag and measuring the distance from the middle of one knot to the middle of the next knot with a ruler or tape measure. The mesh measurement shall be the average of the 5 consecutive measures. These measurements must be made at least 2 meshes away from the edges of the panel.

3. Exception

It shall be lawful to fish for, take, or possess sea urchins with a drag that qualifies as a scallop drag under Chapter 11.07 if the drag meets the requirements of Chapter 26.05(A).

26.07 Sea Urchin Harvesting Season 2022-2023 pursuant to 12 M.R.S. §6749.

Harvesters may choose 15 of the available days in Zone 1 and 30 of the potential 40 available days in Zone 2.

1. Zone 1 [as defined by 12 M.R.S. §6749-N(1)]. Harvesters may choose 15 of the available fishing days.

A. Early season for divers, trappers and rakers

The Zone 1 season for divers, trappers and rakers who have certified the early season on forms provided by the Commissioner, is open Mondays, Tuesdays, Wednesdays, Thursdays and Fridays in September and October, 2022. Divers, trappers, and rakers may fish no more than 15 of these days.

B. Late season for divers, trappers and rakers

The Zone 1 season for divers, trappers and rakers who have certified the late season on forms provided by the Commissioner, is open Mondays, Tuesdays, Wednesdays, Thursdays and Fridays in December, 2022; and January and February 2023. Divers, trappers, and rakers may fish no more than 15 of these days.

C. Season for draggers [in accordance with 12 M.R.S. §6749-V]

The Zone 1 season for draggers is open Mondays, Tuesdays, Wednesdays, Thursdays and Fridays in December, 2022; and January and February 2023. Draggers may fish no more than 15 of these days.

D. Designation of Zone 1 early or late season:

- (1) A diver, trapper, or raker who holds a sea urchin harvesting license for Zone 1 may not harvest sea urchins in Zone 1 unless that person certifies on forms provided by the Commissioner that the person will fish for or take sea urchins during either the early season or the late season.

- (2) Divers, trappers and rakers who have certified the early or late season may, between May 1st and August 15th change that certification to the other time period as the time period in which that person will fish for or take sea urchins.
2. Zone 2 [as defined by 12 M.R.S. §6749-N(2)]. Harvesters may choose 30 of the potential 40 days.
 - A. Early season for divers, trappers and rakers

The Zone 2 season for divers, trappers and rakers who have certified the early season on forms provided by the Commissioner, is open September 27 and 28, 2022; Tuesdays, Wednesdays and Thursdays in October 2022; November 1, 2, 3, 8, 9, 10, 15, 16, 17, 21, 22, 23 and 30, 2022; and, December 1, 6, 7, 8, 12, 13, 14, 15, 19, 20, 21, 27 and 28, 2022. Divers, trappers, and rakers may fish no more than 30 of these days.
 - B. Late season for divers, trappers and rakers

The Zone 2 season for divers, trappers and rakers who have certified the late season on forms provided by the Commissioner, is open Tuesdays, Wednesdays and Thursdays in December 2022, except for December 1, 2022 which shall be closed; Tuesdays, Wednesdays and Thursdays in January 2023 and February 2023, except February 21, 22 and 23, 2023 which shall be closed; and March 1, 2, 7, 8, 14 and 15, 2023. Divers, trappers, and rakers may fish no more than 30 of these days.
 - C. Early season for draggers

The Zone 2 season for draggers who have certified the early season on forms provided by the Commissioner, is open Tuesdays, Wednesdays, and Thursdays in October 2022; November 2, 3, 8, 9, 10, 16, 17, 22, 23, 29, 30, 2022; Thursdays and Fridays in December 2022 and also Wednesday, December 21, 2022; and January 5, 6, 12, 13, 19, and 20, 2023. Draggers may fish no more than 30 of these days.
 - D. Late season for draggers

The Zone 2 season for draggers who have certified the late season on forms provided by the Commissioner, is open November 30, 2022; Wednesdays, Thursdays and Fridays in December 2022; Wednesdays, Thursdays and Fridays in January and February 2023; and January 24, 2023. Draggers may fish no more than 30 of these days.
 - E. Designation of Zone 2 early or late season:
 - (1) A person who holds a sea urchin harvesting license for Zone 2 may not harvest sea urchins in Zone 2 unless that person certifies on forms provided by the Commissioner that the person will fish for or take sea urchins during either the early season or the late season.

- (2) A person who has certified the early or late season may, between May 1st and August 15th change that certification to the other time period as the time period in which that person will fish for or take sea urchins.

26.10 Log Book

See Chapter 8.10(P) Landings Program

26.12 Tagging

Each tote of sea urchins transported or shipped whole must be accompanied by a tag with date of purchase and harvester license number affixed by a license dealer.

26.15 Sea Urchin Harvester License Limited Entry System

Beginning August 1, 2004, no new sea urchin harvesting licenses will be issued, and no lotteries will be held.

26.19 Limited Access Areas

Transiting exception:

Any vessel possessing urchins onboard, may transit the Limited Access Area, only if the vessel has all fishing gear (dredges, drags, regulators, buoyancy compensators, fins, tanks, weight belts) securely stowed. Securely stowed shall mean the main wire shall not be shackled or connected to the dredges or drags, and the towing swivel will be at the block or on the winch for draggers, while regulators, buoyancy compensators and tanks should be disconnected with fins and weight belts removed for divers.

1. Whiting and Denny's Bay Area (Zone 2). Harvesters may choose up to 15 days of the following applicable season open days for the Whiting and Denny's Bay limited access area to fish within their 30 days available for harvest.

- A. Early season for divers, trappers and rakers

It shall be unlawful to fish for, take, or possess urchins west of a line starting at the western end of Mahar Point, Pembroke, due south to the nearest point of land on Crow Neck, Trescott, to include all of Whiting and Denny's Bay except by divers, trappers, and rakers who have certified the early season on forms provided by the Commissioner, on September 27 and 28, 2022; Wednesdays in October and November 2022; October 18 and 25, 2022; and December 7 and 14, 2022.

B. Late season for divers, trappers and rakers

It shall be unlawful to fish for, take, or possess urchins west of a line starting at the western end of Mahar Point, Pembroke, due south to the nearest point of land on Crow Neck, Trescott, to include all of Whiting and Denny's Bay except by divers, trappers and rakers who have certified the late season on forms provided by the Commissioner on Tuesdays in December 2022, Tuesdays in January and February 2023, except Tuesday, February 21, 2023, which shall be closed; Wednesday, February 15, 2023 and March 7, and 14, 2023.

C. Early season for draggers

It shall be unlawful to fish for, take, or possess urchins west of a line starting at the western end of Mahar Point, Pembroke, due south to the nearest point of land on Crow Neck, Trescott, to include all of Whiting and Denny's Bay except by draggers who have certified the early season on forms provided by the Commissioner, on Thursdays in October, November and December 2022, except November 24, 2022 which shall be closed; and January 5, 12, and 19, 2023.

D. Late season for draggers

It shall be unlawful to fish for, take, or possess urchins west of a line starting at the western end of Mahar Point, Pembroke, due south to the nearest point of land on Crow Neck, Trescott, to include all of Whiting and Denny's Bay except by draggers who have certified the late season on forms provided by the Commissioner, on Thursdays in December, 2022, Thursdays in January, and February 2023; and January 4, 2023 and February 1, 2023.

26.20 Targeted Closures

It shall be unlawful to fish for, take, or possess urchins taken by any method within any of the following closed areas. All directions are relative to True North (not magnetic).

Transiting exception

Any vessel possessing urchins onboard, may transit these targeted closures, only if the vessel has all fishing gear (dredges, drags, regulators, buoyancy compensators, fins, tanks, weight belts) securely stowed. Securely stowed shall mean the main wire shall not be shackled or connected to the dredges or drags, and the towing swivel will be at the block or on the winch for draggers, while regulators, buoyancy compensators and tanks should be disconnected with fins and weight belts removed for divers.

1. Cat Ledges Area:

It shall be unlawful to fish for, take, or possess urchins inside a line drawn from the southwestern tip of Pratt Island, Southport Island, then south to Red Gong "4CL", then northeast to the prominent point on the eastern shore of Christmas Cove.

26.30 Sea Urchin Zone Council Elections

1. Elections and Term

The Sea Urchin Zone Council shall hold its first election for those members specified in 12 M.R.S. §6749-X, sub-§1 by March 2008, and a biennial election thereafter beginning in December 2010, to re-elect or replace the elected members whose terms are expiring. Council members shall have terms of two years.

2. Election of Council Members

Election of council members shall be by a plurality vote of eligible voters participating in the election.

3. Eligibility of Council Members

To be eligible for election as a council member an individual must hold a valid license of a type specified in 12 M.R.S. §6749-X, sub-§1 and be at least 18 years of age. An individual who has been convicted of a marine resources law violation within the previous 6 years is not eligible for election as a council member unless a waiver from this requirement has been granted by the commissioner for good cause as determined by the commissioner in his or her discretion.

4. Eligibility to vote

An individual who holds a valid license of a type specified in 12 M.R.S. §6749-X, sub-§1 and is at least 18 years of age shall be eligible to vote to fill vacant council positions representing the same type of license held by the voter. If the license type is specific to Zone 1 or Zone 2, as defined under 12 M.R.S. §6749-N, then the individual shall only be eligible to participate in the election if the individual holds the eligible license in the same zone.

5. Election process

Each individual shall have one vote in the election for each seat for which they are eligible to vote. The vote shall be by secret mailed ballot and the ballots shall be collected by the Department of Marine Resources. The ballots shall be tallied, and the results shall be made known to the Commissioner, members of the Sea Urchin Zone Council and the public.

6. Vacancies

Any vacancy occurring in the membership of the Sea Urchin Zone Council including one created by reason of resignation, ineligibility, or death shall be filled by the candidate from the most recent election who received the second greatest number of votes. If no such candidate is available or is willing to serve as representative, then a special election will be held. Council members elected to fill a vacancy shall serve for the remainder of the vacated member's term.

7. Removal of Council Members

A council member whose urchin license is suspended or revoked, or who fails to renew the license, shall automatically be removed from the Sea Urchin Zone Council. A Council member who misses three consecutive meetings without notifying an officer or other Council member of the intended absence from a meeting may be removed from the Council by affirmative vote of the Council.

26.40 Tote Limits

1. Zone 1

It is unlawful for Zone 1 sea urchin divers, rakers or trappers to fish for, take or possess more than nine (9) standard size stackable fish totes of sea urchins per day in Maine's territorial waters. A standard size stackable fish tote is defined as 28" Long x 16" Wide x 11" Deep when measured inside at the shelf level.

It is unlawful for Zone 1 drag vessels to fish for, take or possess more than nine (9) standard size stackable fish totes of sea urchins per day in Maine's territorial waters. A standard size stackable fish tote is defined as 28" Long x 16" Wide x 11" Deep when measured inside at the shelf level.

2. Zone 2

It is unlawful for Zone 2 sea urchin divers, rakers or trappers to fish for, take or possess more than six (6) standard size stackable fish totes of sea urchins per day in Maine's territorial waters. A standard size stackable fish tote is defined as 28" Long x 16" Wide x 11" Deep when measured inside at the shelf level.

It is unlawful for Zone 2 drag vessels to fish for, take or possess more than six (6) standard size stackable fish totes of sea urchins per day in Maine's territorial waters. A standard size stackable fish tote is defined as 28" Long x 16" Wide x 11" Deep when measured inside at the shelf level.

3. Implementation

It is unlawful to offload sea urchins, or any parts of sea urchins, and then return to fishing for sea urchins the same day in Maine's territorial waters. In addition it is unlawful to transfer sea urchins, or any parts of sea urchins to or from another vessel at sea, except for tender vessels transiting to primary vessels during diving operations.

It is unlawful for a dealer to purchase more than nine (9) standard size stackable fish totes from one licensed Zone 1 harvester per day.

It is unlawful for a dealer to purchase more than six (6) standard size stackable fish totes from one licensed Zone 2 harvester per day.

Standard size stackable fish totes, with respect to the urchin fishery, means totes shall not be filled with sea urchins in a manner which prevents them from being stacked one on top of the other as designed. The bottom of one tote shall rest on the shelves of the tote below.

26.50 Urchin Electronic Reporting

For the purpose of this section, “DMR-issued reporting device” means a transaction card or other Department developed and approved technology provided for the purpose of recording urchin transactions.

1. **Eligibility.** In order to be eligible for a DMR-issued device for the electronic reporting of urchin landings, an individual must be licensed according to 12 M.R.S. §6748, 6748-A, 6748-D, or 6302-A subsection 3 paragraph B. Valid reporting devices may only be issued by the Department of Marine Resources.
2. **Harvester Use.** It is unlawful for an individual licensed under 12 M.R.S. §6748, 6748-A, 6748-D, or 6302-A subsection 3 paragraph B to sell or transfer urchins the license holder has taken, unless the harvester presents a DMR-issued reporting device and records each transaction. DMR-issued reporting devices may only be used to sell urchins which were harvested by the individual identified on the reporting device. A law enforcement officer may seize or deactivate the reporting device of an individual who has used their reporting device to sell urchins they did not harvest. The act of utilizing your reporting on any given day will be considered as one fishing day, between the hours of 12:00 am-11:59pm.
3. **Dealer Use.** It is unlawful for a person licensed under 12 M.R.S. §6851 subsection 2-B, subsection 2-C, or §6852 to purchase or transfer urchins from an individual licensed under 12 M.R.S. §6748, 6748-A, 6748-D, or 6302-A subsection 3 paragraph B, without recording the transaction using the electronic recording device specified by the Department for that purpose. DMR provided reporting software must be synchronized for updates to the reporting system prior to the purchase of urchins on each fishing day. A person licensed under 12 M.R.S. §6851 subsection 2-B or subsection 2-C may not purchase urchins from a harvester that does not present a DMR-issued reporting device. In the event of any failure of the reporting software or equipment, the Commissioner may authorize the use of paper reports until such time as the system is operational.
4. **Records required.** A person licensed in accordance with 12 M.R.S. §6851 subsection 2-B or subsection 2-C shall maintain documentation to account for all urchins in their possession. Any urchins legally obtained from other jurisdictions must have sufficient documentation to demonstrate their origin. Failure to provide proper documentation will be prima facie evidence that the urchins are illegal and are subject to seizure.
5. **The Department will deactivate the reporting device of any individual who has met or exceeded their sea urchin harvest days.** The onus is on the license holder to track days fished; harvesting beyond the number of allocated season days is considered fishing out of season and is prohibited.

2022 - 2023 Sea Urchin Season for Maine Zone 1

A Zone 1 harvester may choose to fish 15 of the open days
