3. PAST USE OF LEASE

Has this lease been used for aquaculture during its term?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
---	---

A. If “Yes”, describe the aquaculture activities, including but not limited to seeding, cultivation, or harvest of organisms.

The site has been planted with roughly 1.5” seed each Summer and Fall. The procedure used for planting is as follows: we motor along a straight line in a certain area within the lease and gently shake the oysters over the stern of the boat directly from the surface bags that were located on the MIDD CI nursery lease. During this time, we track our path on a gps and keep a record of the size, quantity and year class of the seed that is being planted.

After a year or so of growing on the bottom, we start harvesting the market sized oysters in that area via a 32” drag that is towed behind the boat. This drag pulls up large oysters and allows smaller oysters to stay on the bottom. Once the drag is full of oysters, we haul the drag up from the bottom with a traditional ‘pot hauler winch’ and dump the product into fish totes in the boat. At this point we sort out any small oysters and replant them.

We continue to harvest weekly throughout the year unless the site is iced over.

B. If “No”, explain why no aquaculture has been conducted.

7. TECHNICAL CAPABILITY OF THE TRANSFEREE

Provide information regarding professional expertise. For each transferee, attaching a resume or documentation of practical experience necessary to undertake aquaculture activities would satisfy this requirement.
Mere Point Oyster Company has been cultivating oysters for over 5 years. The owners of the company have been cultivating oysters for over 10 years on their individual Limited Purpose Aquaculture sites.

8. FINANCIAL CAPABILITY OF THE TRANSFEREE

A. Please provide a letter from a financial institution indicating the applicant has an account in good standing. Note: Any financial information you submit with your application is part of the public record. Please exercise discretion when submitting financial information.
Please see attached

B. Please provide cost estimates of the aquaculture activities the transferee plans to conduct on this lease.
As Mere Point Oyster Company already has experience with aquaculture and a lot of the equipment necessary to farm oysters, the added resources needed for this lease will be somewhat low. Our anticipated expenditures include an updated 19' boat to deploy and harvest oysters (estimated at \$20,000), labor required to deploy and harvest the oysters and other operating costs (estimated at \$30,000).

9. BIRD DETERRENT

Suspended culture gear can attract birds that roost on the gear and defecate, potentially creating a pollution source impacting shellfish held within the gear. In order to comply with the National Shellfish Sanitation Program (NSSP) Model Ordinance (MO), DMR is requiring that all applications involving the suspended culture of shellfish include a description of mitigation or deterrent measures to minimize the potential pollution impacts of birds at the proposed site. If appropriate, include sketches or photos that clearly depict those measures put into practice.

Examples may include:

- Submerging suspended gear and associated product at a depth sufficient to deter roosting for two weeks before harvest
- Attaching physical deterrents (i.e. zip ties) to gear
- The site is proposed for the culture of seed only
- The site is proposed for the culture of adductor-only scallops (i.e. no other shellfish species would be grown on the site)
- Proposed gear would always be suspended below the surface of the water at a depth sufficient to deter roosting (i.e. as is common for scallop lantern nets)

N/A. No suspended gear on this site.

10. FORM OF OWNERSHIP

State law limits the maximum aquaculture lease acreage a lessee can hold to 1,000 acres. Lease acreage held by a corporation or partnership is attributed to the stockholders or partners in the same proportion as their ownership in the corporation or partnership. For example, a 35% shareholder in a company holding a 100-acre lease is deemed to hold 35 acres (See [DMR Rule 2.12\(3\)](#)).

A. Individuals. Answer the following questions if any transferees are assuming this lease as individuals.

1. Have you applied for other aquaculture leases in Maine?	<input type="checkbox"/> Yes <input type="checkbox"/> No
--	--

2. If “Yes”, list the transferee’s name and state the outcome and current status of each lease

--

3. How many acres of aquaculture leases do you currently hold, whether as an individual, a stockholder, a partner, or other co-owner of a lease or leases?	
--	--

4. Have you ever been arrested, indicted, or convicted of or adjudicated to be responsible for, any violation of any state or federal marine resources or environmental protection law?	<input type="checkbox"/> Yes <input type="checkbox"/> No
---	--

5. If “Yes”, list all such incidents.

--

B. Corporations or Partnerships. Complete the following steps if any transferees are organized as corporations or partnerships, including LLCs.

1. Include a copy of corporate filing information with this application
2. Complete and submit with this application the “Corporate Applicant Information Document” available at:
<http://www.maine.gov/dmr/aquaculture/forms/standard.html>

11. TRANSFEROR'S STATEMENT (if multiple lessees/transferors, provide additional completed signature pages as necessary)

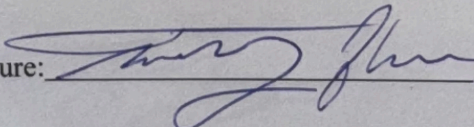

By signing this application, the UNDERSIGNED LESSEE hereby states that they have read and understand the requirements of the Department's statutes and rules governing aquaculture and the transfer application instructions. The undersigned lessee certifies that the following information is true and correct:

- The lease site is in good order and is in compliance with all DMR aquaculture laws and regulations;
- There are no rent bills outstanding;
- The required bond or escrow account is in place and will remain effective until the transferee obtains new coverage; and
- All required reports have been filed.

Commissioner Carl Wilson
State of Maine, Department of Marine Resources
State House
Augusta, ME 04333

Dear Commissioner Wilson:

Mere Point Oyster has discussed their intentions to submit an application for lease with Bath Savings Institution.

Bath Savings Institution has a long-standing relationship with Mere Point Oyster dating back to 2021. The business currently has a variety of deposit and loan products at our bank with an aggregate deposit account balance in the mid five-figure range. The bank has made multiple loans to the company and considers them an excellent credit risk. Their loans require regular monthly payments that have always been made as agreed and they have always demonstrated an ability to handle all accounts satisfactorily.

Based on this relationship and their track record of success, we would be pleased to consider future financing requests with them.

Please feel free to contact me at 207-371-4218 if any further information is needed.

Regards,

Mara K Pennell
