CREATING A POSITIVE REPORT USING THE VESL HARVESTER APPLICATION

The ME DMR VESL Harvester Application uses a dynamic form, which means the fields you are required to fill out are dependent on the gear you select. Only the fields you are required to report will be displayed.

- 1. After you have logged into (or opened) the application you are presented with three options:
 - A. "FIND REPORT" allows you to search on previously created reports.
 - B. "CREATE REPORT" opens the applications reporting screen.
 - C. "CREATE DID NOT FISH" will bring you to the VESL website (requires active internet connection) to create and submit your "did not fish" reports.

DMR Harvester Report	ወ
FIND REPORT	
CREATE REPORT	
CREATE DID NOT FISH	

- 2. Creating a Report
 - A. After you click on "CREATE REPORT" (in Step 1b above) you will arrive at this screen. Click on "Harvester." Click the drop-down arrow, then click on your name when it pops up.

DD. Click "CONTINUE" again. Once you click "CONTINUE," you will click on the "disk" icon in the upper right corner of your screen or "SAVE" at the bottom. You will see a spinning wheel.

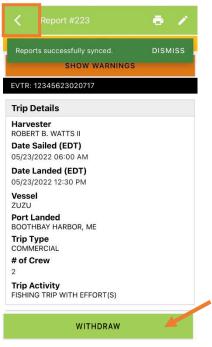

Updated 2/13/23

EE. Click "SUBMIT" at the bottom of the screen. You will receive the following error message*. Click "YES." The report will upload immediately if you are connected to the internet/have cell service, or it will save to your phone until you are connected to the internet/regain cell service and go back into the application. If you are not connected to the internet when completing your report, you will need to open the program when reconnected to the internet/regain cell service to automatically submit any unsent reports.

*The error message refers to the following warning: By submitting I certify that the vessel trip information I am providing is true, complete, and correct to the best of my knowledge

FF. Once the report is submitted, click on the back arrow in the upper left corner and you will return to the home screen. You will see "WITHDRAW" at the bottom of the screen. You should only click this if you realized you made a mistake on the report and need to make changes.

TIPS FOR CREATING A POSITIVE REPORT USING THE VESL HARVESTER APPLICATION

Frequent selections:

After your first submission, the program remembers your frequently selected gear types, species, catch disposition and Port landed. These selections float to the top of the list to make it easier to report.
