CREATING A POSITIVE REPORT USING THE VESL HARVESTER APPLICATION

The ME DMR VESL Harvester Application uses a dynamic form, which means the fields you are required to fill out are dependent on the gear you select. Only the fields you are required to report will be displayed.

- 1. After you have logged into (or opened) the application you are presented with three options:
- A. "FIND REPORT" allows you to search on previously created reports.
- B. "CREATE REPORT" opens the applications reporting screen.
- C. "CREATE DID NOT FISH" will bring you to the VESL website (requires active internet connection) to create and submit your "did not fish" reports.

- 2. Creating a Report
- A. After you click on "CREATE REPORT" (in Step 1b above) you will arrive at this screen. Click on "Harvester." Click the drop-down arrow, then click on your name when it pops up.
