6. Once you are done with the effort information, you will add catch information. If there is no catch associated with the trip, click “No Catch Associated with this Trip.” If you choose this option, you will then be able to submit your report (see step #10).

Clicking this will remove all catch data entered so far.

7. Below, you will see the “Species Information” and “Catch Information” sections. For the “Species Information” section, you’ll select urchin quantity harvested, and for the “Catch Information” section you’ll select what you did with the urchins.

Attention! If you utilize DMR’s Flexible Harvest Option to carry over product (i.e. CARRED totes) until a sale occurs, follow guidance in 7b.

- a. If you sell your urchins the **same day** you went fishing, follow the guidance below choosing “Trip” for catch source.

If you are selling on a different date than this report is for, choose 'CARRED' for catch source

*For another example of how to report when storing catch in totes over several days and selling later please see the appendix at the bottom of this document or click [here](#)

8. Once you're done entering your data, you'll select whether you want to "Submit this report only," "Submit this report and create another positive report," or "Submit this report and create another negative report." Make sure to click the "Submit" button.

- **Submit this report only**- submits the landings data you entered for the specific license and date chosen
- **Submit this report and create another positive report** - submits the landings data you entered for the specific license and date chosen and you'll receive a pop-up box giving you the option to submit another report for the same license or pick another license
- **Submit this report and create another negative report** - submits the landings data you entered for the specific license and date chosen and files negative reports for any other licenses you may have that require reporting

10. Appendix:

Example: George has an urchin license. He fishes several days a week and holds his catch until he sells at the end of the week. Here is an example of what George should report in Maine LEEDS:

George goes fishing Monday, Tuesday, and Wednesday and carries catch in totes until he sells to the dealer on Thursday. At the dealer, he sells a total of 90 pounds. According to DMR rules he fished Monday, Tuesday, and Wednesday, so he needs to submit a trip report for each day he went out. He is not sure exactly how much he landed each day, but he estimates he landed about the same amount each time. Here is an example of what the catch section of his reports will look like:

Monday:

George estimates he landed 30 pounds and carries to sell later in the week:

Thursday:

George goes to the dealer and sells everything he caught this week. The total pounds caught from the 3 days is 90 pounds (30+30+30) which matches the dealer records. Putting "Carred" under catch source on the individual trip reports indicates to DMR that the urchins were not sold on this day, rather stored and sold later. No report is required for the sale on Thursday. *For additional questions or clarifications please contact the DMR landings program at 207-633-9414 or email us at landings.DMR@maine.gov.*
