Lease applicant
Riparian (shorefront) landowners within 1,000 ft. of proposed aquaculture lease site
ME IF&W, and DACF
GovDelivery

From: Department of Marine Resources (DMR) Aquaculture Division

Re: Notice of Completed Application

The DMR has received completed standard lease applications for the following:

| |
|--|
| <p>Applicant Name: Keith Miller & Ryan Miller Application Type: Two standard applications Culture Type: Suspended Culture of Marine algae Application I: Location: Rackliff Bay, Penobscot Bay, St. George Acreage and Term Requested: 11.1 Acres for 20 years Application II: Location: Wheeler Bay, Penobscot Bay, St. George Acreage and Term Requested: 12.8 Acres for 20 years</p> |
|--|

The next step in the review process is required site visits. DMR scientists will visit the proposed lease sites and assess the areas in consideration of applicable lease decision criteria. After the site reviews are complete, site reports will be published and posted to DMR's website. Public hearings will then be scheduled. Public hearings are an opportunity for members of the public to provide testimony and evidence about the proposals as they relate to the criteria DMR must legally consider in evaluating standard leases. At this juncture, DMR is unable to estimate when public hearings will be scheduled but notice of the proceedings will be provided in accordance with applicable law.

To view a copy of the completed applications, please visit DMR's Aquaculture webpage. Applications are available under 'Maine Aquaculture Leases and LPAs.'

Questions concerning this notice may be directed to the Aquaculture Division at (207) 350-7815 or DMRaquaculture@maine.gov.
