## STANDARD LEASE APPLICATION: NON-DISCHARGE

## 1. APPLICANT CONTACT INFORMATION

| Applicant | Clam Hunter Seafood, Inc. |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| ( Contact Person(s) | Terry Watson and Sally Atwater |  |  |  |  |
| Address | 106 Clifford Road |  |  |  |  |
| (it) | Phippsburg |  |  |  |  |
| State, Zip | Maine, 04562 |  |  |  |  |
| County | Sagadahoc |  |  |  |  |
| Telephone | (207) 751-2426 |  |  |  |  |
| Email | clamhunt@comcast.net |  |  |  |  |
| Type of Application | Draft Application <br> [submitted before scoping session session] |  |  | Final Application [submitted after scoping session] |  |
| Dates | Pre-Application <br> Meeting: 12/21/21 | Draft Applicatio Submitted $4 / 2$ | $20 / 22$ | Scoping S | ession: |
| Payment Type | Draft Application: <br> Q Check (included) <br> Credit Card |  | Final Application:Check (included) Credit Card |  |  |

Note: The email address you list here will be the primary means by which we will contact you. Please provide an email address that is checked regularly. If you do not use email, please leave this blank.

## 2. PROPOSED LEASE SITE INFORMATION

| W..... Location of Proposed Lease Site. . . . . |  |
| :---: | :---: |
| W. Town ${ }_{\text {W }}$. | Phippsburg |
| Waterbody | Mill Pond |
| General Description (e.g south of B Island) | West of Parker Head, Kennebec River |
|  |  |
| Tolal acreage requested (100-acre maximum) | 0.96 acre |
| Lease term requested (20-year maximum) | 20 years |
| Type of culture (check all that apply) | Bottom (no gear) <br> Suspended (gear in the water and/or on the bottom) |
| Is any portion of the proposed lease site above mean low water? | $\square$ Yes $\triangle$ No |

Note: If you selected yes, you need to complete the steps outlined in the section titled: " 19 . Landowner/Municipal Permission Requirements".

## 3. GROWING AREA DESIGNATION

Directions: Information for growing area designations can be found here:
https://www-maine.gov/dmr/shellfish-sanitation-management/closures/index.html

Note: If you are proposing to grow molluscan shellfish in waters classified as auything other than open/approved, you will need to contact the Bureau of Public Health to discuss your plans at the following email: DMRPublicHealthDiv@maine.gov

## 4. SPECIES INFORMATION

A. Please complete the table below and add additional rows as needed.

| Name of species to be cultivated (include both common and scientific names): | Name and address of the source of seed stock or juveniles | Maximun number (or biomass) of organisms you anticipate on the site at any given time |
| :---: | :---: | :---: |
| 1. Eastern oyster, Crassostrea virginica | Muscongus Bay Aquaculture <br> 24 Seal Ledge Lane Bremen, ME 04551 <br> Mook Sea Farm <br> 321 State Rte. 129 <br> Walpole, ME 04573 <br> Downeast Research Institute <br> 39 Wildflower Lane <br> Beals, ME 04611 | 1,000,000 |
| 2. Quahogs, <br> Mercenaria mercenaria | Muscongus Bay Aquaculture 24 Seal Ledge Lane Bremen, ME 04551 <br> Downeast Institute 39 Wildfiower Lane Beals, ME 04611 | 1,000,000 |

B. Do you intend to possess, tansport, or sell whole or roe-on scallops? $\lfloor 1$ Yes . No

If you answered "yes" please contact the Bureau of Public Health to discuss your plans at the following email: DMRPublicHealthDiv@maine.gov

Note: If you are proposing to grow molluscan shellfish, this application also serves as your written operational plan as required in the National Shellfish Sanitation Program (NSSP) Model Ordinance Chapter 2 and must be maintained in your files. If you wish to submit an operational plan separate from this application, please contact: DMRPublicHealthDiv@maine.gov

## 5. VICINITY MAP

Note: Please label as: 'Vicinity Map'.
Directions: Using a NOAA Chart or USGS topographic map, show the area within a minimum of one-half mile of the proposed lease site.

The map needs to display the following:

- The waters, shore lands, and lines of mean high and mean low water within the general area of the lease
- An arrow indicating true north
- A scale bar
- The approximate lease boundaries

## 6. BOUNDARY DRAW ING

Note: Pleaselabel as. Bounday, Drawing:
Directions: Depict the boundaries of the proposed lease site Provide a drawing with all corners, directions, and distances labeled Provide coordinates for each corner as follows.
\% Coordinate Description Provide geographic coordinates for each corner of the lease site in latitude and longitude as accurately as possible (e, g, to the nearest second or fraction of a second). Identify the datum from the map, chart of GPS unit used to develop these coordinates. The datim will be shown on the map or chall you are using, The Coordinate Description may be provided separately from the Bounday Draming.

See attached "Boundary Drawing." All datum is NAD83/WGS84. Coordinate description included below.

## 7. SITE DEVELOPMENT

Directions: If your operations require the use of cages, nets, ropes, trays, or any object (structure) other than the organism to be grown directly on the bottom or buoys to mark the corners of the lease site, you must submit gear drawings and maximum structure schematics (information below). This section is intended to provide accurate plans depicting the physical structures to be placed in the proposed area. All dimensions need to be labeled with the appropriate units (i.e. $10 \mathrm{ft}, 10 \mathrm{in}$ ). If you are proposing a bottom lease (no gear), please skip to question "F. Marking".

Note: You may embed the schematics within the document or attach them to the end of your application. If you attach the schematics, please label them according to the instructions provided below.

## A. Gear Information

Directions: Include a drawing of an individual piece of gear for each of the gear types) you plan to use. Include units referenced (ie. $10 \mathrm{in}, 10 \mathrm{ft}$, etc.).

1. Gear Drawing: Please include the following for each gear type that will hold organisms to be cultured (e.g. polar circles, marine algae longlines, oyster cages) and label as "Gear Drawing". This view must show the following:

- Length, width, and height of each gear type.

2. Gear Table: List and describe each individual gear type that you will use in the table below. (e.g. polar circles, marine algae longline, oyster cages, moorings, mooring lines, buoys, etc.).

## B. Maximum Structure and Mooring System Schematic

Directions: Include drawings of your maximum gear layout. Include units referenced (ie. $10 \mathrm{in}, 10 \mathrm{ft}$, etc.).

1. Overhead View. Please include the following and label as "Overhead View":

- Maximum layout of gear, including moorings.
- Length and width of project.
- Approximate spacing between gear.
- Lease boundaries and the location of proposed comer markers and any additional gear markers that would be present.

2. Cross-Section View. Please include the following and label as "Cross-Section View":

- The sea bottom.
- Profile of gear in cross-section as it will be deployed.
- Label gear with dimensions and materials.
- Show mooring gear with mooring type, scope, hardware, and line type and size.
- Depth of gear in relation to the water's surface at mean low water and mean high water (if applicable).
Note: Please include an additional Cross Section View, depicting the elements listed above, if there will be seasonal changes to gear layout (i.e. over wintering).

## C. On-Site Support Structures

1. Describe structures such as barges, sheds, etc, to be located on-site Provide a schematic and indicate the dimensions, including height above sea level, materials, etc.
N/A-- No structures will be located on the proposed lease site.
2. Describe the storage and use of oi, gasoline, or other hazardous matenals on site. If petroleum products are to be stored on site, provide a spill prevention plan.
N/A-No oil, gasoline, or other hazardous materials will be stored on the proposed lease site.

## D. Gear Color

Provide the color of the gear and strictires proposed to be used at the lease site.
Floating bags, bottom bags, and oyster cages are black. Lobster buoys will be yellow. Toggles will be zellow.

## E. Equinment Lavout

Provide schematic or photographic renderings of the generalized layout of the equipment as depicted from two vantage points on the water. Provide the locations of the two vantage points.

See attached document titled "Equipment Layout."

## F. Marking

Will you be able to mark your site in accordance with DMR regulations, Chapter $280 \%$ In part, this requires marker bueys which clearly display the lease ID and the words SEA FARM to be located at each comer of the lease.

## $\triangle$ Yes $\square$ No

If you answered no, explain why and suggest altemate markings.

Note: If a lease is granted, you will also be required to mark the site in accordance with appropriate US Coast Guard Regulations. If you have questions about US Coast Guard Regulations contact: $1^{\text {st }}$ Coast Guard District, Aids to Navigation Office ((617)-223-3293).

## 8. PRODUCTION ACTIVITIES

Directions: If you are cultivating more than one species, you will need to provide the following information for each species. Please attach additional pages if needed.
A. Please explain your proposed seeding activities. What months will seeding occur and how often will you be onsite to seed during this time.

Oysters: Seeding activities involve placing small seed into floating bags and oyster cages, which occurs in April-August depending on availability from hatcheries. Seeding may occur up to 7 days/week, 6 hours/day, and 21 days/year.

Quahogs: Seeding activities involve placing small seed into floating bags and oyster cages, which occurs in April-August depending on availability from hatcheries. Seeding may occur up to 7 days/week, 6 hours/day, and 21 days/year.
B. Please explain your proposed tending/maintenance activities:

Oysters: Tending/maintenance activities include checking lines and anchors, flipping bags and cages, removing biofouling, and sorting and grading product.

Quahogs: Tending/maintenance activities include checking lines and anchors, flipping bags and cages, removing biofouling, and sorting and grading product.
C. How frequently will you visit the site for routine tending/maintenance (ie flipping cages, etc)?

Oysters: Tending/maintenance activities occur year-round. Tending/maintenance activities may occur up to 7 days/week, 6 hours/day, and 200 days/year.

Quahogs: Tending/maintenance activities occur year-round. Tending/maintenance activities may occur up to 7 days/week, 6 hours/day, and 200 days/year.
D. Describe the harvesting techniques you will use If you plan on using a drag, please provide the dimensions.

Oysters: Harvest techniques include removing product from bags,

Quahogs: Harvest techniques include removing product from bags,

## I. How often will you be at the site during harvesting periods?

Oysters: Harvesting activities may occur up to 7 days/week, 6 hours/day, and 150 days/year.
Quahogs: Harvesting activities may occur up to 7 days/week, 6 hours/day, and 150 days/year.

## F. Will gear be on the site year-round? X Yes $\square$ No

G. Describe any overwintering or "Off season" plans for the site. For example, will you remove gear from the site and/or deploy gear in different areas within the proposed site? Please include where gear or product will be located if removed from the site.

Oysters: Floating bags may remain in the water year-round; however, some oysters may stay in bags with floats removed and gunk to bottom Any floating bags removed from the site will be stored on private property. If a second standard lease site is approved in Spirit Pond, we may move oysters from that lease site into bottom bags at this location for the winter.

Quahogs: Floating bags may remain in the water year-round; however, some Quahogsmay stay in bags with flats removed, and sunk to bottom. Any floating bags removed from the site will be stored on private property. If a second standard lease site is approved in Spirit Pond, we may move oysters from that lease site into bottom bags at this location for the winter.
11. Please provide details on any predator control techniques you plan to employ

We may deploy up to (20) green crab traps within the boundaries of the proposed lease site.

1. Suspended culture gear can attract birds that roost on the gear and defecate, potentially creating a pollution source impacting shellifish held within the gear. In order to comply with the National Shellish Samitation Prooram (SSSP) Model Ordinance (MO), DMR is requining that applications for the suspended culture of shellfish include a description of mitigation of deterrent measures to minimize the potental pollution impacts of birds at the proposed site If appropiate, include sketches or photos that clearly depict those measures put into practice.

## Examples may include

- Submerging suspended gear and asseciated product at a depth sufficient to deter roosing for two weeks before haryest
$\bullet$ Attaching physical deterrents (i.e.zip ties) to gear
- The site is proposed for the culture of seed only
${ }^{6}$ The site is proposed for the culture of adductor only scallops (i.e. to other shellifsh species would be grown on the site)
- Proposed gear would always be suspended below the surface of the water at a depth sufficient to deter roosting (i.e as is common for scallop lantern nets)

In order to deter birds from roosting on floating bags and oyster cages, we plan to attach physical deterrents in the form of zip ties onto gear.

## 9. NOISE AND LIGHT

Directions: If a question does not pertain to your proposed operations, please write "not applicable" or "N/A".
A. What type of boats will be used on the site? When and how often will these vessels be on the site?

We plan to use up to (2) skiffs ( $<18^{\prime}$ ) equipped with oars, 3 HP electric motor, and/or up to a 25 HP motor. The skiffs may be on site up to 7 days a week, 6 hours/day, 250 days/year.
B. What type of powered equipment (e.g generator, power washer, srading equipment, barges, etc) will be used on the site? When and how often will the equipment be used?

No power equipment, aside from the aforementioned boat motors, will be used on the site.
C. Specify how you intend to reduce noise levels from the boats and other powered equipment.

We intend to reduce noise levels from the boat by using a small, electric motor in addition to rowing the skiff. The 25 HP motor (or less) is consistent with other maritime uses in Phippsburg, plus we would likely go slow when leaving and returning to the shore and operate during daylight hours.
D. Provide the number, type (whether fix cures are shielded), wattage and location of lights, other than those used for navigation or marking, that will be used at the proposed lease site
We do not propose the use of lights at this proposed lease site.
E. Indicate under what circumstances you might work at your site beyond daylight hours

We do not intend to work beyond daylight hours.

## 10. CURRENT OPERATIONS

Directions: If a question does not pertain to your proposed operations, please write "not applicable" or "N/A".
A. Describe your existing aquaculture operation, ind lading the acronyms of all active leases andlor licenses.
We have been growing oysters in Phippsburg on LPAs and one experimental lease (MOR SPA, CWAT 117, CWAT 317, SATW117, SATW317).
B. What are your plans for any existing leases and or Limiled Pumpose Aquaculture (IPA) licenses if the lease is granted? Will any existing leases and/or I PA licenses be relinquished it the lease is granted If so p pease indicate which ones:

If this lease were to be granted, we would relinquish SATW117 and SATW317 which are located within the boundaries of this proposed lease

## 11. ENVIRONMENTAL CHARACTERIZATION

Directions: Using your knowledge of the area, describe the environment of the proposed lease site. Be sure to include units of measurement in your answers (i.e. feet, $\mathrm{cm} / \mathrm{s}$ ).
A. What ae the approximate depths at mean low water?

The approximate depth at mean low water is 4 to 6 feet.
B. What are the approximate depths at mean high water?

The approximate depth at mean high water is 12 to 20 feet.
C. Provide the approximate current speed and direction during the ebb and flow:

The approximate current speed is $1-2$ knots and the direction during the ebb is south and flow is north.
D. The following questions ( $D$ i fireugh $D$ ) may be answered in witing or by sumiting a video If you plan to submita video, please contact the Department prior to video collection.

1. What are the botton characteristics (nud, sand gravel, rock, ledge or some mix, etc)?

The bottom characteristic is sand.

## 2. Describe the bottom topography (flat, steep rough, etc.)

The bottom topography is flat.
3. Describe marine organisms by species or common names. Based on your personal observations or other sources of information, are these species abundant, common, or rare?
Green crabs (common), hermit crabs (common), and shrimp (rare).
4. Are there shellfish beds or fish migration routes in the surrounding area? If so please describe.
Yes, shellfish may be located in the intertidal areas approximately $200^{\prime}$ west, $400^{\prime}$ north, and $50^{\prime}$ east of the proposed lease site, but have not been observed within the proposed lease boundaries.
5. Describe the presence and extent of submerged aquatic vegetation, $1 . e$ eelgrass, within the proposed lease area. Please include the date of this observation along with the method of observation If submerged aquatic vegetation is observed, please also describe the abundance below and sketch the limits of the beds in the vicinity map. No eelgrass has been observed within the proposed lease area and we have been observing this area all months for several years, in addition to being familiar with this area for decades.
6. Describe the general shoreline and upland charactenstics (rocky, shoreline, forested, residential, etc)
The shoreline is rocky with a mix of forest and residential.
E. Is your proposed leaselocated within a Maine Department of Inland Fisheries and Wildlife designated Essential Habitat?
$\square$ Yes $\triangle \mathrm{No}$

Note. The location of Essential Habitats in the State of Maine, along with information on how projects within these areas are reviewed, can be found here: https://www.maine.gov/ifw/fish-wildlife/wildlife/endangered-threatened-species/essential-wildlife-habitat/index.html

If a project is located within an Essential Habitat, applicants are strongly encouraged to contact the MDIFW Environmental Review Coordinator (John.Perry@maine.gov, phone: 207-287-5254) prior to application submission.

## 12. EXISTNG USES

A. Describe the existing uses of the proposed area in questions A. 1 through $A .5$ below.

Please include the a) type b) time of year c) frequency and d) proximity to the lease site for each existing use:

1. Commercial Fishing

Aquaculture-We currently operate on LPAs $\quad$ within the proposed boundaries of the lease site year-round (excetwhen icing conditions occur) on a regular basis.

## 2. Recreational fishing

Striper fishing has been observed in the Spring-Fall, largely outside but nearby boundaries of the proposed lease site (within 500').
3. Boating Activities (please also include the distance to any navigable channels) from your proposed site at low water)
Due to shallow depth and presence of an old mill dam, the area does not have a navigable channel. Kayaks and canoes, as well as some small skiffs for recreational fishing have been observed, most often at high tide.
4. Ingress and egress (ie coming and going) of shorefron property owners within 1,000 feet of the proposal (eg docks, moonngs, landing boats on shore, ceto)
We have observed one old float on the east shore (approximately 400' east of lease boundary) and one float on the west shore that is regularly put in from spring through fall (approximately $250^{\prime}$ west of lease).

## 5. Other uses (kayaking, swimming, etc)

Kayaking and canoeing have been observed occasionally in the summer months nearby (within 100 feet) and along and outside of the proposed lease boundaries.
B. Are there private docks, moorings, or other access points within 1,000 feet of the proposed lease? If yes, please include approximate distance from the proposed lease

No, there are no private docks, moorings, or other access point observed within 1,000 feet of the proposed lease site.
C. Are there public beaches, parks, docking facilities or federally, state, or municipally conserved lands within 1,000 feet of the proposed lease site? If yes, please describe and include approximate distances from proposed lease

No, there are no private docks, moorings, or other access points within 1,000 feet of the proposed lease site.
D. Are there any Limited Puppose Aquaculture ( IPA) licenses or aquaculture leases within 1,000 feet of your proposed lease site? If yes, please list theil acronyms below
Current and pending aquaculure leases and active IP A licenses may be found here hiltps /lwwwimane:gov/dimitaquaculturelleases index himi

Yes, SATW117 and SATW317 are located within the boundaries of the proposed lease site.

## 13. EXCLUSTVE USE

If your lease is granted, what activities would you request be excluded from occuring within the boundaries of the lease site? In your answer please address applicable. commercial and recreational fishing, boating activities, and other activities you listed in the 'Existing Uses' section of this application.

All existing activities would be permitted to continue if this lease were granted, including recreational fishing, boating, kayaking, and canoeing. Shellfish harvesting (aside from our own harvest activities) would be excluded from occurring within the boundaries of the lease site.

## 14. RIPARIAN LANDOWNERS AND SITE ACCESS

A. If your lease is within $1,000 \mathrm{ft}$ of shorefront land (which extends to mean low water or $1,650 \mathrm{ft}$. from shore, whichever is less, according to NOAA charts), the following supporting documents are required:

1. A labeled copy of a tax map (s) depicting the location of the proposed lease site and including the following elements:

- Label the map "Tax Map: Town of (name of town)."
- Legible scale
- Tax lot numbers clearly displayed
- The boundaries of the proposed lease

2. Please use the Riparian Landowner List (included on the next page) to list the name and address of every shorefront landowner within $1,000 \mathrm{ft}$ of the proposed lease site. Have the tax collector or clerk of the municipality certify the list. Refer to the riparian determination guidance document to ensure all riparian landowners are included: https://www.maine.gov/dmr/aquaculture/forms/documents/RiparianDetermination.pdf

Note: When the application and riparian list are both ready to be submitted, you may choose to email a copy of the riparian list and proposed lease coordinates to DMRAquaculture@maine.gov for staff to verify that all required parcels are included on the list before having it certified by the municipality. DMR will not verify a riparian list multiple times, so please ensure there will be no additional changes to the application before emailing the riparian list for verification.
3. If any portion of the site is intertidal, you need to complete the steps outlined in the section titled: "19. Landowner/Municipal Permission Requirements".
B. Will your access to the lease area be across riparian land?

Note: If you selected yes, you will need to complete the landowner permission requirements included in "19. Landowner/Municipal Permission Requirements" of this application.
C. How will you access the proposed site?

We will access the site through town-owned public property used for water access.
D. How will your proposed activities affect riparian ingress and egress?

Proposed activities will not affect riparian ingress and egress.

## 15. TECHNICAL CAPABILTTY

Proyide information regarding professional expertise. Altaching resume or documentation of practical experience necessary to accomplish the proposed project would satisfy this
requirement.
We have been working in the Maine shellfish industry for 47 year and growing oyster for 5 years.

## 16. FINANCIAL CAPABLLTY

## A. Financial Capability

Please provide documentation to show you have the financial resources to implement the proposal. For example, you may submit a letter from a financial institution or funding agency indicating that you have an acceuntin good standing, or their willingness to commit funds.

Note: Any financial information you subnit withyour application is part of the public record. Please exercise discretion when submitting financial information.

See attached letter from a financial institution.

## B. Cost Estimates

Please provide cost estimates of the proposed aguaculture activities
We estimate that the cost for proposed aquaculture activities is approximately $\$ 25,000-\$ 35,000$.

## 17. ESCROW ACCOUNT OR PERFORMANCE BOND

Check the category that describes your operation:

| Check <br> Here | Lease Category | Amount of Required Escrow <br> or Performance Bond |
| :---: | :--- | :---: |
| $\square$ | No year/structure, no discharge | $\$ 500.00$ |
| $\square$ | No gear/structure, discharge | $\$ 500.00$ |
| $\square$ | $\leq 400$ square feet of gear/structure, no <br> discharge | $\$ 1,500.00$ |
| $\square$ | $>400$ square feet of gear/structure, no <br> discharge | $\$ 5,000.00^{*}$ |
| $\square$ | Gear/Structure, discharge | $\$ 25,000.00$ |

*DMR may increase the bond/escrow requirements for leases with more than 2,000 square feet of structure.

I, (printed name of applicant) $\qquad$ Clam Hunter Seafood Regulations Chapter $2.64(10)(\mathrm{D})$ add if this proposed lease is granted by DMR, I will either open an escrow account or obtain a performance bond, in the amount determined by the lease category.

Applicant Signature
Note: Ado title if signing on behalf of a corporate applicant.

ADDITIONAL APPLICANTS: Each applicant must sign this section indicating that they will open an escrow account or obtain a performance bond. Use the space below for additional persons listed on the application. You may attach additional pages, if necessary.

I, (printed name of applicant) $\qquad$ have read DMR Aquaculture Regulations Chapter 2.64(10)(D) and if this proposed lease is granted by DMR, I will either open an escrow account or obtain a performance bond, in the amount determined by the lease category.

## Applicant Signature

## Date

Note: Add title if signing on behalf of a corporate applicant.

## 18. APPLICANT SIGNATURE PAGE

I hereby state that the information included in this application is true and correct. I have also read and understand the requirements of the Department's rules governing aquaculture and the application instructions pertaining to the standard lease process.

Printed name:

Title (if corporate applicant):

18 U.S.C. Section 1001 provides that: Whoever, in any manner within the jurisdiction of any department or agency of the United States knowingly and willfully falsifies, conceals, or covers up any trick, scheme, or disguises a material fact or makes any false, fictitious or fraudulent statements or representations or makes or uses any false writing or document knowing same to contain any false, fictitious or fraudulent statements or entry, shall be fined not more than $\$ 10,000$ or imprisoned not more than five years or both.

Note:

- All applicants must sign and date this page. Please use the space below, if additional signatures are required.
- Corporate applicants, please be sure to include the titles) (i.e. President, Treasurer, etc.) of the individuals) signing on the company's behalf.

## Additional Applicant:

Printed name: $\qquad$

Title (if corporate applicant): $\qquad$

Signature: $\qquad$ Date: $\qquad$

## 19. LANDOWNER/MUNCTPAL PERMISSION REQUIREMENTS (if applicable)

Directions: If any portion of the site is intertidal, you need to complete the steps outlined below.

## Step I: Obtain written permission from all intertidal landowners.

Pursuant to DMR Regulations Chapter $2.10(3)(\mathrm{G})$ the Department requires written permission of every owner of intertidal land in, on, or over which the activity will occur. It is your responsibility to obtain written permission and include it with your application materials. Please note that the Department does not provide forms for landowner permission.

Step I: Determine if the municipality where your site is located has a shellfish conservation program.

Pursuant to 12 NRSA $\S 6072(3)$ In amy municipality with a shellfish comsemotion program under section 6671, the Commissioner meny not lease areas in the intertidal zone within the munticipality without the comsent of the municipal officers.

If the municipality where the proposed lease site is located has a shellfish conservation program, it is your respensibility to obtain consent for the proposed lease site from the municipal officers (i.e. the selectmen or councilors of the town, or the mayor and aldermen or councilors of a city.) Consent means a majority vote of the municipal officers as recorded in a public meeting.

It is your responsibility to contact the municipality and determine if they have-shellfish censervation program. Best practices would inelude discussing your plans with shellfish committee members, but only the consent of municipal officers is requifed.

Does the mumicipality, where the proposed site is losated, have a shellfist Conservation program? $-\mathrm{Yes} \square \mathrm{No}$

If you answered yes, please attach documentation from a public meeting demenstrating that a majority of municipal officers have consented to your proposal.

MAINE DEPARTMENT OF MARINE RESOURCES
Aquaculture Division, 21 State House Station, Augusta, ME 04333-0021 (207) 624-6567

## CORPORATE APPLICANT FORM

For Standard and Experimental Aquaculture Lease Applications
Corporations or partnerships that apply for aquaculture leases in the State of Maine must complete this form. Corporations must submit information as requested under A. Corporate Applicant. Partnerships must submit information as requested under B. Partnership Applicant.

## A. Corporate Applicant

Note: You must attach a copy of the Articles of Incorporation (Inc.) or Certificate of Formation (LLC) to your application.

1. Name of Corporation: Clam Hunter Seafood Inc $\qquad$
2. Date of incorporation: May $7^{\text {th }}, 2003$ State of incorporation: Maine $\qquad$
3. List the names, addresses, and titles of all officers:

| Name | Address | Title |
| :--- | :--- | :--- |
| Terry Watson | 106 Clifford Road <br> Phippsburg Maine 04562 | Incorporator <br> President |
| Sally Atwater | 106 Chord Road <br> Phippsburg maine 04562 | Treasurer |
|  |  |  |
|  |  |  |

## Please use additional sheets if necessary and attach to the application.

4. List the names and addresses of all directors/members:

| Name | Address |
| :--- | :--- |
| Ierifford Road |  |
| Terr watson | Phippsburg Maine 04562 |
| Sally Atwater | 106 Clifford Road |
| Phippsburg Maine 04562 |  |
|  |  |

Please use additional sheets if necessary and attach to the application.
5. Has the corporation, or any stockholder, director, or officer applied for an aquaculture lease for Maine lands in the past? $\quad$ Yyes $\square$ No

If you selected "yes," please indicate who applied for the lease and the status of the application or lease.

Terry Watson, granted experimental lease (MOR SPx)
6. List the names and addresses of all stockholders who own or control at least $5 \%$ of the outstanding stock and the percentage of outstanding stock currently owned or controlled by each stockholder.

| Name | Address | Percentage of <br> Owned Stock |
| :--- | :--- | :---: |
| Terry Watson | 106 Clifford Road <br> Phippsburg, Maine 04562 | $50 \%$ |
| Sally Atwater | 106 Clisord Road <br> Phippsburg maine 04562 | $50 \%$ |
|  |  |  |
|  |  |  |

## Please use additional sheets if necessary and attach to the application.

7. List the names and addresses of stockholders, directors, or officers owning an interest, either directly or beneficially, in any other Maine aquaculture leases, as well as the quantity of acreage from existing aquaculture leases attributed to each such person based on the percentage of owned stock listed in question 6. If none, write, "None."

| Name | Address | Lease <br> Acronym | Acreage |
