Lieutenant Troy Dow
ME IF&W and DACF
GovDelivery Aquaculture List

From: Department of Marine Resources (DMR) Aquaculture Division

Re: Notice of Completed Application

The DMR has received a completed standard lease application for the following:

Applicant	Robert & Cole Baines	
Culture Type	<input type="checkbox"/> Bottom culture (No gear)	<input checked="" type="checkbox"/> Suspended culture (Bottom and/or surface gear)
Species	<input type="checkbox"/> Shellfish	<input checked="" type="checkbox"/> Marine algae <input type="checkbox"/> Finfish <input type="checkbox"/> Other
Location, Waterbody, Town	East of Muscle Ridge Channel, West of Hewitt Island, South of Clam Ledges, Unorganized Territory, Knox County	
Lease Size and Term	7.33 Acres	20 Years

The next step in the review process is a required site visit. DMR scientists will visit the proposed lease site and assess the area in consideration of applicable lease decision criteria. After the site review is complete, a site report will be published and posted to DMR's website. A public hearing will then be scheduled. The public hearing is an opportunity for members of the public to provide testimony and evidence about the proposal as it relates to the criteria DMR must legally consider in evaluating a standard lease. At this juncture, DMR is unable to estimate when a public hearing will be scheduled but notice of the proceeding will be provided in accordance with applicable law.

To view a copy of the completed application, please visit:
