Note: Areas seeded with clams taken from Restricted areas **must** be closed for a period of 60 days, clams taken from Prohibited areas **must** be closed for a period of at least 6 months. This applies to any transplant listed above where 'Approved' is NOT checked.

A copy of the Transplant Activity Log has been attached along with the permit for the purpose of recording the activity.

This letter will serve as permission for the above activity provided that the listed Supervisor contacts, 24 hours before the start of the activity, the Municipal Shellfish Warden, the Marine Patrol Officer responsible for this area and the Marine Patrol Division I Office at 633-9595. You may call the Division I Office in advance to determine who will be the local officer on duty and obtain direct contact information.

If DMR can be of further assistance, please don't hesitate to contact me or your area biologist Ari Leach at 207-350-7061.

Sincerely,

A handwritten signature in black ink, appearing to read "Denis-Marc Nault". The signature is fluid and cursive, with the first name "Denis" being the most prominent.
