

Expanding CTE™ in Maine

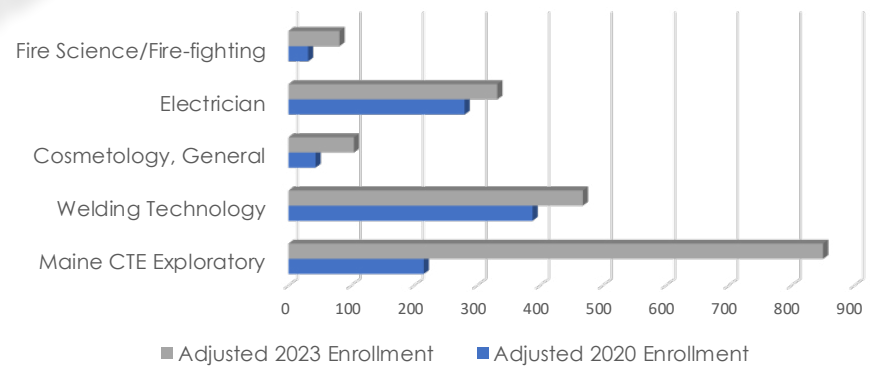

Career & Technical Education (CTE)

Student Enrollment SY 2019/20 - SY 2022/23*

Top 5 Programs by Growth Since SY 2020/21

Biggest growth has been in **Maine CTE Exploratory** programs that primarily serve freshmen and sophomores. These programs are designed to introduce students to multiple CTE programs on a small scale with the goal that they will gain interest and become more focused as a junior and senior.

Increased Funding for CTE

General Purpose Aid SY 2018/19 - SY 2022/23*

+

Increase of more than **\$6.2 Million** during the Mills administration.

\$1.6 Million

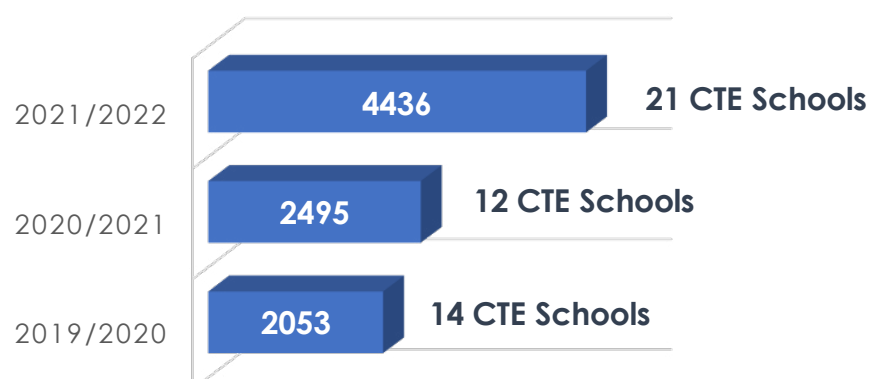

For school year 2022-2023 Governor Mills provided an additional \$1.6 Million to CTE schools to assist in the increase costs of supplies to support CTE programming.

**\$20 Million
MJRP Funding**

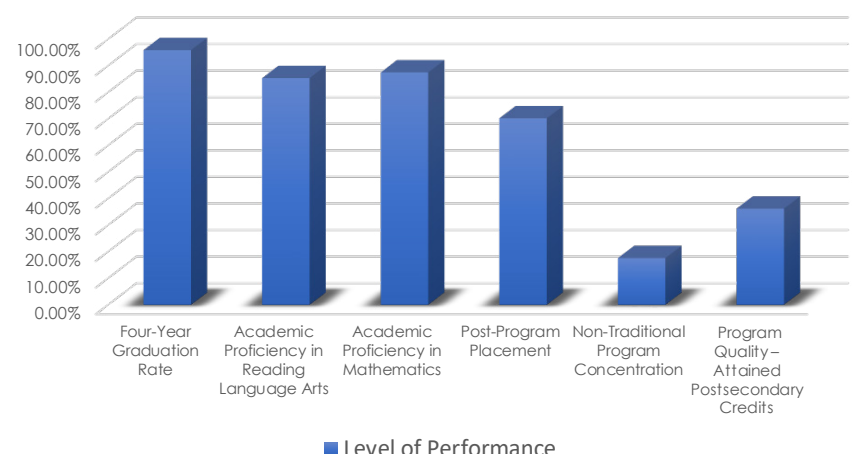

\$15 Million to CTE Schools for program, equipment and facility upgrades, allowing CTEs to expand hands-on, real-world programs for Maine students in plumbing, welding, electrical, building construction, and more!

\$4.5 Million to CTE Schools to purchase and upgrade equipment to enhance student learning experiences and career preparation for high-skilled, in-demand industries! Funds also support increased personnel to assist with growing programs, allowing more students than ever to participate in CTE programs!

Student Enrollment in Middle School Pilot Programs SY 2019/20 - SY 2021/22

Student Performance SY 2022/2023*

* School Year (SY) 2022/23 data is current as of February 2023
