

Session Title

Big Fish Selfies with PhotoPea.com

Presenters

Katelyn R. & Reegan S. (Nokomis)

Elevator Pitch

In this session you will learn how to amaze your parents, astound your friends, and probably impress your neighbor's dog with your very own selfie of you and a fish so big it needs to be seen to be believed! Sure, it may be 'shopped, but with the skills you'll learn, you can edit images any way you want. Here's your chance to select, filter and crop your pics in style.

Overview

In this session students will learn how to take photos and edit them with transparencies, filters, selection tools and more. The results will be high quality images with them in the final product. All students will leave with photos of themselves they can take with them to share.
