

While you are working, think about:

Are we effectively communicating our idea about the importance of pollinators?

What do we need to do to be ready for our presentation?

What do we want our audience to do or think after seeing our project?

While you are working, think about:

Discovery Studio

While you are working, think about:

How well does this hand pollinator work?

What information will someone need to understand when and why to use this hand pollinator?

What could we call it?
