### Let's Find Out About It:

"The raccoon in *Raccoon On His Own* and the girl in *Play With Me* saw their **reflections**. What do you notice?"

"They saw their **reflections** in water. Here are other images of reflections. What do you notice?"

"The water in this image is **still**-- not moving. The water in this image is moving. What do you notice?"

"You used a **mirror** to see your **reflection** when you made self portraits. How is this **reflection** in the **mirror** similar or different from a **reflection** in the water?"

"**Reflections** on a **smooth** surface, like **still** water and a **mirror**, are **clear**. A **reflection** on a **bumpy** or moving surface is **blurry**."
