Summary of Performance

This form is used to:

- Provide information and recommendations designed to assist the child after graduating or aging out.

Summary of Performance
Maine Unified Special Education Regulations (MUSER) V.3.1(2)(B)

Date Given to Child: Document date given - prior to SAU:
his/her exit from high school, by graduation date or exit date.

Child's Name: _____ School: _____

Date of Birth: _____ Grade: _____ School Phone: _____

Parent/Guardian Name: _____ School Address: _____

Parent/Guardian Address: _____ City, State Zip: _____

Parent/Guardian City, State Zip: _____ School Contact: _____

Suggested practice: notify the child of the age of majority that the SAU will continue to send paperwork to the parent/guardian unless the child directs the SAU to stop.

Purpose: The Summary of Performance (SOP) is required under the reauthorization of the Individuals with Disabilities Act (IDEA), 34 CFR 300.305(e)(3) and must be completed on this form and format. The SOP is important to assist the children graduating from high school to higher education, training and/or employment. The SOP is needed for children graduating with a standard diploma and for children who have exceeded the age of eligibility (age 20) for special education services.

These recommendations should not imply that any individual who qualified for special education in high school will automatically qualify for Section 504 services in a post-secondary education or employment setting. Post-secondary settings will continue to make eligibility decisions on a case-by-case basis when a child self identifies to a post-secondary institution.

This document is required under the reauthorization of IDEA (2004).

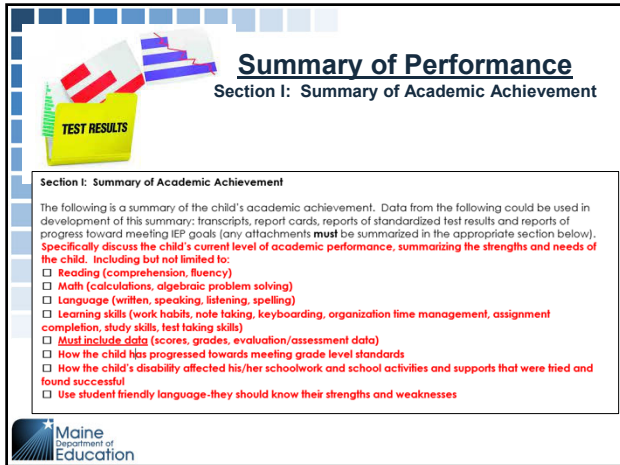

11

Summary of Performance

Directions:

- The Summary of Performance (SOP) must be completed during the final year of a child's high school education using the most current information available regarding the child's performance.
- The SOP should be written in a way that is useful to the child. It may be accompanied by documents useful in assisting the child with the transition from high school to a higher education, training, or employment setting.
- Statements should be positive and supportive of the child's post-secondary goals. This summary is an opportunity to describe ways in which the child positively impacted the high school environment.
- The summary should be written with the child's input/child inclusive practice. Review of this document with the child is suggested.

Section II: Summary of Functional Performance

Section II: Summary of Functional Performance

The following information is a summary of the child's functional performance, i.e., life/community access skills and vocational skills, essential accommodations/modifications and/or assistive technology that may have been utilized in accessing the high school environment.

Functional performance information is intended to help postsecondary institutions consider accommodations for access. Reference the accommodations and modifications that were beneficial to the child.

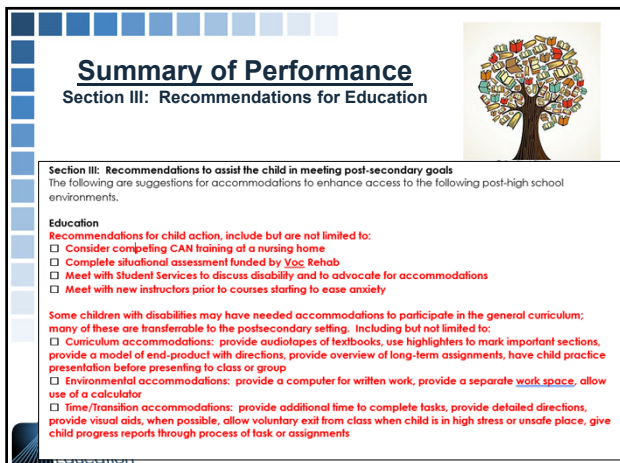

Use the present level of functional performance section of the IEP, including but not limited to:

- General ability to problem solve (reasoning and processing)
- Attention and executive functioning, memory, processing speed, impulse control, activity level
- Social work, counseling, speech, PT, and OT input
- Behavior: interaction with others, responsiveness to services
- Extra-curricular activities, confidence in activities
- Persistence in the learning environment
- Independent living skills, such as self-care level, leisure skills, personal safety, transportation and **money** skills
- Environmental access/mobility (assistive technology, mobility, transportation)
- Self-determination/self-advocacy (ability to respectfully identify needs and articulate goals)
- Career/employment (interests, experiences, exploration, aptitudes)

Section III: Recommendations for Education

Section III: Recommendations to assist the child in meeting post-secondary goals

The following are suggestions for accommodations to enhance access to the following post-high school environments.

Education

Recommendations for child action, include but are not limited to:

- Consider competing CAN training at a nursing home
- Complete situational assessment funded by Voc. Rehab
- Meet with Student Services to discuss disability and to advocate for accommodations
- Meet with new instructors prior to courses starting to ease anxiety

Some children with disabilities may have needed accommodations to participate in the general curriculum; many of these are transferable to the postsecondary setting. Including but not limited to:

- Curriculum accommodations: provide audiotapes of textbooks, use highlighters to mark important sections, provide a model of end-product with directions, provide overview of long-term assignments, have child practice presentation before presenting to class or group
- Environmental accommodations: provide a computer for written work, provide a separate **work space**, allow use of a calculator
- Time/Transition accommodations: provide additional time to complete tasks, provide detailed directions, provide visual aids, when possible, allow voluntary exit from class when child is in high stress or unsafe place, give child progress reports through process of task or assignments
