CHANGE

Describe CHANGE here:

(b.) Provide a detailed description of the results/effectiveness of the annual program self-evaluation in the academic areas and in the arts regardless of whether or not there has been a change in the program. *(Note: A summation statement on the effectiveness/success of the district's GT program in the academics as well as the arts will suffice.)*

The Gifted and Talented team conducted a self-study in the spring of 2018 of how we allocate and provide services in conjunction with examining the capacity of our team to deliver those services. Our process consisted of placing our responsibilities as identified in our district's program description, into one of four quadrants, high student impact/high time intensity, low student impact/high time intensity, high student impact/low time intensity, low student impact/low time intensity. Our goal was to take steps to more strongly support those services that result we believed had a high impact. Highlighted examples of these identified services included consulting with teachers about differentiated strategies to meet the

needs of G&T students, arranging for/planning enrichment activities, creating Individualized Learning Plans for students, teaching classes, and creating/developing a talent pool for G&T. We also learned that there are some aspects of the G&T Team's responsibilities that have little impact but take a lot of time. This year we hope to streamline some of these organizational processes so as to make more time for G&T Specialists to focus on the work that we found to have a high impact on student achievement.

The process for working with students identified as Gifted and Talented in the Arts follows a similar process as those identified with academic abilities. Our review of high/low impact and high/low frequency focused on generic responsibilities for GT Specialists. Additionally we did review the different identification processes towards students being considered for visual and performing arts. Through this review we discussed the role of the GT specialists in gathering and presenting screening criteria and facilitating identification meetings on a building and district level with cross-school teams. This is something that we will continue to explore in partnership with the arts teachers across our district.

(c.) Include how program effectiveness was determined, whether or not there has been a change in the program.

Our district GT Team was curious as to the impact of GT services on overall student achievement. Using the same criteria that we use to measure student achievement throughout the general population, we disaggregated NWEA data to evaluate whether or not students GT students made growth on the NWEA at a higher, similar or lower percentage than the general population.

Students at Conners-Emerson identified as Gifted and Talented outperformed the general population regarding how many students met their growth targets on the NWEA for grades 3-8. 90% of students identified as G&T reached their growth target in math in comparison to 71% of the total population. 70% of students identified as G&T reached their growth target in reading in comparison to 55% of the total population. We believe that this indicates that our program is effective and does not require any changes in services.

8. Provide a justification/description of the items included in the proposed budget in number 9.
(Please remember that materials/supplies are to be used for gifted and talented only and are not part of the regular education budget. Field trips must take place during the school day and are for identified students only)

Proposed budget is needed to carry out program.

1. Professional staff
2. Dues and fees for programs required for implementation of services for GT students (Math Forum, Math Olympiads, ALEKS, Scholastic Writing Contest)
3. Professional development for staff (including annual MEGAT conference)

9. For those school units requesting approval of *allowable program costs* for State subsidy, please complete the following budget information. Amounts budgeted for the SAUs Gifted and Talented Program must be reported in the NEO financial system as part of the Annual Budget Reporting.

NOTE: To be approved as an allowable cost for the current school year, all personnel listed below must be appropriately certified/endorsed by the application deadline of September 30.
