

# Student Behavior and Discipline Guidance

## Determining what incidents of violent and harmful behavior to report in Synergy

When incidents of violent and harmful behavior by or against students are investigated and appropriate discipline has been prescribed, it's then determined whether it is to be reported to the Maine Department of Education on the Student Discipline screen in Synergy (see [20-A MRSA §254, sub-§11](#)).

Reportable incidents will be interpreted relative to the SAU's adoption of its Student Code of Conduct and disciplinary policies (see [20-A MRSA §1001, sub-§15, and sub-§15-A](#)).

Please follow the Department's guidance to ensure that student behavior and discipline data are accurately reported.

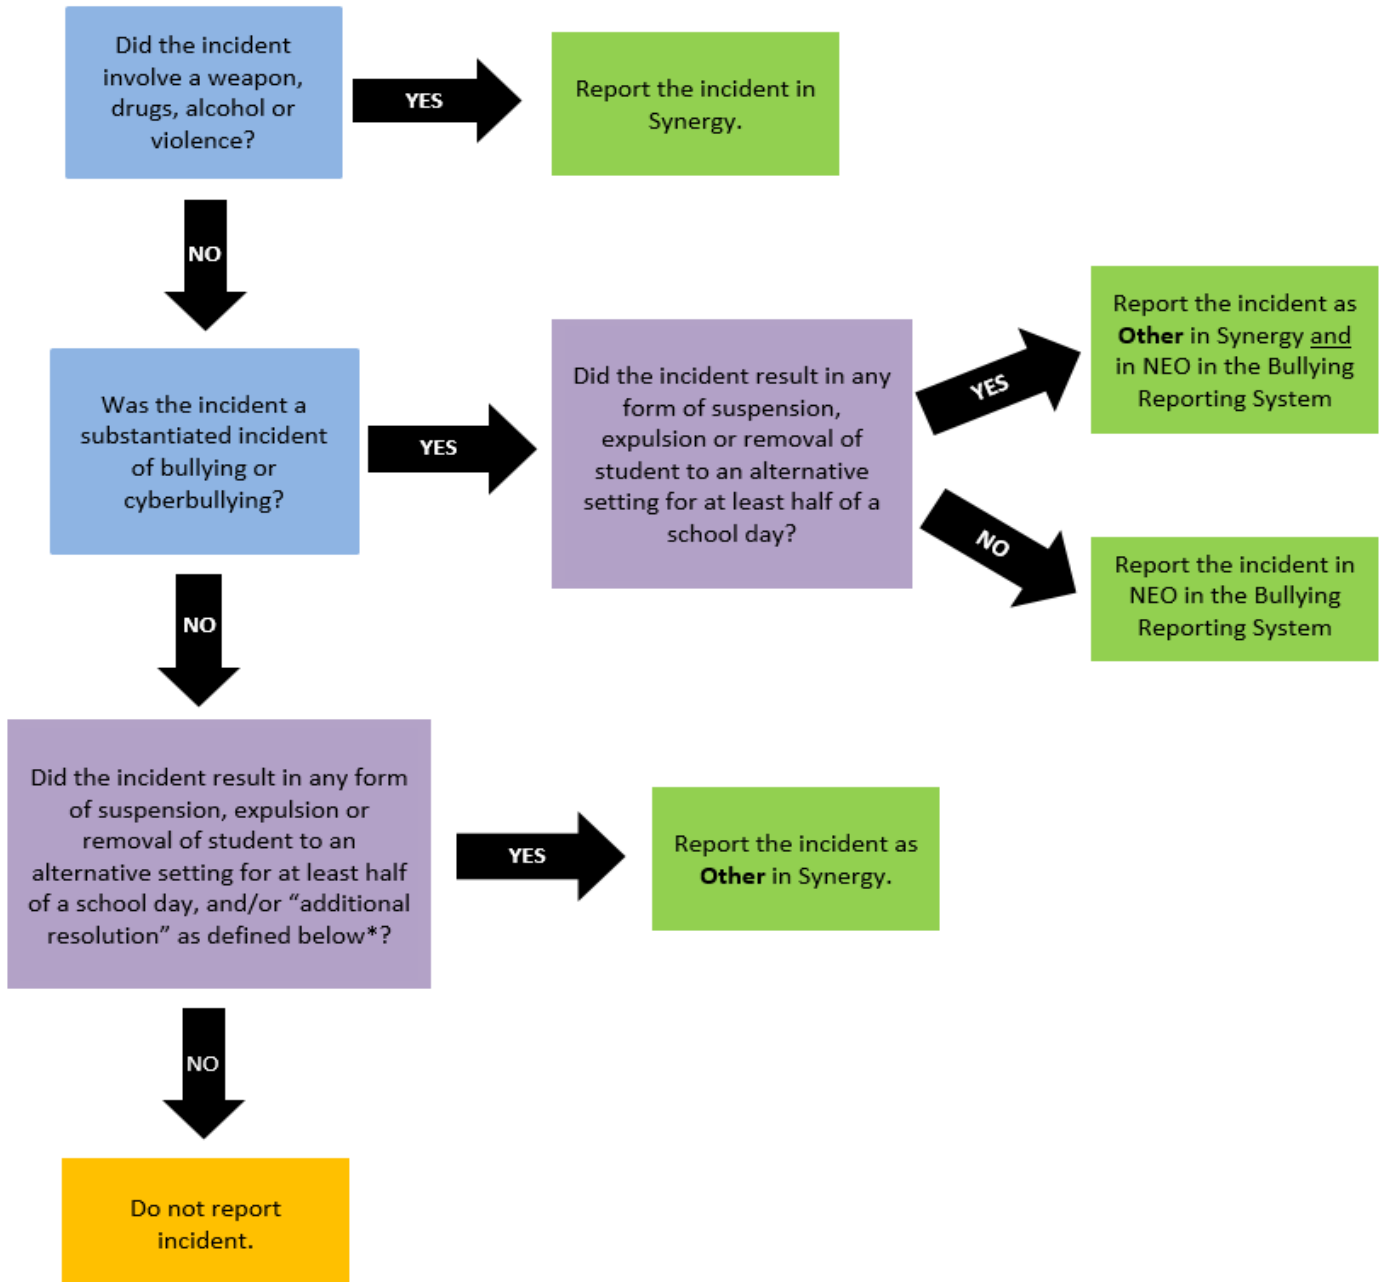

The data will identify student behavior that is disruptive to the peace and usefulness of the school as well as the instructional and environmental supports and school practices that are designed to strengthen relationships, improve the connection to school, promote a sense of accountability, and find opportunities to repair harm that has been caused through misbehavior. The Department will use this data in its efforts related to school improvement under the Every Student Succeeds Act.
