

## Clinic Guidance During Covid

Guidance has been developed for the administration of vaccines at pharmacies, temporary, off-site, or satellite clinics, and large-scale vaccine clinics.

PPE: Supplies and Materials

**During the COVID-19 pandemic, protection must be available for staff and students. Supplies required during the COVID-19 pandemic include:**

- Alcohol-based hand sanitizer with at least 60% alcohol and hand soap
- Cleaning supplies for more frequent cleanings, using [EPA's Registered Antimicrobial Products for Use Against Novel Coronavirus SARS-CoV-2external icon](#)
- [Cloth face coverings](#) for patients who arrive without one
- Personal protective equipment (PPE) for staff, including face masks, gloves, and eye protection, based on [current guidance for the safe delivery of vaccination services](#)
- Thermometers for checking patients' temperatures before they [enter the clinic](#), if required
- Tissues

Note that quantities may be more than was needed prior to the pandemic.
