

# Maine Department of Education Data Warehouse Dashboard

Maine DOE has created a series of data dashboards for SAU and school leaders that include student and staff data.

Use this QR Code to log-in.

If you haven't logged in before, please contact Brett Molin at [brett.molin@maine.gov](mailto:brett.molin@maine.gov) to get your account setup.

When you follow the link from the QR code you will see this login prompt:

If you have forgotten your password, please make use of the "Forgot your password" prompt at the bottom of the screen. You can also contact Brett Molin to have it reset.

Once logged in you will have two available- "organization," and "Student Counts." Clicking on either will expand the menus to the available selections. As you explore the different available dashboards you will find a wide range of data to help support your decision making.

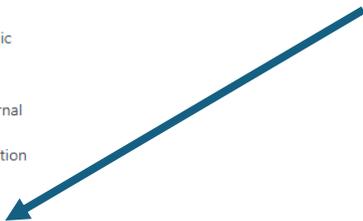

- > Organizations
- > Student Counts

- Student Counts
  - Combined Graduation Report - Internal
  - ML By Language - Internal
  - ML By Language - Public
  - Public Funded Student Counts
  - Special Education Information - Public
  - Special Education Information - Internal
  - Combined Graduation Report - Public
  - Canned Reports
  - Chronic Absenteeism

Note that these reports will show you your own SAU and/or school's data as well as state level data.

The dashboard being demonstrated today is named the "Canned Report" and you can find it towards the bottom of the list of reports.

# The Maine DOE Data Warehouse

## “Canned Report” Introduction

The best way to learn how to use this dashboard is to simply “use it!” Explore the different controls and try using different combinations. The guide below is meant to provide you with some simple navigation help.

Each of the tabs across the top allows you to detail how you would like your report to look. Each increase in pivot table number allows for more variables to be examined at one time.

These dropdowns allow you to customize what population(s) you want to run the report for.

The dashboard interface includes a top navigation bar with tabs: "Pivot - Single Grouping", "Pivot - Two Groupings", "Pivot - Three Groupings", "Pivot - Four Groupings", "Pivot - Five Groupings", "Over Time Visuals", "Single Year Visuals", and "Metadata". Below the tabs is a grid of filter dropdowns for various categories: Attending County, Residential County, Responsible SAU, Economically Disadvantaged, Grade, Migrant, Attending SAU, Residential SAU, Age Oct 1, Multilingual Learner, Sex, Military Affiliation, Group By Selection, Chronic Absenteeism, School, Residential Town, Special Education, Foster Care, Homelessness, and Race/Ethnicity. A "Metric Type" dropdown is set to "Counts". The main data table is titled "Public Funded Counts" and shows data for the years 2016 through 2022. The table has columns for "Count" and "%" for each year, with a "Total" row at the bottom.

Make Selection	2016		2017		2018		2019		2020		2021		2022	
	Count	%												
Total	182,008	100.00%	180,920	100.00%	180,682	100.00%	180,817	100.00%	180,336	100.00%	172,474	100.00%	173,237	100.00%

Anything labeled “Group By Selection” allows you to select what data you want reported out. Selecting “Pivot - Two Grouping,” “Pivot - Three Grouping,” etc, allows you to select additional layers of data to add to the report. Please experiment and try using the different dropdowns and tabs to customize your experience. When you want to reset the different filters and drop downs simply click on the curved arrow symbol at the top left of the dashboard:
