2019 Maine FFA State Convention Discussion Meet Questions

1. How can Farm Bureau help farmers, ranchers, and others involved in agriculture to avoid incorrect information and to learn of the best production technologies now available to them?

2. How can Farm Bureau become more inclusive of all agriculture and production practices, including women in agriculture, organic production, fresh produce, forestry and aquaculture?

3. How can the agricultural industry attract the best and brightest minds from STEM (Science, Technology, Engineering and Math)?

4. How can people involved in agriculture be sure to keep up with the most profitable products and activities?

5. What can Farm Bureau do to attract more younger members into the organization?
