

## Papier-mâché Procedure

1. Mix Art Paste and water to make a liquid glue. Follow the directions on the box.
2. Use your hand or a paintbrush to cover the balloon with glue.
3. Cover the balloon with newspaper strips. Make sure to cover all of the balloon, and make sure the newspaper is smooth.
4. Smooth glue over the newspaper layer.
5. Cover the balloon with paper towel strips. Make sure to cover up all of the newspaper, and make sure the paper towel is smooth.
6. Smooth glue over the paper towel layer.
7. Repeat the newspaper layer.
8. Repeat the paper towel layer. Now there are four layers of paper and glue.
9. Set the papier-mâché on a drying stand and put it someplace safe to dry. After the first day of drying, turn the papier-mâché so the other side can dry.
