

Dear Families,

We have been learning about the connections between people and places around the world. We have also been telling our own stories by writing autobiographical poems. Now we are beginning to learn more about our school community and the people who live and work here. This includes you, because you are members of our school community!

As part of this work, we will be writing biographies of people in our school community. First, children will conduct interviews. Then they will use the interviews to write biographies.

We need your help!

1. Please review your child's plan together (attached).
2. Set up a time for the interview to take place.
3. Work with your child to complete the interview questions. If possible, help your child record the interview so that they can listen again if necessary.

Once the interview is complete, please return the Interview Questions sheet to school by _____.

If your child will not be able to interview someone at home, please let me know. I will be glad to arrange for the interview to happen during school.

Thank you so much for your support!

Sincerely,
