

Welcome to setting up an EnGiNE Account

This page will walk you through setting up an EnGiNE account. If you need assistance, please reach out to the EnGiNE Team at doe.engine@maine.gov

Start by going to [EnGiNE.maine.gov](https://engine.maine.gov)

Once on the website, click on the “join” button in the top right.

After clicking “join” the information below will need to be filled in.

MAINE INNOVATIVE LEARNING MODELS ▾

Join EnGiNE

Please use a current school e mail in both boxes. You must use a current Maine school e mail address to set up an account.

Click “Join EnGiNE” when all the information above is filled in.

After clicking “Join EnGiNE,” this confirmation page will appear, and an email with the next steps will be sent.

The email will contain information and tutorials about EnGiNE. To complete the sign-up process, click on “create a password.”

Thank you for joining EnGiNE!

EnGiNE is a collaborative space designed for Maine's educators to connect, share resources, innovate and learn together. We invite you to:

- [Create your password](#)
- [Complete your EnGiNE Profile](#)
- View the EnGiNE User Guide ([link to pdf](#))
- [EnGiNE Overview Tutorial Video](#)

EnGiNE is the Maine Department of Education’s statewide platform for collaboration and professional learning. Designed to support educators and school personnel across all roles, EnGiNE offers a wide range of opportunities—from self-paced modules and live sessions to collaborative communities and resource sharing spaces. It serves as a central hub where Maine’s education community can grow, connect, and stay informed.

What You’ll Find in EnGiNE

EnGiNE is organized around **two key areas**:

1. Collaboration

If you signed up using a school district email address, you will automatically be enrolled in the **staff-only collaboration space**. Here you’ll find:

- Community Forums
- Collaboration Groups
- Resource Sharing

This is where you can connect with colleagues, exchange ideas, and access shared resources.

2. Learning Opportunities

All EnGiNE users can access the **Learning Opportunities** section, which includes a wide variety of trainings—many of which can earn you **contact hours**. These learning experiences are hosted in a virtual classroom powered by Moodle, a Learning Management System (LMS). Some courses require an enrollment key, while others are open to all EnGiNE users.

Click on these links to take you to each part of EnGiNE!

[Community Forums](#) - [Collaboration Groups](#) - [Resource Sharing](#) - [Learning Opportunities](#)

After clicking the “create your password” link, click on the blue “sign in” button.

This is a one-time login for
erik.wade@maine.gov.

Click on this button to log in to the site and
change your password.

This login can be used only once.

Sign in

The “sign in” link will bring you to a page where you can enter your information and change your password. All of the information below, except the first and last name, School/District, email address, and password, is optional.

First Name *

Last Name *

Picture

Choose File No file chosen

Your virtual face or picture.
One file only.
360 MB limit.
Allowed types: png gif jpg jpeg.

← Adding a picture is optional.

About me

Adding information in the “about me” section is optional.

School/District

Position

← Adding your position is optional.

Learning Stage

- None -

The stage of students you teach

← Adding your learning stage is optional.

Topics of interest

- None -

Drag to re-order taxonomy terms.

← Adding topics of interest is optional.

Email address *

The email address is not made public. It will only be used if you need to be contacted about your account or for opted-in notifications.

Please set a new password to access your account.

Password *

Password strength:

Confirm password *

Passwords match:
To change the current user password, enter the new password in both fields.

☐ Opt-out of all emails

This will determine which emails you receive.

← Password is required

Save ← Click “save” when the information above is complete.

After clicking “save” the information below will be displayed. Everything on this page is optional. If you would like to add more information to any of the topics, use the blue edit button. It is also possible to hide your information from other EnGiNE users. To make your information not be visible by others, click the box to the right of “visible to other users”.

Your Profile Power Stats

EnGINE uses information in your profile to find resources, conversations, communities, rooms, and people that are recommended for you. You are utilizing **0%** of EnGINE's recommendation power.

- ➊ Complete About You.
- ➋ Complete About Your School.
- ➌ Complete Your Topics of interest.
- ➍ Complete Your Strengths.
