

**Title II and Title IV Equitable Services Percentage**  
**ESEA School Year 2019-2020 Non-Public Percentages for Participation**  
**Fiscal Year 2020**

The equitable services percentage is only applicable if the non-public school, after consultation, indicates on the ESEA *Non-Public Participation Form* that the non-public school plans to participate in a particular ESEA title.

Equitable services for Title II and Title IV are derived from a “per-pupil” formula. The formula takes into account the district’s total allocation and the percentage of district enrollment in the non-public school. Please note no all non-public school enrollment data is currently available. As such, this document will continue to be updated as information is received.

Local Education Agency (LEA) Name	K-12 Enrollment	Percentage of Students
