

EXTENDED LEARNING OPPORTUNITIES (ELO)

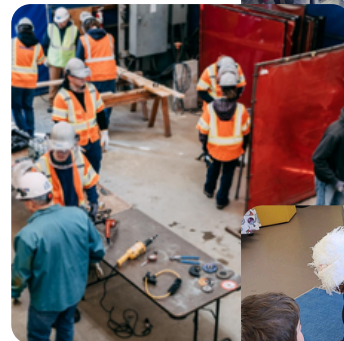

WHAT IS AN ELO?

Extended learning opportunities (ELOs) are an **experience outside of the traditional classroom, with an emphasis on community-based career exploration**, which may be credit bearing.

ELOs are often designed based on the student's interests. This is **a great way for students to earn credit by exploring careers** while doing the things they love.

Depending on availability, an ELO may include:

- Paid work experience on the job completed during school hours
- Project-based learning
- Workforce skills development
- Internship or work-study
- Job shadow
- Individual or group ELO experience
- Academic credit
