The Cost Center information that has been added to Maine Schools references the 3 digit code that the business office uses in the financial system to assign building level costs. Each building will have at least one Cost Center, but may have 2 codes if the building has a combination of PreK-8 grade students and 9-12 grade students. PreK-8 grade will have a range of 010 through 290, and 9-12 grades will have a code in the range of 300 through 380. CTE Centers will have a Cost Center of 390.

If school districts operate an alternative education program where they need to enter the building those will use a cost center in the range of 500 through 590.

The cost center report can be downloaded here:
