Obligation Requirements

Code of Federal Regulations (CFR) regulates when an obligation is made by the State (Maine DOE) or subgrantee (ie. SAU).

[§ 76.707 When obligations are made](#) - The table shows when a State or a subgrantee makes obligations for various kinds of property and services.

The period for delivery of goods and services and exchange of funds can extend to the end of the liquidation period, if a **timely and valid obligation** has been made.

If the obligation is for--	The obligation is made--
(a) Acquisition of real or personal property	On the date on which the State or subgrantee makes a binding written commitment to acquire the property.
(b) Personal services by an employee of the State or subgrantee	When the services are performed.
(c) Personal services by a contractor who is not an employee of the State or subgrantee	On the date on which the State or subgrantee makes a binding written commitment to obtain the services.
(d) Performance of work other than personal services.	On the date on which the State or subgrantee makes a binding written commitment to obtain the work.
(e) Public utility services	When the State or subgrantee receives the services.
(f) Travel	When the travel is taken.
(g) Rental of real or personal property	When the State or subgrantee uses the property.
(h) A pre-agreement cost that was properly approved by the Secretary under the cost principles in 2 CFR part 200, Subpart E--Cost Principles	On the first day of the grant or subgrant performance period.

Liquidation Means...

Liquidation is the process of

- Drawing down funds (ie. SAU reimbursement request), and
- Expending the funds (ie. SAU payment) by the Maine DOE

for obligations incurred during the grant's legal obligation period.

A liquidation deadline does not extend the timeline for obligating ARP ESSER funding.

The Liquidation Requirements

[§ 200.344 Closeout](#) - The Federal awarding agency or pass-through entity will close out the Federal award when it determines that all application administrative actions and all required work of the Federal award have been completed by the non-Federal entity.

(b) Unless the Federal awarding agency or pass-through entity authorizes an extension, a non-Federal entity **must liquidate all financial obligations incurred under the Federal award no later than 120 calendar days after the end date of the period of performance** as specified in the terms and conditions of the Federal award.

Liquidation Extension

The U.S. Department of Education (ED) has the authority to approve liquidation extension requests for **properly and timely obligated funds** upon review of **written requests** made by the grantee on behalf of itself and its subrecipients **based upon the specific facts and circumstances**, in accordance with [2 CFR § 200.344\(b\)](#).

Please note these take aways:

- The grantee (Maine DOE) must submit a written request on behalf of its subrecipients (SAUs)
- The SAU must complete an application for Maine DOE to review
- U.S Department of Education (ED) will approve or deny liquidation extension

ED's Extension Request Process

The grantee (Maine DOE) must complete this request process on behalf of the subgrantees (SAUs) to represent an extension request.

U.S. Department of Education has suggested submission prior to December 31, 2024 as requests submitted after that date may experience a lapse in accessing funding.

Within ED's Extension Request

The U.S. Department of Education has stated that grantees:

- maintain autonomy for subrecipient process, documentation, and oversight
- must confirm that only subrecipients in need of an extension are included
- should use discretion and oversight when including a subrecipient
- collect sufficient documentation to support the liquidation extensions of the subrecipient because provision of this documentation will be requested for during monitoring and auditing
- Request data verification of September 30 obligations and January 28 liquidations
- May adjust the subrecipient extension date for administrative purposes at the grantee level, as extension dates for the grantee and subrecipient cannot exceed 03/28/26

Maine SAU's Extension Request

If your SAU needs to submit a liquidation extension request for its ARP ESSER funded project(s), a formal request must be made through the request process by **November 4, 2024**.

- The extension request form can be found at <https://forms.office.com/g/LvgQ94ZWry>

Please note: Needing more time to expend funds is NOT an adequate justification for a liquidation extension request. Examples might include delays related to supply or labor shortages.

Maine SAU's Extension Request

The liquidation extension request from the SAU will require the following:

- A **list of each project** for which the SAU is requesting liquidation extension, a **detailed description** of each project, and **the amount of funds per project** for which the SAU is requesting liquidation extension.

Maine DOE's Review Process

- The Federal Emergency Relief Program staff will receive submissions of Liquidation Extension Request **no later than November 4, 2024**.
- OFERP will review the request assessing the following:
 - SAU's risk assessment
 - Whether or not the SAU has been obligated for allowable uses prior to 9/30/2024
 - Whether or not the SAU has provided an adequate justification for a liquidation extension request
 - Whether or not the SAU has provided documentation that successfully demonstrates that at the time of original obligation, it was anticipated the work would be completed within the period of performance. Failure to provide this documentation will deem the request ineligible for liquidation extension
- FERP may request additional supporting evidence

Maine DOE's Review Process

- Based on the review, FERP staff will determine the following:
 - SAU's capacity to liquidate within the extension period of 12/30/24 - 03/26/26 or more appropriate applicable date)
 - Whether or not the SAU's projects meet the requirements for a liquidation extension request
- FERP staff will provide a response to the SAU Superintendent, ESSER Applicant Coordinator, and Business Manager as to whether the liquidation extension request meets all requirements and will be included in the state's ARP ESSER Liquidation Extension Request to the U.S. Department of Education.
- The FY25 risk assessment for other federal funding may include a variable to incorporate the increased risk associated with liquidation extension of funds.

Q. 8: What are a State's responsibilities if an extension is granted? (Updated January 9, 2024)

A: A State (SEA or Governor), as the grantee, must retain full responsibility and oversight over the grant, consistent with the attestations included in the liquidation extension request. These continued oversight responsibilities will extend throughout the liquidation period. Related to the initial request, the State must confirm the allowability and proper and timely obligation of the funds, consistent with 34 CFR 76.707 and collect, review, and maintain all documentation to support the State and subrecipient liquidation extension request in a manner consistent with grant requirements and as noted in Q. 7, above. Approved liquidation extensions will be monitored in a manner consistent with the Department's oversight of its grantees and will include evidence of the grantee's oversight of the extension process and its monitoring of subrecipient expenses for timeliness and allowability. Additional information related to program monitoring is available in the ESSER, GEER, and EANS monitoring protocols.
