

MAINE DOE - GREEN SCHOOLS INITIATIVE

ENERGY AUDITS | INDOOR AIR QUALITY ASSESSMENTS

Saving Schools Money

*Application Process: Submitting this brief application is the first step. After review, we will follow up with you for additional information and conversation regarding your **School Administrative Unit's (SAU's)** current needs and focus.*

Name

Email

SAU

Your Role with the SAU

Please provide a brief statement in the space below describing your SAU's reason for applying for the Maine DOE-supported energy audit.

Please describe your interest in reducing energy costs, lowering pollution, and /or improving indoor air quality. Please indicate if your SAU would like to update an existing school facility master plan related to the repair or replacement of aging HVAC or facility infrastructure equipment that consumes energy.

By submitting this application, the **SAU** affirms its commitment to the Maine Green Schools Initiative and to participating in the required energy and indoor air quality assessment process. Upon acceptance into the program, the SAU agrees to work collaboratively with BIMS, the designated technical consultant, to support a thorough and accurate evaluation.

The SAU understands that this collaboration includes providing timely access to the facilities as well all necessary documents and information, including current floor plans, the MEPRI report, relevant budgets, and utility expenditure and usage data. The SAU further acknowledges that open communication and cooperation throughout the assessment process are essential.
