Grants4ME Invoicing: Where funds are being paid from

 Once an invoice has been submitted and approved it will show a status of "State Accounting System Paid"

2) To see 'how' this was paid you will need to go into the invoice and into the request page:

3) Once inside the Request page, at the very top will be a new link called "Payment Details", click this link:

4) Here you will see 'how' the invoice is being paid that will be broken out based on the funding available in the title the request is being made from:

*Please note, that the reimbursement checks from different title programs may not come at the same time as they could be processed by separate accountants.

Example: The Title I reimbursement check might come before the Title IV reimbursement check as they could be processed at different times by the separate accountants or vice-versa.
