Financial Hardship

Other

Partial Program Waiver Request

Full Program Waiver Request

Please completely describe the basis for the SAU's one-year waiver request and further describe how the SAU is meeting the needs of the gifted and talented population in your district (Use as much space as necessary):

Long Island School has 18 students. The school is completely individualized for all students, with 8 students in the K-2 classroom, and 10 students in the 3-5 classroom. Both classes are taught by highly qualified teachers.

Student performance is assessed regularly using both teacher developed and standardized assessment tools. (NWEA in reading, writing, and mathematics; DRA, Scholastic, Everyday Math pre-tests, Lucy Caulkins writing prompts) to insure that instruction is meeting their performance levels. Differentiation in reading, writing, and math occurs daily as a result, with science and social studies project work and reading requirements designed to address their varying needs. Two Ed. Techs assist with individualized student needs as well. Music, Art, and Spanish classes are also offered.

There is no budgeted money for GT consultation. Children are able to be assigned individual or small group instruction and product requirements based on their assessed abilities. There is a 1:1 laptop availability in this school, which was grant funded. This is another avenue regularly used for individualized student work opportunities.

Thank you for considering waiving the program requirement for this very small school.
