**NOTE:** Additional copies of this Test Administrator Manual may be downloaded from the Internet at [https://www.maine.gov/doe/Testing_Accountability/MECAS/materials/meascience](https://www.maine.gov/doe/Testing_Accountability/MECAS/materials/meascience) or photocopied as needed.  

Test administration questions should be directed to the principal/test coordinator at your school.
Test Security and Ethics

The quality and usefulness of the assessment data generated by the MEA depends, in large part, on the uniformity of test administration and the security of test materials. Valuable information about student achievement of content standards measuring the effectiveness of Maine’s Learning Results will be seriously compromised if test security is not strictly implemented and maintained. For this reason, all guidelines included in this manual must be followed.

Test Administrator/Proctor Responsibilities

1. Test Administrators must follow the instructions provided in this manual, including reading the scripts as they are written and following time allowances as they are stated.
2. Do not use the contents of the MEA test booklets to prepare your students for the test. Doing so is a violation of test security and testing procedures.
3. Duplication of any portion of the MEA test or answer booklets is strictly forbidden, including but not limited to audio-taping, videotaping, photographing, photocopying, and handwritten copying. No test or answer booklets or student work, including any record of computer-generated responses, may be retained, discarded, recycled, removed, or destroyed.
4. Test Administrators must count the materials received from the testing coordinator and return the same number to the test coordinator each day or secure the test materials as instructed by the test coordinator.
5. Test Administrators/Proctors must inform students of the rules and procedures they must follow.
6. Test Administrators/Proctors are responsible for providing a standardized test environment in which no coaching or prompting occurs.

The MEA science assessment is designed to provide information about student achievement. The accuracy and value of this information are directly influenced by how students handle test materials and respond to test questions. Test Administrators/Proctors are responsible for ensuring that students are properly instructed in the use of test materials and are given the opportunity to do their best.

Test Administrators/Proctors must ensure that:

1. students have been informed about the importance of the MEA before testing begins; that their test results will be included in their permanent school records; a copy of the test results will be provided to their parent(s) or guardian(s); and test results will be used by teachers to help improve academic performance.
2. students do not participate in any form of cheating; only provide answers that are strictly their own; do not consult notes, textbooks, or other instructional materials; do not use calculators, cell phones, computers, or other digital or electronic devices; do not share test questions with other students; and do not consult other students, staff, or anyone else accessible to them during test administration.
3. each student receives a set of test materials, uses only that assigned set of test materials, and handles and completes the materials properly.
4. students are informed that they will have a specific amount of time to complete each test session.
5. students are informed that they will be required to make up any test session missed due to absence from school and that they are encouraged to avoid absences during the testing period.

6. students are informed that responses identified in the scoring process indicating that the student’s physical/emotional health or personal safety may be in jeopardy may be referred to appropriate local school administrative unit (SAU) personnel. All referrals are confidential, and any decisions connected with these referrals are under the jurisdiction of the local SAU.

Test Administrators should contact Nancy Godfrey, Assessment Coordinator, at the Maine Department of Education, at nancy.godfrey@maine.gov or 624-6775 if questions arise, or if any situation occurs that could cause any part of the test administration to be compromised.

Penalties
Failure to comply with the administration and security requirements described in this document may result in one or more of the following penalties:

- delay in reporting of student, school, or SAU results,
- invalidation of student, school, or SAU results, and/or
- investigation by the Department of Education for possible certification action.
Checklist for Test Administration

Prior to Testing

_____ Read this Test Administrator Manual.
_____ Meet with the test coordinator to plan the testing schedule, review procedures, and receive the list of students to whom you will be administering the assessment, including information about any approved accommodations.
_____ Obtain sufficient sharpened number two pencils.
_____ Explain the “Test Security and Ethics” considerations in this manual to the students.
_____ Be sure that all students have comfortable and adequate work space, including those whose accommodations require special seating.

Immediately Before Testing

_____ Obtain secure test and answer booklets from the test coordinator.
_____ Check that the form number on the covers of the test and inserted answer booklets match. Remove any sets that do not match.
_____ Post a “TESTING—PLEASE DO NOT DISTURB” sign on the classroom door.
_____ Ensure that digital and electronic devices, including cell phones and calculators, are unavailable.

During Each Testing Session

_____ Distribute test booklets in the order they are packaged unless you are administering to a group of students who receive read aloud accommodation P3, as described in the Policies and Procedures for Accommodations for the Maine Educational Assessment.
_____ Follow directions, test administrator/proctor scripts, and time allowances in this manual for administering student tests, including makeup testing if you are assigned to do so.
_____ Monitor students’ handling of test materials to keep the booklets in good condition.
_____ Give students only the time indicated in this manual to complete the test sessions.
_____ Collect all test materials from each student at the end of each testing period and return the materials to the test coordinator or secure the test materials as instructed by your test coordinator.
_____ Notify the test coordinator of all students needing makeup sessions at the end of the testing day(s).

After completing testing, refer to the Checklist for Concluding MEA Administration on page 17.
Preparation for Testing

It is expected that all students will take part in the MEA, either through standard administration, administration with accommodation(s), or alternate assessment.

Familiarize yourself with all administration procedures prior to testing. Attend the training scheduled by your school principal/test coordinator to discuss the testing schedule (including plans for delivery of approved accommodations and makeup schedule), review testing procedures, and receive information on how test materials will be distributed and tracked in your school between and during administration of test sessions.

Test Schedule

Except for makeup test sessions or test sessions for students requiring certain accommodations, the test sessions must be administered concurrently to all students and follow the order listed below. The test coordinator in your school will arrange a testing schedule. It is recommended that a 10-minute break be provided to students between test sessions.

Test Session Order and Time Allowances

</tr>
</tbody>
</table>

Student Testing Materials

In addition to this manual, you will receive a set of test booklets and answer booklets for the group of students you will be testing.

- **NOTE:** During each test session, students should always be working with their own original test materials, which are those distributed to them at the beginning of testing.

- **NOTE:** The different forms of the test booklets are arranged in a special order in the stacks you have been given. DO NOT CHANGE THE ORDER OF ANY FORMS. They are arranged to achieve the proper distribution of materials when they are passed out. The test sessions contain questions that are unique to each test form. The only exception to this distribution requirement is for students who have been identified as requiring approved read aloud accommodation P3. In this case, schools may choose one or more form(s) for use with these students.

The answer booklets have been designed for machine scoring and should be handled carefully. They should be free of extraneous marks and loose eraser bits, and they should never be folded, clipped, stapled, banded, or torn.
Preparing Students for the Test

The MEA Science assessment consists of multiple-choice and constructed-response questions, so it is appropriate to familiarize students with these types of questions. Sample science released items and practice tests can be found on the Maine Department of Education website at https://www.maine.gov/doe/Testing_Accountability/MECAS/supports

NOTE: Using current test materials to familiarize students with test-taking strategies is a violation of test security and testing procedures.

Students should be made aware of the need to plan concise, complete answers to science constructed-response questions to fit in the boxes available in the answer booklet. Only responses written in the answer boxes will be scored.

Notify students of the testing in advance and request that they bring two sharpened number two pencils to every testing session.

Students should also be informed that calculators, cellphones, watch alarms, handheld computers, and other digital and electronic devices are not permitted during the MEA Science test.

Testing Students Who Require Accommodations

It is important that those test administrators/proctors who administer the test with accommodations:

- know which students have been approved by a team to participate in the MEA Science test using allowable accommodations outlined in the Policies and Procedures for Accommodations for the Maine Educational Assessment,
- have a copy of the allowable accommodations that clarify what is permissible for each student (see allowable accommodations on pages 18–22),
- explain to students which accommodation(s) they may use,
- have been trained to administer the assessment according to the administration procedures in this manual, and
- write the student name, state student ID number, school name, test session number, and question number on each page of student work for students who receive accommodation R4 (student use of word processor). Place all the extra answer pages that are printed out of the word processor together and insert this packet anywhere in the student’s answer booklet at the end of testing.

Final Administration Preparation

Just before testing, please:

- arrange testing materials for each test session so that you will be able to distribute them to students rapidly.
- post a “TESTING—PLEASE DO NOT DISTURB” sign on the classroom door.
- verify that the form number on the front cover of each test booklet and the form number printed on the front cover of the inserted answer booklet match. Before distributing materials to students, set aside any test/answer booklet pairs with form numbers that do not match.
Scripts
Test administration sessions in this document provide the actual scripts (words printed in **boldface excluding the test session information boxes**) to be read aloud, as printed, to students during test administration. General directions for test administration (**not** to be read aloud) are printed in regular text. **It is important that directions be read as scripted to ensure uniformity of test administration.**

Test Administration Interruptions
Circumstances over which you have no control (fire drills or power failures, for example) may interrupt testing. If such an interruption does occur during any testing session, instruct students to insert their answer booklets into their test booklets and close their test booklets. When normal conditions are restored, resume testing. Interruptions should not reduce the total amount of time students are given to complete the interrupted test session.
Science Session 1

Materials Distribution & Identification Time
Science Session 1

Materials Distribution/Identification Time

Time Allowed: 5–10 minutes
Time Allowed: 60 minutes

Uniform testing conditions depend on you reading the script exactly as detailed in this test session.

1. At the beginning of the administration, say to the students:

The Maine Educational Assessment for Science consists of a two-session science test and a questionnaire. If you have questions about any of the instructions I give you, please ask them so that you can be sure to do your best on this state assessment.

The Maine Department of Education has testing policies that are designed to give each of you a fair and equitable opportunity to show your abilities. To ensure fairness, do not engage in any of the following unacceptable behaviors:

- Giving or receiving help of any kind
- Looking through the test booklet before the start of the test
- Marking answers after time is called
- Sharing test questions with anyone during or after the test
- Attempting to remove test materials from the testing room
- Attempting to take the test for someone else
- Causing a disturbance of any kind
- Failing to follow testing procedures

Now we’re going to prepare to start the test.

- Remove everything from your desktop except your Number 2 pencils and erasers. This includes any highlighters, rulers, calculators, dictionaries or other books, pens or colored pencils, pamphlets, and papers of any kind. Turn off the power to cell phones, watch alarms, handheld computers, and other digital and electronic devices, and store them out of sight as these are all prohibited.

- Close all bags and backpacks and put them under your desk until the test is over.
- Please be respectful of the quiet testing environment required by your fellow students.

2. Walk around the room to make sure that students have only Number 2 pencils and erasers on their desks.

3. Then say to the students:

I am going to pass out an answer booklet and test booklet to each of you now. On the cover of the test booklet, please neatly print your name and the name of our school on the lines provided. Do not open your test booklet until I ask you to do so.
Distribute one answer booklet and one test booklet to each student. Make sure every student is using a Number 2 pencil. Check to ensure that no one is using a pen or mechanical pencil.

4. When all students are ready, **say to the students:**
   
   Now look at the cover of your answer booklet. Using a Number 2 pencil, write your name and our school name in the upper left-hand corner. [Pause.]

5. When everyone is ready, **say to the students:**
   
   During the test, keep your answer booklet and test booklet flat on your desk. If you find a defect with either one, raise your hand at that time. I will walk around the room to check progress and also keep the official time for the test.

   Remember, after the test has ended, no one may leave the room until I announce dismissal.

   You will now take Science Session 1. This test session consists of 20 multiple-choice questions and 3 constructed-response questions. You should plan your answers to the constructed-response questions to fit in the answer boxes provided. You will have 60 minutes to work on this test session. You may work in Science Session 1 only.

   You will answer the questions in Science Session 1 on pages 3–5 of your answer booklet. Do not work past the stop sign on page 5 of your answer booklet. If you have any questions about testing procedures, please ask them now. Once you begin testing, I cannot answer questions. [Answer any procedural questions students may have.]

   You will have 60 minutes to answer the questions in this session. I will remind you when you have 10 minutes left.

6. After you answer all questions, **say to the students:**
   
   Open your test booklet and carefully read the General Directions. When you are finished, please continue on to page 1, read the directions, and begin working now.

   Please be alert and attentive throughout the test. Do not read, grade papers, work on a computer, talk on a cell phone, or do any other task unrelated to the test administration. During testing, follow these procedures:

   **Time the test:**
   
   Write the start and stop times on the board for students to see. Before you call stop, check your watch against the time you wrote on the board.

   **Monitor test-takers:**
   
   Walk around the room to check that everyone is working independently on Session 1.
Science Session 1

7. **After 50 minutes, say to the students:**
   
   You have 10 minutes left to complete this session. Remember that when you have completed the questions up to the stop sign on page 5 of your answer booklet you may go back and check your work in this session or insert your answer booklet into your test booklet, close your test booklet, and sit quietly or read a book.

8. **At the end of the 60 minutes, say to the students:**
   
   This completes Science Session 1. Please put your answer booklet into your test booklet, close your test booklet, and I will collect them both now. Please sit quietly until you are dismissed.

Before dismissal:

- Collect the test booklets with inserted answer booklets from each student. Do not separate the answer booklets from the test booklets.
- Check that the student’s name, your school name, and the correct form number are completed on each student’s answer booklet.
- Verify by count that you have a test booklet with inserted answer booklet for each student.
- Keep students seated until you are sure you have an answer booklet and test booklet from each student.

9. **After all materials are accounted for, say to the students:**
   
   Remember, you must not, under any circumstances, take any test questions from the testing room, give them to anyone, or discuss them with anyone through any means, including e-mail, text messages, or the Internet.

   This test session is now over. Thank you for your cooperation.

Do not separate the test booklets from the answer booklets. After the students are dismissed, count and return all booklets to the test coordinator or secure the test materials as instructed by your test coordinator.
Science Session 2
Science Session 2

Time Allowed: 60 minutes

Uniform testing conditions depend on you reading the script exactly as detailed in this test session.

1. Pass out test booklets and answer booklets to students if they do not have them already. Make sure every student is using a Number 2 pencil. Check to ensure that no one is using a pen or mechanical pencil.

   **Say to the students:**

   Before you begin, please check to see that your name is written on your test booklet and answer booklet.

   Now we’re going to prepare to start the test.

   • Remove everything from your desktop except your Number 2 pencils and erasers. This includes highlighters, rulers, calculators, dictionaries or other books, pens or colored pencils, pamphlets, and papers of any kind. Turn off the power to cell phones, watch alarms, handheld computers, and other digital and electronic devices, and store them out of sight as these are all prohibited.

   • Close all bags and backpacks and put them under your desk until the test is over.

   • Please be respectful of the quiet testing environment required by your fellow students.

2. Walk around the room to make sure that students have only Number 2 pencils and erasers on their desks.

3. When all students are ready, **say to the students:**

   During the test, keep your answer booklet and test booklet flat on your desk. If you find a defect with either one, raise your hand at that time. I will walk around the room to check progress and also keep the official time for the test.

   Remember, after the test has ended, no one may leave the room until I announce dismissal.

   You will now take the Science Session 2. This test session consists of 28 multiple-choice and 2 constructed-response questions. You will have 60 minutes to work on this test session. You may work in Science Session 2 only.

   Open your answer booklet to page 6. You will answer the questions in Science Session 2 on pages 6 and 7 of your answer booklet. Do not work past the stop sign on page 7 of your answer booklet. If you have any questions about testing procedures, please ask them now. Once you begin testing, I cannot answer questions. [Answer any procedure questions students may have.]

   You will have 60 minutes to answer the questions in this session. I will remind you when you have 10 minutes left.

4. After you answer all questions, **say to the students:**

   Open your test booklet to page 12, read the directions, and begin working now.
Science Session 2

Please be alert and attentive throughout the test. Do not read, grade papers, work on a computer, talk on a cell phone, or do any other task unrelated to the test administration. During testing, follow these procedures:

Time the test:
Write the start and stop times on the board for students to see. Before you call stop, check your watch against the time you wrote on the board.

Monitor test-takers:
Walk around the room to check that everyone is working independently on Session 2.

5. After 50 minutes, say to the students:
   
   You have 10 minutes left to complete this session. Remember that when you have completed the questions up to the stop sign on page 7 of your answer booklet you may go back and check your work in this session or insert your answer booklet into your test booklet, close your test booklet, and sit quietly or read a book.

6. After the 60 minutes, say to the students:
   
   This completes Science Session 2. Please put your answer booklet into your test booklet, close your test booklet, and I will collect them both now. Please sit quietly until you are dismissed.

Before dismissal:

- Collect the test booklets with answer booklets inserted from each student. Do not separate the answer booklets from the test booklets.
- Verify by count that you have a test booklet and answer booklet for each student.
- Keep students seated until you are sure you have an answer booklet and test booklet from each student.

7. After all materials are accounted for, say to the students:

   Remember, you must not, under any circumstances, take any test questions from the testing room, give them to anyone, or discuss them with anyone through any means, including e-mail, text messages, or the Internet.

   This test session is now over. Thank you for your cooperation.

Do not separate the test booklets from the answer booklets. After the students are dismissed, count and return all booklets to the test coordinator or secure the test materials as instructed by your test coordinator.
Science Session 3

Student Questionnaire
Science Session 3

Student Questionnaire
Time Allowed: 15–20 minutes

1. Pass out test booklets and answer booklets to students if they do not have them already. Make sure every student is using a Number 2 pencil. Check to ensure that no one is using a pen or mechanical pencil.

Say to the students:

Before you begin, check to see that your name is written on your test booklet and answer booklet.

- Remove everything from your desktop except your Number 2 pencils and erasers. This includes highlighters, rulers, calculators, dictionaries or other books, pens or colored pencils, pamphlets, and papers of any kind. Turn off power to cell phones, watch alarms, handheld computers, and other digital and electronic devices, and store them out of sight as these are all prohibited.
- Close all bags and backpacks and put them under your desk until the questionnaire is over.

Walk around the room to make sure that students have only Number 2 pencils and erasers on their desks.

2. Say to the students:

You are now going to take the Student Questionnaire. Please open your test booklet to page 24. You will answer the questions for this test session on page 8 of your Student Answer Booklet.

You will have about 15–20 minutes to answer the questions in this test session. If you are not finished at that time, you may have more time to complete the questions. You may work in Student Questionnaire Session 3 only.

3. After 15 minutes, say to the students:

Please raise your hand if you have not finished answering the questions in this test session. If students raise their hands, allow them a reasonable amount of time to complete the session.

4. When all students have finished, say to the students:

Place your answer booklet on top of your test booklet, and I will collect them both now. Please sit quietly until you are dismissed.

Before dismissal:

- Collect the answer booklet and test booklets individually from each student.
- Make sure answer booklets are not inserted in or between test booklets.
- Keep students seated until you verify by count that you have a test booklet and an answer booklet for each student.

5. After all materials are accounted for, say to the students:

This test administration is now over. Thank you for your cooperation.

After students are dismissed, follow the “Checklist for Concluding MEA Administration” on the next page.
Checklist for Concluding MEA Administration

Checking Student Test and Answer Booklets

_____ Check the condition of the answer booklets. Notify your test coordinator if any booklets are torn or damaged.

_____ Separate test booklets and answer booklets. Ensure that each student’s name is written legibly in the top left corner of the answer booklet as you do so.

_____ If labels have not already been attached to the answer booklets, sort them into alphabetical order by the student’s last names to facilitate the application of student labels by the test coordinator. It is not necessary to alphabetize the test booklets.

_____ For students who received accommodation R4 (student use of word processor) verify that the following are included on each word-processed page of responses:
  • student name
  • state student ID number
  • school name
  • test session number
  • question number

Place the separate printout pages all together and insert this packet into any place in the Student Answer Booklet. **Do not attach the pages to the answer booklet.** Notify the test coordinator that this answer booklet should be returned in the Special Handling envelope.

_____ Return all test and answer booklets to the test coordinator and notify him or her of any students who require makeup testing and the test session(s) they have missed.

Thank you for your participation and assistance in the administration of the MEA Science test.
## MEA Science Accommodations Tables

**NOTE:** The chart below contains accommodations and codes to be used for the MEA Science test and should be bubbled on the student’s answer booklet after testing.

**SUPPORT(S)** may provide more accessibility to the test and are determined on an individual basis by an educational team such as Response to Intervention (RtI), Student Assistance Team (SAT), and/or Language Acquisition Team. Supports must be consistent with the student’s normal routine during instruction. Provision of supports does not alter the construct of any test item.

**ACCOMMODATIONS** are changes in procedures or materials that do not alter what the test measured, and are used to increase equitable access during assessment for students for whom there is a documentation of the need on an Individualized Education Program (IEP) or 504 Plan.

Any support(s) or accommodation(s) used for the assessment of an individual student will be the result of a team decision made at the local level. All decisions regarding the use of supports/accommodations must be made on an individual student basis—not for a large group, entire class, or grade level. Supports/accommodations are available to all students on the basis of individual need regardless of disability status and should be consistent with the student’s normal routine during instruction and assessment. This table is not intended to be used as a stand-alone document and should always be used in conjunction with the Test Administrator Manuals.

### T. Timing

<table>
<thead>
<tr>
<th>Code</th>
<th>Description</th>
<th>Details on Delivery</th>
<th>Type</th>
</tr>
</thead>
<tbody>
<tr>
<td>T1</td>
<td><strong>Extended Time</strong> - With time extended beyond standard administration (same day).</td>
<td>The scheduled administration time already includes additional time and the vast majority of students complete the test session within that time period. Extended time within a single sitting may be needed by students who are unable to meet time constraints. A test session may be extended until the student can no longer sustain the activity.</td>
<td>Support (team documented)</td>
</tr>
<tr>
<td>T2</td>
<td><strong>Extended Time</strong> - With time extended beyond standard administration (several days).</td>
<td>In rare and severe cases, the extended time (T1) may not be adequate for a student not able to complete a test session within a single day. A test session may be administered to a student as two or more “mini-sessions” if procedures are followed to maintain test security and ensure that the student only has access to the items administered on that day.</td>
<td>Support (team documented)</td>
</tr>
<tr>
<td>T3</td>
<td><strong>Breaks</strong> - With multiple or frequent breaks.</td>
<td>Multiple or frequent breaks may be required by students whose attention span, distractibility, physical and/or medical condition require shorter working periods.</td>
<td>Support (team documented)</td>
</tr>
<tr>
<td>T4</td>
<td><strong>Flexible Times</strong> - At a time of day or a day of the week most beneficial to the student and/or late start.</td>
<td>Individual scheduling may be used for a student whose school performance is noticeably affected by the time of day or day of the school week on which it is done. This support may not be used specifically to change the order of administration of test sessions. This support must not result in the administration of a test session to an individual student prior to the regularly scheduled administration time for that session for all students.</td>
<td>Support (team documented)</td>

<tr>
<td>------</td>
<td>-------------</td>
<td>---------------------</td>
<td>------</td>
</tr>
<tr>
<td>R1</td>
<td><strong>Scribe</strong> - With a student dictating responses to school personnel.</td>
<td>A student may dictate answers to constructed-response or short-answer questions to locally trained personnel or record oral answers in an individual setting so that other students will not benefit by hearing answers or be otherwise disturbed. Policies regarding recorded answers must be followed prior to returning special test materials. Please see MEA Science Scribing Protocol.</td>
<td>Accommodation (IEP/504)</td>
</tr>
<tr>
<td>R2</td>
<td><strong>Alt. Aids</strong> - Using alternative or assistive technology/devices that are part of the student’s regular instruction, including visual and/or auditory aids.</td>
<td>Technology is used to permit a student to respond to the test. Policies regarding recorded answers must be followed prior to returning test materials. Visual aids include any optical or nonoptical devices used to enhance visual capability. Examples include magnifiers, special lighting, markers, filters, large-spaced paper, color overlays, etc. An abacus may also be used for a student with severe visual impairment or blindness on the Science tests. Note that the use of this accommodation still requires student responses to be recorded in a student answer booklet.</td>
<td>Support (team documented)</td>
</tr>
<tr>
<td>R3</td>
<td><strong>Focus</strong> - Other assistive devices and/or tools to minimize distractions.</td>
<td>Noise buffers, place markers, carrels, etc., may be used to minimize distractions for the student. This accommodation does NOT include assistive devices such as templates, graphic organizers, or other devices intended specifically to help students organize thinking or develop a strategy for a specific question.</td>
<td>Support (team documented)</td>
</tr>
<tr>
<td>R4</td>
<td><strong>Computer/Alternate Paper Response</strong></td>
<td>A student may use technological or other tools (e.g., large-spaced paper) to write responses to constructed-response items. A key distinction between this accommodation and R2 is that the student using this accommodation is responding in writing rather than dictating. When using a computer, word-processing device, or other assistive technology, access to the Web must be turned off. This accommodation is intended for unique individual needs, not an entire class. Policies regarding recorded answers must be followed prior to returning special test materials.</td>
<td>Accommodation (IEP/504)</td>
</tr>
<tr>
<td>R5</td>
<td><strong>Braille Response</strong> - With student use of a Braille device.</td>
<td>A student may use a Braille device, manual and/or electronic, to respond to questions. Responses need to be recorded in standard format by a scribe and policies regarding recorded answers must be followed prior to returning special test materials.</td>
<td>Accommodation (IEP/504)</td>
</tr>
<tr>
<td>R6</td>
<td><strong>ELL</strong> - English language learner student use of bilingual word translation glossary.</td>
<td>Word-to-word translation glossary with NO definitions as determined by Language Acquisition Committee/Team. Students assigned this accommodation should be familiar with using such a glossary routinely during classroom instruction and test-taking.</td>
<td>Support (team documented)</td>
</tr>
<tr>
<td>R7</td>
<td><strong>Clarification</strong> - Administrator verification of student understanding following the reading of test directions.</td>
<td>After test directions have been read, the test administrator/proctor may ask the student to explain what he/she has been asked to do. If directions have been misunderstood by the student, the test directions may be paraphrased or demonstrated. Test items MUST NOT be paraphrased or explained.</td>
<td>Support (team documented)</td>

<tr>
<td>O1</td>
<td>Using other accommodation(s) not on this list, requested by the accommodations team.</td>
<td>An IEP team or other appropriate accommodation team may request that a student be provided an accommodation not included on this standard list of accommodations. Like all other accommodations, these should be consistent with the student’s normal routine during instruction and/or assessment. Requests should be made to the DOE when accommodation plans are being made for a student prior to testing. DOE approval must be received for the requested accommodation to be coded as an O1 accommodation. Nonapproved accommodations used during test administration will result in a nonscored test.</td>
