

Maine Learning Results Taskforce  
Meeting 2: Science of Learning & Standards Design  
December 17, 2025; 3:00–5:00 PM  
Facilitator: Beth Lambert, Chief Teaching & Learning Officer  
Guests: Learning Policy Institute (LPI), Northeast Comprehensive Center (NECC)

### Meeting Outcomes

- Review key insights from the Early Perspectives Survey to better understand the collective experiences, priorities, and concerns represented in the group.
- Build shared understanding of core principles from the Science of Learning and Development (SoLD).
- Explore how learning science can inform the purpose, structure, and design of academic standards.
- Begin identifying design principles that could guide a future framework for Maine’s Learning Results.
- Connect how students learn to how standards can create the conditions for powerful, equitable learning.
- Prepare for interim work that will deepen this thinking ahead of the February meeting.

### Agenda

3:00pm: Welcome and Framing
