

## Actions for School Nurse

A checklist that may assist the school nurse in welcoming a student with asthma.

Gathe	er data
	Obtain and review student's current asthma plan from provider. Sample <u>asthma plans</u> can be found within this document.
	Arrange conference with student and parents/guardians.
	Utilize an intake assessment. A sample <u>intake assessment</u> is within this document.
	Refer to the Maine Department of Education <u>Decision Tree for Coordination and Oversight</u> .
	Review U.S. Department of Education: Protecting Students with Disabilities.
Plan a	and implement training
	Coordinate <u>staff training</u> (teachers, coaches, physical education teacher, lunchroom staff, and bus driver).
	Include those involved in the 504, IEP, and other education plans.
	After training has been completed, review roles in carrying out the plan, how roles relate, and when/where to seek help.
