Dear Parent or Guardian,

Your child's school is being monitored for their compliance in special education this year. As part of the audit this year the Maine Department of Education (Maine DOE) would like to receive a student's perspective of special education programming. By signing this letter, you agree to have a Maine DOE employee conduct a short interview with your child to capture their viewpoint. We appreciate your support in collecting this information in order to better serve students with disabilities. A copy of the interview questions is attached to this form for your review. Some students feel well prepared when they have pre-written their responses with the assistance of their parents or staff.

Thank you for your assistance.

Regards,

The Maine DOE State Agency Programs Team
