What is B13?

Indicators are measures of compliance and effectiveness of a state's implementation of the Individuals with Disabilities Education Act (IDEA).

B13 looks at percent of youth ages 16+ with measurable, annually updated IEP goals and appropriate transition assessment, services and courses.

<https://ideadata.org/sites/default/files/media/documents/2022-06/IDC%20Laminated%20Cards%20%282%29.pdf>

Why is this important?

The state of Maine reports all B13 data to OSEP (Office of Special Education Programs).

This means if any part of a transition plan is non-compliant, we are required to report the whole plan as 0%.

Therefore, each component of the transition plan must meet federal requirements.

IMPORTANT

Compliance versus Programming

As a team, we monitor compliance

BUT

programming is so important too!

Meaningful Day

Meaningful Day means individualized access for persons with developmental disabilities to support their participation in activities and functions of community life that are desired and chosen by the general population.

Meaningful Day

This includes:

- Purposeful and meaningful work
- Substantial and sustained opportunity for optimal health
- Self-empowerment and personalized relationships
- Skill development and/or maintenance
- Employment, educational, social and community inclusion activities that are directly linked to the individual's vision, goals and desired personal outcomes

Meaningful Day

meaningful to You?**

Meaningful Day

**Everybody deserves the
opportunity to live a life that is
meaningful to them.**

Meaningful Day

The Big Picture: Guiding Questions

Ask yourself:

- What is it that you are **actually doing to support** this student/youth?
- What **assessments** are being used?
- How are you **applying** the results?
- Are activities & services **meaningful**?
- Will what you are doing really **help the student** to achieve his/her postsecondary goals and to enjoy a quality of life/Meaningful Day?

Post-Secondary plans are only for those children with a disability beginning during their 9th grade year.

However, research continues to show that beginning transition planning earlier results in better post-secondary outcomes for children with disabilities.

Progress:

This goal aligns with his Education/Training, Employment and Independent Living Goals in Section 9D of his IEP and will support him in these areas, so the post-secondary language was incorporated into this existing goal.

Frequently Asked Questions

[This Photo](#) by Unknown Author is licensed under [CC BY-NC](#)

How do I write a good transition plan for a child is a new 9th grader with an annual in September?

Because MUSER states that the transition plan must be completed for each IEP, during but not later than 9th grade or age 16, whichever comes first (MUSER IX.3(A)(1)h), you can go ahead and have your annual meeting, then state that you will meet again towards the end of the 9th grade school year to complete the Transition Plan once you better know the student.

What if the child wants to be a “Rock Star”?

Do not discourage the student. Instead work towards helping them learn exactly what is involved with that dream job and expose them to other related opportunities.

Why can't I list specific colleges or businesses in a transition plan?

Do not list specific colleges or businesses on a transition plan, because you can not guarantee placement.

Can we include the Parents in Section 9F?

Section 9F is about Transition Services and Activities and is intended to “Describe the activities provided by the adults in the school and in the community that will enable and promote the child’s progress toward meeting annual and post-secondary goals.”

Our guidance is to bullet these activities.

What do we do if the parents don't want to encourage the child to seek employment?

It is very important to work with your families to help them understand the power of post-secondary planning.

Overview of Transition Planning

Adapted from National Technical Assistance Center on Transition (NTACT)

Transition Assessment: Where Am I Now?

A process of collecting data from informal and formal assessments of students' strengths, needs, preferences and interests over time from multiple stakeholders in areas such as, academic skills; career interests and aptitudes; self-determination skills and opportunities; and independent living skills.

Measurable Postsecondary Goals: Where Do I Want to Go?

Beginning no later than age 16, the IEP must include measurable postsecondary goals based on age-appropriate transition assessment in the areas of:

- Training and/or Education
- Employment and Career
- Independent Living, if appropriate

Instruction and Transition Services: How Will I Get There?

In order to best prepare students to reach their identified measurable postsecondary goals, IEP teams will:

- Identify transition services or activities (including courses of study) that are in alignment with the measurable postsecondary goals
- Identify measurable annual goals that will support the transition services and assist students to complete their courses of study and achieve their postsecondary goals
- Involve additional agencies or other transition stakeholders who can assist in facilitating the successful transition from high school to postsecondary environments. Note: Any agency likely to provide or pay for services must be invited to participate in IEP meetings with the consent of the parent or student who has reached the age of 18 years old.
